Inequality Classic Readings In Race Class And Gender:

Inequality David Grusky, 2018-05-04 This book redirects the focus of public debate to issues of gender and racial segregation and suggests that they should be fundamental to thinking about the status of black Americans and the origins of the urban underclass It is a starting point for students and advanced scholars of inequality *Inequality: Classic Readings in Race, Class, and Gender* David B. Grusky, Szonja Szelényi, 2006

The Inequality Reader David Grusky, Szonja Szelényi, 2006-08-29 In this new volume noted scholars David B Grusky and Szonja Szel nyi have assembled a compilation of the most relevant contemporary readings on social inequality that is also backed by a select list of the most fundamental classics all from top names in the field

Poverty and Inequality David B. Grusky, S. M. Ravi Kanbur, Amartya Kumar Sen, 2006 This is a collection of essays from leading public intellectuals that identifies major conceptual problems in the analysis of poverty and inequality and advances strategies for reducing poverty and inequality that are consistent with these new conceptual and methodological approaches

INEQUALITY READER DAVID GRUSKY, 2019-06-14

Social Class and Stratification Rhonda F. Levine, 2006 Bringing together various statements on social stratification this collection offers contributions to debates on the nature of race class and gender inequality

The Victims' Revolution Bruce Bawer, 2023-03-14 Gender ideology The anti racism craze The MeToo movement Sanctuary cities These are among the building blocks of our new woke world which during the last few years seemed to explode out of nowhere But it didn't emerge from nowhere It originated on the campuses of some of our most respected colleges and universities Over the past several decades more and more faculty members at those institutions have exchanged humanism for radicalism Rejecting the search for truth they've become purveyors of ideology They're no longer teachers but propagandists once devoted to the spread of knowledge they now focus on power dynamics seeing oppression everywhere and viewing everyone around them through the lens of group identity Among the most egregious consequences of this intellectual transformation has been the increasing prominence and power of disciplines called identity studies among them Women's Studies Black Studies Queer Studies and even more recently Fat Studies and Whiteness Studies In *The Victims Revolution* Bruce Bawer gives us the first true history of this phenomenon He takes us on a tour of the campuses classrooms and conferences where we see and hear professors proudly pushing these new orthodoxies On every page we can observe the origins of the virus that in the past decade has escaped from the ivory tower and infected the whole Western world

The Love Jones Cohort Kris Marsh, 2023-02-09 This book provides a structural understanding of how identities of race class gender and singleness reconfigure the Black middle class

Social Stratification David B. Grusky, 2018-05-04 The book covers the research on economic inequality including the social construction of racial categories the uneven and stalled gender revolution and the role of new educational forms and institutions in generating both equality and inequality

Rural Inequality in Divided Russia Stephen Wegren, 2013-07-24 This book examines economic and political polarisation in post Soviet Russia and in

particular analyses the development of rural inequality It discusses how rural inequality has developed in post Soviet Russia and how it differs from the Soviet period and goes on to look at the factors that affect rural stratification and inequality using human and social capital profession gender and village location as independent variables The book uses survey data from rural households and fieldwork in Russia in order to highlight the multiplicity of divisions that act as fault lines in contemporary rural Russia Black Masculinity and Sexual Politics Anthony J. Lemelle, Jr.,2010-04-26 This book is about how African American males experience masculinity politics and how U S sexism and racial ranking influences relationships between black and white males Lemelle argues that the only way to accommodate African American males is to eliminate sexism particularly as it appears in the organization of families **Digesting Race, Class, and Gender** I. Ken,2010-12-20 How are the ways that race organizes our lives related to the ways gender and class organize our lives How might these organizing mechanisms conflict or work together In *Digesting Race Class and Gender* Ivy Ken likens race class and gender to foods foods that are produced in fields mixed together in bowls and digested in our social and institutional bodies In the field one food may contaminate another through cross pollination In the mixing bowl each food s original molecular structure changes in the presence of others And within a meal the presence of one food may impede or facilitate the digestion of another At each of these sites the foods of race class and gender are involved in dynamic relationships with each other that have implications for the shape or the taste of our social order **Families** ,2011 **The Politics and Psychoanalysis of Comedy** Robert Samuels,2023-11-20 This book looks at the political aspects of comedy and how humor is shaped by unconscious social and psychological factors within a particular cultural and historical context Updating Freud s work on jokes Robert Samuels argues that any universal model of comedy must take into account the role played by distinct genres which are themselves determined by particular political psychopathologies In looking at contemporary comedy we encounter a structure that is often seen throughout the world in response to what is experienced as a Leftist super ego censoring thoughts and speech and a Libertarian Right which promotes free speech as the ultimate value Within this dynamic comedians seeking to make their audience laugh by poking fun at sensitive and taboo subjects intentionally and unintentionally these humorists present an alternative to Left wing political correctness and identity politics Contemporary comedians then cannot help but to cater to Right wing politics since the Right is centered on loudly rejecting the cultural dictations of the Left *Families* Shirley A. Hill,2011-06-30 This book focuses on the impact of economic systems and social class on the organization of family life Since the most vital function of the family is the survival of its members the author give primacy to the economic system in structuring the broad parameters of family life She explains how the economy shapes the prospects families have for earning a decent living by determining the location nature and pay associated with work *Gender, Work, and Economy* Heidi Gottfried,2013-11-15 This engaging new text uses a feminist lens to crack open the often hidden worlds of gender and work addressing enduring questions about how structural inequalities are produced and

why they persist Making visible the social relationships that drive the global economy the book explores how economic transformations not only change the way we work but how we live our lives The full extent of changing patterns of employment and the current financial crisis cannot be fully understood in the confines of narrow conceptions of work and economy Feminists address this shortcoming by developing both a theory and a political movement aimed at unveiling the power relations inherent in old and new forms of work By providing an analysis of gender work and the economy Heidi Gottfried brings to light the many faces of power from the bedroom to the boardroom A discussion of globalization is threaded throughout the book to uncover the impact of increasing global interconnections and vivid case studies are included from industrialized countries such as the US and the global cities of New York London and Tokyo as well as from developing countries and the emerging global cities of Beijing Shanghai and Dubai This comprehensive analysis of gender and work in a global economy incorporating sociology geography and political economy perspectives will be a valued companion to students in gender studies and across the social sciences more generally

The Middle Class in Emerging Societies

Leslie L. Marsh,Hongmei Li,2015-10-23 This volume examines the discursive construction of the meanings and lifestyle practices of the middle class in the rapidly transforming economies of Asia Latin America Africa and the Middle East focusing on the social political and cultural implications at local and global levels While drawing a comparative analysis of what it means to be middle class in these different locations the essays offer a connective understanding of the middle class phenomenon in emerging market economies and lay the groundwork for future research on emerging transitional societies The book addresses three key dimensions the discursive creation of the middle class the construction of the cultural identity through consumption practices and lifestyle choices and the social political and cultural consequences related to globalization and neoliberalism

De Gruyter Handbook of Sociology of Innovation and Entrepreneurship

Olav Sorenson,Patricia H. Thornton,2025-04-21 The number of organization theorists and sociologists studying innovation and entrepreneurship has grown rapidly over the past two decades yet it has been roughly 15 years since any volume has attempted a comprehensive review of the state of the literature In addition to having grown rapidly the sociological literatures on entrepreneurship and innovation have evolved relatively independently However there are intellectual synergies to be gained in connecting these two literatures A large share of innovation happens in the context of startups and a large share of startups pursue innovation through the commercialization of products and services Featuring engaging contributions from leading scholars in the field the De Gruyter Handbook of Sociology of Innovation and Entrepreneurship is a must have and up to date summary of the literatures on the sociology of entrepreneurship and innovation It is a comprehensive reference work highlighting emerging areas and cutting edge research while also providing a vibrant agenda that empowers scholars and students to generate new ideas and knowledge

The Employable Sociologist

Martha A. Martinez,2023-10-14 This book addresses a gap in and outside academia how to help Sociology undergraduates develop skills

for career success while maintaining a sociologically rigorous approach Matching sociological theories methods and knowledge with contemporary capitalistic managerial and work practices it shows how sociology undergraduates are not only employable but have marketable advantages over graduates of other disciplines A student following the program embodied in this book will actively nurture a strong sociological identity create a job search plan integrating personal and disciplinary interests values and skills design job application materials that provide the best fit for specific jobs and organizations and launch a satisfying career path Beyond an employment guide it will facilitate the teaching of career development by Sociology faculty increase students ongoing confidence in their potential and provide a solid foundation for communicating the transformative power of Sociology to employers and managers in the government business and non profit sectors

Design for Social Diversity Emily Talen, Sungduck Lee, 2018-03-13 The most successful urban communities are very often those that are the most diverse in terms of income age family structure and ethnicity and yet poor urban design and planning can stifle the very diversity that makes communities successful Just as poor urban design can lead to sterile monoculture successful planning can support the conditions needed for diverse communities This new edition addresses the physical requirements of socially diverse neighborhoods Using the city of Chicago and its surrounding suburban areas as a case study the authors investigate whether social diversity is related to particular patterns and structures found within the urban built environment Design for Social Diversity provides urban designers and architects with design strategies and tools to ensure that their work sustains and nurtures social diversity
