Mcdonalds Training Manual

Robin Leidner

Mcdonalds Training Manual:

Fast Food Nation Eric Schlosser, 2012 An exploration of the fast food industry in the United States from its roots to its long term consequences Working for McDonald's in Europe Tony Royle, 2004-08-02 The McDonald s Corporation is not only the largest system wide sales service in the world it is a phenomenon in its own right and is now recognized as the most famous brand in the world By providing a detailed analysis of the extent to which the McDonald s Corporation adapts or imposes its labour relations policies in Europe this volume represents a real life case study revealing the interaction between a global multi national enterprise and the regulatory systems of a number of different European countries Key features include an overview of the McDonald s Corporation s development and structure an analysis of its corporate culture and the issues of franchising an examination of key union strategies including systems of co determination consultation and collective bargaining a chapter dealing specifically with European legislation in particular the McDonald s European Works Council The author systematically analyzes the conflict between the McDonald s Corporation and the industrial relations systems of the European countries within which it operates and exposes this conflict as an unequal struggle between economic liberalism and collectivism **FTC Franchising Regulation** United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Transportation and Hazardous Materials, 1995 Distributed to some depository libraries in microfiche **Labour Relations in the Global Fast-Food Industry** Tony Royle, Brian Towers, 2004-08-02 The fast food industry is one of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights The McDonaldization of Society 6 George Ritzer, 2011 As one of the most noteworthy and popular sociology books of all time The McDonaldization of Society 6 demonstrates the power of the sociological imagination to 21st century undergraduates in a way that few other books have This engaging work of social criticism is praised for sparking debate in and out of the classroom and for allowing students to read in depth on a small number of fascinating topics and it vividly demonstrates the relevance of Weber s discussion of rationalization the basis of McDonaldization to the everyday life of today s student New and Retained Features Links a large number of social phenomena to McDonaldization some which are directly impacted by the principles of the fast food chain and others where the effect is more tenuous A new final chapter 10 on The DeMcDonaldization of Society examines the

processes of deMcDonaldization and concludes that while it is occurring on the surface McDonaldization is alive and well for example in the structures that underlie Web 2.0 Many new and updated examples are from the digital world keeping the text ultimately relevant for the contemporary student reader Addresses the advantages of McDonaldization then focuses on the problems and dangers it poses and looks at efforts to deal with those challenges Examines the link between McDonaldization and globalization Challenges the reader to rethink McDonaldization as part of the structure of society and to act to reverse the trend towards it

Fast Food, Fast Talk Robin Leidner,1993-08-04 Attending Hamburger University Robin Leidner observes how McDonald s trains the managers of its fast food restaurants to standardize every aspect of service and product Learning how to sell life insurance at a large midwestern firm she is coached on exactly what to say how to stand when to make eye contact and how to build up Positive Mental Attitude by chanting I feel happy I feel terrific Leidner s fascinating report from the frontlines of two major American corporations uncovers the methods and consequences of regulating workers language looks attitudes ideas and demeanor Her study reveals the complex and often unexpected results that come with the routinization of service work Some McDonald s workers resent the constraints of prescribed uniforms and rigid scripts while others appreciate how routines simplify their jobs and give them psychological protection against unpleasant customers Combined Insurance goes further than McDonald s in attempting to standardize the workers very selves instilling in them adroit maneuvers to overcome customer resistance The routinization of service work has both poignant and preposterous consequences It tends to undermine shared understandings about individuality and social obligations sharpening the tension between the belief in personal autonomy and the domination of a powerful corporate culture Richly anecdotal and accessibly written Leidner s book charts new territory in the sociology of work With service sector work becoming increasingly important in American business her timely study is particularly welcome
