McGill and Its Story, 1821-1921 Cyrus MacMillan, 1921 *McGill and Its Story 1821-1921* Cyrus Macmillan, 2015-06-04 Excerpt from *McGill and Its Story 1821 1921* The following pages give in general outline the century story of McGill University They have no pretension to the title of detailed history for it has been possible to chronicle only the circumstances which shaped the university in its infancy and the important events of its succeeding years The story is one of struggle and disappointment of discouragement and controversy and of ultimate success and triumph The men who made McGill were men of far and clear vision of unfaltering courage and unwavering faith They never doubted the final breaking of the clouds they were baffled only to fight better in their forward march on behalf of national enlightenment They believed in the future greatness of Canada and of the place of education in moulding their country's destiny The students of today who enjoy the advantages of a great seat of learning are not always conscious of the toil and the anxiety the weariness and the fret of their college's early years they perhaps do not always appreciate their glorious heritage and the efforts and the sacrifices of those who scorned delights and lived laborious days in order to leave that heritage behind The author's hope is that the story of struggle herein recorded may deepen our gratitude for our privileges and our reverence for McGill and the men who made it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original

Harris,Arthur Tremblay,1960-12-15 This bibliography is the first of a series of studies about higher education in Canada sponsored by the committee on the History of Higher Education in Canada established by the National Conference of

Canadian Universities Among its nearly 4 000 entries are included the books pamphlets theses dissertations and articles in journals and magazines which supply the context and commentary on the history of Canadian higher education Part I of the Bibliography provides the context our universities do not exist in a vacuum they are part of the economic political religious and social life of the community Part I therefore includes a section on Canadian Culture listing histories of Canada and its provinces of its religious and social institutions of its art its economy racial groups relations with other countries In order to study higher education in relation to other levels of education another section lists works concerned with educational developments and problems at all levels Part II lists the works bearing directly on higher education in Canada and includes sections on History and Organization Curriculum and Teaching The Professor The Student Entries are arranged in chronological order in all sections in order to present the progressive development of each topic and a full Index enables easy reference by author No distinction has been drawn between English and French language publications Chemistry and Chimie are one subject The relative proportion of English and French entries in a section is often significant as indicating differences in the frequency and importance of particular fields of study in our colleges

McGill Medicine Joseph Hanaway, Richard Cruess, 1996-03-08 Founded by four Scottish physicians the McGill School of Medicine opened in 1829 Teaching style in the school followed the so called Edinburgh tradition which for decades emphasized anatomy and clinical observation and ignored progressive educational theory and scientific advances Out of this conservative environment however emerged four remarkable young professors who would lead the reform that marked a new era in medicine at McGill William Osler Francis Shephard Thomas Roddick and George Ross introduced laboratory training to teach students the scientific method in a hands on environment and to encourage them to develop a more sophisticated approach to clinical medicine and surgery McGill Medicine Volume 1 records not only the history of Canada s premier medical school but also the evolution of scientific medical education in Lower Canada

Institutions of Higher Education Linda Sparks, 1990-01-24 This bibliography brings together in one comprehensive volume citations of books dissertations theses and ERIC microfiche relating to the history of specific institutions of higher education worldwide All types of postsecondary institutions two years colleges liberal arts colleges seminaries specialized institutions and universities are included Entries include the following elements when available author editor title place of publication publisher publication date and number of pages Citations from 85 countries are included Entries are by country dependency and territory The United States has been further divided by state Names of institutions are in English References are in the language in which they were written The majority of the citations should be available in a library somewhere in the United States Obscure sources that may be difficult to obtain have been included because they are often the only citation All editions of a title as well as older works are included because of their potential value to a researcher The book should be a part of all college university and large public library collections College of Education faculty members specializing in higher or comparative education will find much of value here

Canadian Fairy

Tales Cyrus MacMillan, 2022-09-04 In *Canadian Fairy Tales* Cyrus MacMillan weaves together a tapestry of lore that delves into the heart of Canada's cultural heritage. This compendium of tales carefully selected and narrated emerges as a significant contribution to the literary preservation of folklore. MacMillan's narrative style bridges the oral traditions of indigenous peoples and the literary forms of European settlers, creating a unique hybrid genre that is both educational and enchanting. Drawing on the stark landscapes and diverse cultures of Canada, these stories encapsulate themes of nature, morality, and the supernatural within their rich literary context, reflecting a nation's composite identity through its folk narratives. Cyrus MacMillan, a scholar and anthologist, was a pivotal figure in collecting and publishing Canadian folklore. Motivated by the early 20th-century nationalism and the movements aimed at distinguishing Canadian culture from its colonial roots, MacMillan sought to acknowledge the original inhabitants of the land while contributing to a distinct national character. His academic background and his profound respect for the stories passed down through generations positioned him to compile this celebration of narrative tradition framed within the context of Canada's emerging literary sovereignty. Recommended for scholars and enthusiasts of fairy tales and folklore alike, *Canadian Fairy Tales* by Cyrus MacMillan offers a window into the soul of a nation. The blending of indigenous tales with narrative techniques reminiscent of the European fairy tale canon makes this collection not only a pleasure to read but also an important work in the canon of Canadian literature. This DigiCat Publishing edition ensures that the wonder and wisdom encapsulated in these stories continue to inspire, entertain, and educate both Canadian readers and a global audience, preserving the vibrant fabric of a nation's folklore heritage.

McGill in History Brian Lewis, Don Nerbas, Melissa N. Shaw, 2025-11-14 In 2021 McGill University celebrated its bicentennial anniversary, reflecting on contributions to research, education, and other successes. The university's founding within the context of nineteenth-century Atlantic capitalism requires that a deeper account engage with the more complex and difficult elements of its history. *McGill in History* brings together diverse historiographies and perspectives to critically examine how McGill has been implicated in power structures and is the product of conflicting ideologies. James McGill, the university's namesake, owned and profited from the sale of enslaved Black and Indigenous people, a legacy highlighted by the removal of his statue and ongoing debates over the racially charged Redman name used by the men's sports teams. Imperialism, settler colonialism, slavery, sexism, and homophobia are elements of McGill's story that must be fully integrated into a broader understanding of the university's institutional history. Challenging siloed narratives with new research, the contributors to this volume emphasize the important task of scholars to scrutinize and confront history that is unflattering and to rethink their institution's own story, a reckoning happening across many institutions of higher education around the world. *McGill in History* broadens the historical frame of critical university studies, showing how the university can serve as a model for understanding power in modern society.
