**EU: Beyond the Crisis** Nikolaos Papakostas, Nikolaos Pasamitros, 2016-03-15 Though crises arise organically in all political systems this volume treats the current challenges facing the EU as a unique situation It takes stock of its losses gains and opportunities and what constitutes a viable solution to the EU s current predicament By envisioning the EU as an evolving rather than static body this collection zeroes in on the conceptual weaknesses that destabilized the EU and the factors that will help the organization rethink its place and purpose This book clarifies aspects of EU parliamentarism within the context of the unfolding crisis and addresses political cohesion and institutional integration It ultimately stresses the role of perception and image on the future of the EU s social and political integration

**Innovation in Food Ecosystems** Paola De Bernardi, Danny Azucar, 2019-11-28 This book addresses the intersections of entrepreneurship innovation and sustainability in food systems and presents high quality research illustrating the central role that food consumption and production play in achieving sustainability goals Entrepreneurship and innovation have become particularly relevant aspects in the European Union EU especially since the Sustainable Development Goals SDGs were announced in 2015 In many cases innovations tend to arise from small and medium sized enterprises and from completely new entrepreneurial endeavors This book represents essential reading for researchers and young academics seeking to reduce disparities and inequalities in food production and consumptions patterns By encouraging sustainable entrepreneurship and innovation it will also help young scholars find support for their startup ideas

**Industrial Policy Beyond the Crisis** David Bailey, Helena Lenihan, Josep-Maria Arauzo-Carod, 2014-06-11 After years of official disrepute industrial policy IP is back in vogue at regional national and international levels driven by concerns over competitiveness globalisation de industrialisation unemployment and the comparatively slow growth of the EU economy especially in this post recession phase At the same time IP has been seen as a catalyst for designing economic recovery strategies at regional national and international levels as well as being a concerted strategy to develop new clean tech industries to tackle environmental challenges If anything the recent global recession and credit crunch have highlighted the fragility of some states and localities economic development paths and the unbalanced nature of their economies in terms of an over reliance on sectors such as retail financial services and construction to the detriment of manufacturing This also suggests an accompanying need for greater economic diversity

so as to avoid over dependencies on certain sectors and a better balance of ownerships forms But what should be the shape of IP in the wake of the crisis and how can IP rebalance economies help support sustainable development and catalyse new technologies and innovations whilst learning lessons from past experience and debate This edited volume examines these questions through a wide range of diverse contributions from expert international authors This book was originally published as a special issue of Policy Studies

### **Beyond the Crisis**

Adjiedj Bakas, 2009 The Current Deep Economic Crisis Marks a Great Transition The Chinese phrase for crisis consists of two words danger and opportunity In Beyond the Crisis The Future of Capitalism renowned futurologist Adjiedj Bakas leads you through and then out of the New Great Depression of the 21st century The current economic crisis marks the end of an era and the start of a new one It is the 5th major crisis in 200 years time All of them occurred at the transition from one era to the next The 1930s may have been a time of deep economic crisis and mass unemployment yet in those days the Kennedys made their fortunes art deco

was born and the radio car and telephone grew to be so much in demand that great new industries emerged out of the ashes of the crisis During the major economic crisis of the 1980s the personal computer mobile phone and Internet were born and developed into major new industries During the current crisis we finally say goodbye to the 20th century and transit into the new post material economy with new economic pillars and the mixture with digital collaboration powered by cloud computing the next generation Internet We say hello to a new era with China as the new global powerhouse instead of the U S with globalization turning into slowbalization with less wealth and more focus on the Economy of Happiness Bakas looks behind today s headlines and uses knowledge and wisdom from different fields economics technology philosophy and spirituality in order to grasp what is really going on in our world and the real changes in our global economy I truly recommend this book because it may change your future and that of your children Professor Jianmao Wang Economist at the China Europe International Business School

**The EU Economic and Social Model in the Global Crisis** Dagmar Schiek,2016-02-11  
This book addresses the viability of the EU economic and social model within and after the global economic crisis It identifies four key issues which warrant further discussion 1 the asymmetry of the legal and policy framework of the euro and potential recalibration 2 substantive tensions between the EU economic constitution and its normative aim of social justice and impacts on national policy 3 the role of civil society including the two sides of industry in overcoming these tensions and 4 the EU s global aspirations towards the creation of a viable socio economic model Its chapters offer two perspectives on each of the four main issues In drawing these debates together the book provides a broad understanding as well as starting points for future research Bringing together different disciplinary approaches ranging from legal studies to political economy sociology and macroeconomics it is a valuable contribution to the debate on the European social model and introduces new insights by focusing on legal and political tensions the impact of the financial crisis and other economic contexts as well as global dimensions

**Managing Globalization** Stefano Andi, Matteo Rossi, Demetris Vrontis, 2016-05-11 Globalization stems from the verb to globalize which embodies the concept of international interdependence and influence between various social and economic systems In an increasingly globalized market environment there is an impetus for many firms to look to foreign markets in order to maintain competitive advantage Over recent years it has been possible to see dramatic changes that have strong impacts on all businesses Strategic process can provide an overall strategic direction to the management of an organization and gives a specific direction to areas like financial strategy marketing strategy organizational development strategy and human resources strategy in order to achieve success Innovation is the foundation of economic growth and corporate prosperity Finally entrepreneurship provides all the necessary mobilization for this growth and prosperity In this respect this book provides scientific evidence and direction to businesses competing in the contemporary competitive and changing environment As such it is an essential reference source building on the available literature in the field of globalization strategic management and innovation use while providing for further research opportunities in this dynamic field The book presents research and paradigms that transcend classical theory in order to examine how business practice is positively affected by these conditions Across a multitude of sectors and organisational types scholars of different business specialisations set the theoretical foundations of contemporary thinking and present their practical implementations

**Beyond the Crash** Gordon Brown, 2010-12-07 Gordon Brown's book will offer insight into the events that led to the fiscal downward spiral and the reactions of world leaders as they took steps to avoid further disaster The book will also offer measures Brown believes the world should adopt to regain fiscal stability Long admired for his grasp of economic issues Brown's book will be a work of paramount interest during these uncertain financial times and is sure to attract intense media coverage The book offers a unique perspective on the financial crisis as well as innovative ideas that will help create a sound economic future and will help readers understand what really has happened to our economy Mr Brown has this to say We now live in a world of global trade global financial flows global movements of people and instant global communications Our economies are connected as never before and I believe that global economic problems require global solutions and global institutions In writing my analysis of the financial crisis I wanted to help explain how we got here but more importantly to offer some recommendations as to how the next stage of globalisation can be managed so that the economy works for people

and not the other way around      *Policy Design in the European Union* Risto Heiskala, Jari Aro, 2018-01-24 This edited collection addresses a paradox at the heart of the European Union if it is a constantly enlarging empire of governance how can almost thirty member states design policies as an administrative whole whilst narrowly approaching all political issues from one economic point of view The contributors to this collection approach this by studying knowledge production policy formation and policy implementation in the union The topics covered include the history of the union its nature as an empire in the making compared to historical successors as well as current USA and China formation of union level statistical data and policy documents paradoxes of fiscal governance social innovation policy youth and education policy energy policy and foreign policy with particular regard to Russia The concluding chapter outlines five alternative future scenarios for the union extending from collapse and marginalization to the emergence of a federal empire The book is essential reading for anybody interested in the EU including students and scholars across a range of disciplines including sociology political science international relations economics management studies public and social policy science and technology studies and environmental policy      **Beyond Innovation Hotspots** Matthias Kiese, Rasmus C. Beck, Dirk Fornahl, Christian Ketels, 2024-12-09 This expertly edited book investigates the role of specific clusters and cluster policies for the competitiveness and development of regions facing stagnation and decline or the challenges of catching up or transforming Bringing together a team of skilled contributors *Beyond Innovation Hotspots* demonstrates the importance of context specific policy responses and effective institutional frameworks to enhance regional development      **PROCEEDINGS OF THE 2nd INTERNATIONAL CONFERENCE ON QUANTITATIVE, SOCIAL, BIOMEDICAL & ECONOMIC ISSUES 2018** Christos C. Frangos, 2018-03-02 This year's Conference is organized by the Greek Foundation for Research in the Quantitative Social and Economic Subjects which is a non profit Company with Articles of Association registered in the Chamber of Non for profit organizations This Conference is a continuation in a broader sense of the four International Conferences which were organized by myself during the years 2003 2009 2013 and 2015 under the auspices of the Technological Educational Institute of Athens and of the 1st International Conference on Quantitative Social Biomedical and Economic Issues June 29 30 2017 Athens organized under the Auspices of the Greek Foundation for Research in the Quantitative Social and Economic Subjects This Conference is focusing on the Emerging New Technologies in every Sector Financial Social Biomedical Humanitarian Educational and Economic the influence which they exercise on Management Education Economy Information and Communication Medicine Outer Space Research and the dangers and complications in people's behavior generated from the uncontrollable use of the New Technologies      *Finance and Industrial Policy* Giovanni Cozzi, Susan Newman, Jan Toporowski, 2016-03-10 The 2008 global financial crisis together with the experience of de industrialization across Western Europe over the last three decades has focussed attention on financial regulation and industrial policy Industry and finance policies have largely been discussed separately and this book argues that the two should be considered together in both

analysis and policy formulation that deals with critical questions of how finance has intervened in industrial restructuring and how it might better serve the real economy Moreover policy debates have paid relatively little attention to the heterogeneous economic structures and growth trajectories of European economies and the interconnectedness and interdependencies of growth paths that present specific challenges to policy and highlight the need for cooperation across the region This book brings together leading scholars and policy makers to contribute to policy debates in three ways First it includes current discussions of banking policy regulation and reform to reassert the need for financial institutions that will back up and finance an industrial policy to revive the European economy Second it reviews the role of industrial and investment policy in supporting innovation creating jobs and generating sustainable economic growth Third it advances alternative policy proposals aimed at generating sustainable economic growth and employment in Europe Part I analyses the nature of growth industrial and economic restructuring in relation to finance in the lead up to the crisis at regional national and sector levels Part II presents alternative and progressive policy proposals for growth and employment in Europe in light of the analysis presented in Part I

**The Law of the Future and the Future of Law** Sam Muller, Stavros Zouridis, Morly Frishman, Laura Kistemaker, 2011-06-21 The Law of the Future and the Future of Law is a unique collection of think pieces in which a wide variety of experts share their thoughts on how they envision the future of law By asking the question What do you see as the most significant challenges for the development of the law What developments are we likely to see in the coming two to three decades What do those developments mean for national legal systems as a whole the Hague Institute for the Internationalisation of Law HiiL has canvassed the views of a large number of renowned experts in particular areas of law This volume was prepared as part of the Law of the Future Joint Action Programme and as the basis of the Law of the Future Conference on 23 and 24 June 2011 The Law of the Future Joint Action Programme is based on the premise that prospective thinking about law is not only desirable but also required in order to ensure that law and legal systems do not become obsolete ineffective or unjust The aim is to set a world standard in thinking ahead to guide decision makers today For more information visit [www.lawofthefuture.org](http://www.lawofthefuture.org)

*Benchmarking*

*Working Europe 2011*, 2011 Is the Europe 2020 strategy leading us as it promises towards smart sustainable and inclusive growth This is the main question addressed by this publication on the eve of this year's Spring European Summit The ETUC and ETUI offer a critical assessment of the strategy and its various components will it be able to provide a framework for the creation of more and better quality jobs Are the policies and indicators set to promote an increase in social cohesion How can workers better participate in the achievement of these various aims Benchmarking Working Europe 2011 is structured in eight topical chapters illustrated by a significant number of graphs and has a completely new layout The various chapters on the different facets of Europe 2020 contain a carefully argued and critical analysis of the design and contents of the European mid term strategy and of the state of the European economic employment and social indicators They question the underlying foundation which firmly places the emphasis on fiscal consolidation while neglecting the need for economic growth and quality jobs The major problem is that if the macro economics are wrong all the other laudable targets and procedures in the Europe 2020 strategy raising education standards and R D spending reducing poverty will prove entirely illusory further undermining the credibility of Europe Several of the contributions to this volume show that it is rather by raising social and environmental standards and wellbeing that we might succeed in achieving a sustainable growth pattern and a healthier and more cohesive society for the future

**The Political Economy of Mediterranean Europe** Luis Cárdenas, Javier Arribas, 2024-08-19 Applying the demand led growth models framework this book examines the recent macroeconomic performance of the key Mediterranean economies Italy Spain Portugal and Greece including the responses to the economic and financial crisis 2008 the debt crisis 2010 and the COVID 19 crisis 2020 As the book explains the central idea of the growth model approach is that the widespread breakdown of the old labor institutions such as the existence of strong unions centralized wage bargaining and the participation of the workforce in corporate governance has led to a fall in the wage share and a rise in inequality in most advanced economies Thus the two main contemporary growth models are usually characterized as debt led and export led In both models the same processes that cumulatively drive growth such as over consumption also simultaneously undermine the foundations on which this expansion takes hold The book examines the extent to which these processes hold true for Mediterranean economics and explores the key factors of their economies including productive capacity growth of aggregate demand components wage led or profit led regimes personal income distribution the foreign sector the financial sector labor relations the labor market and welfare states In particular the book examines whether policy responses and state interventions in recent years have led to a divergence between the economies To what extent are these changes transforming the existing growth models Are we facing a change in the Mediterranean model or the disappearance of the Mediterranean bloc as a whole This book marks a significant addition to the literature on the economics and politics of Southern Europe and the fields of political economy comparative economics and macroeconomics more broadly
