Little Journeys to the Homes of Great Businessmen Elbert Hubbard,2005-12-01 Millionaires as a rule are woefully ignorant Up to a certain sum they grow with their acquisitions Then they begin to wither at the heart The care of a fortune is a penalty I advise the gentle reader to think twice before accumulating ten millions from John J Astor Elbert Hubbard was one of the most respected journalists and most in demand lecturers of the early 20th century but he could not find a publisher for the delightful biographical sketches of famous figures he called his Little Journeys So at Roycroft the East Aurora New York artist colony he had founded he started Roycroft Press and published them himself In this volume Hubbard turns his inimitable voice on the lives of great names in American and Europe finance and entrepreneurship including Mayer A Rothschild John J Astor Peter Cooper Andrew Carnegie and others Better examples of Hubbard s wonderfully eccentric outlook and knowing amusing prose than of business history or biography these are lovely little journeys through the mind of a true American original American freethinker ELBERT GREEN HUBBARD 1856 1915 was editor and publisher of the monthly magazines The Philistine 1895 1915 and The Fra 1908 1917 Among his many books are The Man A Story of Today 1891 Forbes of Harvard 1894 No Enemy but Himself 1894 and The Man of Sorrows 1905

The Return of Great Power Rivalry Matthew Kroenig,2020-02-13 The United States of America has been the most powerful country in the world for over seventy years but recently the U S National Security Strategy declared that the return of great power competition with Russia and China is the greatest threat to U S national security Further many analysts predict that America s autocratic rivals will have at least some success in disrupting and in the longer term possibly even displacing U S global leadership Brilliant and engagingly written The Return of Great Power Rivalry argues that this conventional wisdom is wrong Drawing on an extraordinary range of historical evidence and the works of

figures like Herodotus Machiavelli and Montesquieu and combining it with cutting edge social science research Matthew Kroenig advances the riveting argument that democracies tend to excel in great power rivalries He contends that democracies actually have unique economic diplomatic and military advantages in long run geopolitical competitions He considers autocratic advantages as well but shows that these are more than outweighed by their vulnerabilities Kroenig then shows these arguments through the seven most important cases of democratic versus autocratic rivalries throughout history from the ancient world to the Cold War Finally he analyzes the new era of great power rivalry among the United States Russia and China through the lens of the democratic advantage argument By advancing a hard power argument for democracy Kroenig demonstrates that despite its many problems the U S is better positioned to maintain a global leadership role than either Russia or China A vitally important book for anyone concerned about the future of global geopolitics The Return of Great Power Rivalry provides both an innovative way of thinking about power in international politics and an optimistic assessment of the future of American global leadership *The Great Physician* G. Campbell Morgan, 2010-04-01 Or Lord referred to his work as that of the Physician Healing all manner of disease applies to the spiritual as well as the mental and physical our business is of bringing the sin sick face to face with the One Healer To do this demands some knowledge of His Methods and these are most radiantly revealed in the records of His early ministry From the Foreword

Searchlights from the Word G. Campbell Morgan,2010-04-01 1188 sermon suggestions One from every chapter in the Bible Morgan s expositions sparkle as they enhance Bible texts from every chapter in the Bible Concise and delightfully free of redundancy these selections reveal the master expositor s keen analytical insight into God s Word To encourage preachers and Bible teachers to develop their own sermon and lesson themes creatively the author mentions that these are sermon suggestions not sermons or sermon outlines He intentionally left the notes untitled preferring to let the text of Scripture be their only caption These penetrating truths firmly anchored in Scripture are best described by G Campbell Morgan himself On every page of the God breathed Writings there are many thoughts which stretch out like long clear arms of light across the darkness discovering things which otherwise were hidden and often illuminating wider areas than those of the immediate context They are searchlights From the multitude of these I have selected one in each chapter of the Bible Perhaps the work will also serve to illustrate a method of showing how focal points of radiating light gather their radiance from the context
