Grey As Told By Christian Chapter 1:

Society and God William Charlton,2020-01-30 Where should God be in thinking about society or society in thinking about God This book shows how philosophy can help non philosophers with these questions It shows that intelligence is the product not the source of society and language and the rationality of individuals is inevitably conditioned by the distinctive customs and beliefs of their societies Addressing the idea that religion can impede the smooth running of society it argues that the Western concept of religion is taken from Christianity and cannot usefully be extended to non European cultures But any society will be threatened by a sub society with customs conflicting with those of the whole in which it exists and Jews Christians and Muslims have sometimes formed such sub societies Charlton proceeds to consider how our dependence upon society fits with traditional beliefs about creation salvation and life after death and offers a synthesis that is new without being unorthodox He indicates where Christian customs concerning birth death sex and education conflict with those of secular liberalism and considers which culture Christian or secular liberal has the better chance of prevailing in a globalised world
