Reilly,2008-12-22 This book analyzes the implementation of peace processes in Northern Ireland and Guatemala with emphasis on the role of mid level civil society and religious organizations or the voluntary sector Both countries interrupted years of conflict signed peace accords in 1998 and 1996 respectively and still struggle to make them work Despite very different economic development levels both countries have colonial legacies deep cultural divisions and engaged diaspora They grapple with violence poverty and inequitable distribution of wealth and power While religious differences are a backdrop to violence and reconciliation in both cases insecurity and inequity are the root cause and consequence of these conflicts The book summarizes lessons learned and makes policy recommendations for more civil post conflict societies arguing that similar dynamics fuel sustainable peace building and authentic development **Modern Genocide** Paul R. Gossen,2002 Four Creations is a collection of seventy four stories told to Gary H Gossen by Tzotzil Maya storytellers in San Juan Chamula Mexico Spanning four cycles of creations destructions and restorations from the dawn of cosmic order to the present era this epic history reveals a distinctly Maya vision of the universe grand in scope yet leavened with local humor irony and the Tzotzil narrators own critical commentaries Four Creations includes mythic accounts of modern history such as the Wars of Independence the Mexican Revolution and the current Protestant evangelical movement Given in both transcribed Tzotzil and English translations the

texts are enlivened by more than one hundred Maya Indian drawings and by Gossen's extensive ethnographic and historical notes based on his conversations with the narrators and more than thirty five years of study Miguel León Portillo's Foreword situates *Four Creations* within the broader context of Mesoamerican culture and traditions while the Afterword by Jan Rus relates this work to recent events in modern day Chamula

Mapping Latin America Jordana Dym, Karl Offen, 2011-12-01

For many a map is nothing more than a tool used to determine the location or distribution of something a country a city or a natural resource But maps reveal much more to really read a map means to examine what it shows and what it doesn't and to ask who made it why and for whom The contributors to this new volume ask these sorts of questions about maps of Latin America and in doing so illuminate the ways cartography has helped to shape this region from the Rio Grande to Patagonia In *Mapping Latin America* Jordana Dym and Karl Offen bring together scholars from a wide range of disciplines to examine and interpret more than five centuries of Latin American maps Individual chapters take on maps of every size and scale and from a wide variety of mapmakers from the hand drawn maps of Native Americans to those by famed explorers such as Alexander von Humboldt to those produced in today's newspapers and magazines for the general public The maps collected here and the interpretations that accompany them provide an excellent source to help readers better understand how Latin American countries regions provinces and municipalities came to be defined measured organized occupied settled disputed and understood that is how they came to have specific meanings to specific people at specific moments in time The first book to deal with the broad sweep of mapping activities across Latin America this lavishly illustrated volume will be required reading for students and scholars of geography and Latin American history and anyone interested in understanding the significance of maps in human cultures and societies

Staging Solidarity Tanya Goodman, Ronald Eyerman, Jeffrey C. Alexander, 2015-11-17 The South African Truth and Reconciliation Commission TRC is a modern social drama that enabled the nation s apartheid past to be constructed as a cultural trauma and by doing so created a new collective narrative of diversity and inclusion The TRC relied primarily on testimonies from victims and perpetrators of apartheid violence who

came forward to tell their stories in a public forum Rather than simply serving as data for setting the historical record straight this book shows that it was not only the content of these testimonies but also how these stories were told and what values were attached to them that became significant Goodman argues that the performative nature of the TRC process effectively designated the past as profane and simultaneously imagined a sacred future community based on democratic idealism and universal solidarity

The Hillary Doctrine Valerie M. South of the Future Anindita Banerjee, Debra A. Castillo, 2020-12-01 South Asia and Latin America represent two epicenters of migrant care work and the globalized reproductive market Yet scholars and the media continue to examine them in geographical and conceptual isolation South of the Future closes both these gaps It investigates nannying elder care domestic work and other forms of migrant labor in the Americas together with the emerging Wild West of biotechnology and surrogacy in the Indian subcontinent The volume is profoundly interdisciplinary and includes both prominent and emerging scholars from a wide variety of fields including anthropology law literary and cultural studies science and technology studies and social policy These contributors speak to the dynamic continually changing facets of the nexus of care and value across these two key regions of the global south By mobilizing specific locations and techno economics and putting them into dialogue with one another South of the Future rematerializes the gendered racialized bodies that are far too often rendered invisible in structural analyses of the global south or else are confined to particular geo and biopolitical paradigms of emerging markets Instead these bodies occupy the center of a global highly financialized economy of creating and sustaining life

Eduardo Halfon and the Itinerary of Memory Marilyn G. Miller, 2024-09-30 Arguably all of Guatemalan writer Eduardo Halfon s fictional works deal with quandaries of translation even in their original versions The award winning author of fifteen books claims to have lost his mother tongue when his

family fled to the United States after his tenth birthday This displacement echoing the displacement of his four grandparents from different corners of the Jewish diaspora to Guatemala gives Halfon like his ancestors before him good reason to consider translation a natural environment for his creative work and for life itself Indeed Halfon s uncanny ability to translate his family s history into fictions that resonate across the globe with readers in Spanish English and several other languages helps explain why he has received numerous prizes in the United States Spain Guatemala and even France some as a Latin American author others as a Latino or Jewish author Marilyn G Miller has written the first study to focus exclusively on this important voice in Jewish Latin American letters Only after returning to Guatemala and regaining his command of Spanish through reading literature did Halfon begin to build his life as a writer and translator Nonetheless the author admits that one thing is stubbornly true and it s this every sentence that I write every verb or adjective that I painstakingly insert or remove every literary thought that I have while writing always begins and ends in English Halfon s translated works are never parallel texts however Thus translation and its side effects foreign words linguistic lacunae multilingual modes of perception offer us crucial keys to understanding the author s fictional world as a vehicle for retelling and surviving Jewish trauma and finding his own particular plurilingual voice
