Growing Trees On The Great Plains:

Growing Trees on the Great Plains Margaret Brazell,1992 Margaret Brazell outlines in easy nonscientific terms the most economical and effective ways to plant and maintain trees in the area that stretches from Canada to Texas west of the 100th meridian to the Rocky Mountains

Tree Planting in the Great Plains Region Fred Runk Johnson,Francis Ezra Cobb,1923 In the treeless Great Plains trees and shrubs are essential to the making of a real home The first step in forest planting should be to provide a windbreak or shelter belt to afford protection from severe winds and furnish shade and comfort to both man and beast To be effective the shelter must be dense utilizing poplars and other fast growing species and with good care the trees will develop rapidly Then a woodlot should be started for the production of fence posts and fuel Thorough preparation of the soil spring planting and thorough cultivation of the soil after planting are the essential requisites for success
