Violent Utopia Jovan Scott Lewis,2022-08-08 In *Violent Utopia* Jovan Scott Lewis retells the history and afterlife of the 1921 Tulsa race massacre from

the post Reconstruction migration of Black people to Oklahoma Indian Territory to contemporary efforts to rebuild Black prosperity He focuses on how the massacre in Tulsa s Greenwood neighborhood colloquially known as Black Wall Street curtailed the freedom built there Rather than framing the massacre as a one off event Lewis places it in a larger historical and social context of widespread patterns of anti Black racism segregation and dispossession in Tulsa and beyond He shows how the processes that led to the massacre subsequent urban renewal and intergenerational poverty shored up by nonprofits constitute a form of continuous slow violence Now in their attempts to redevelop resources for self determination Black Tulsans must reconcile a double inheritance the massacre s violence and the historical freedom and prosperity that Greenwood represented Their future is tied to their geography which is the foundation from which they will repair and fulfill Greenwood s promise

Entrepreneurship and Self-Help among Black Americans John Sibley Butler,2012-02-01 Since its publication in 1991 Entrepreneurship and Self Help among Black Americans has become a classic work influencing the study of entrepreneurship and more importantly revitalizing a research tradition that places new ventures at the very center of success for black Americans This revised edition updates and enhances the work by bringing it into the twenty first century

John Sibley Butler traces the development of black enterprises and other community organizations among black Americans from before the Civil War to the present. He compares these efforts to other strong traditions of self help among groups such as Japanese Americans, Jewish Americans, Greek Americans, and exciting new research on the Amish and the Pakistani. He also explores how higher education is already a valued tradition among black self help groups such that today their offspring are more likely to be third and fourth generation college graduates. Butler effectively challenges the myth that nothing can be done to salvage America's underclass without a massive infusion of public dollars and offers a fresh perspective on those community based organizations and individuals who act to solve local social and economic problems. *When Law Fails* Charles J. Ogletree, Austin Sarat, 2009. Essays that view wrongful convictions not as random mistakes but as organic outcomes of a misshaped larger system that is rife with faulty eyewitness identifications, false confessions, biased juries, and racial discrimination. Together the contributors reveal the dramatic consequences as well as the daily realities of breakdowns in the law's ability to deliver justice swiftly and fairly and calls on us to look beyond headline grabbing exonerations to see how failure is embedded in the legal system itself. *Oklahoma Today*, 1994. **The Deadly Ethnic Riot** Donald L. Horowitz, 2023-11-15. Donald L. Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot: an intense, sudden, lethal attack by civilian members of one ethnic group on civilian members of another ethnic group. Serious, frequent, and destabilizing, these events result in large numbers of casualties. Horowitz examines approximately 150 such riots in about fifty countries, mainly in Asia, Africa, and the former Soviet Union, as well as fifty control cases. With its deep and thorough scholarship, incisive analysis, and profound insights, *The Deadly Ethnic Riot* will become the definitive work on its subject. Furious and sadistic, the riot is nevertheless directed against a precisely specified class of targets and conducted with considerable circumspection. Horowitz scrutinizes target choices, participants, and organization, the timing and supporting conditions for the violence, the nature of the events that precede the riot, the prevalence of atrocities during the violence, the location and diffusion of riots, and the aims and effects of riot behavior. He finds that the deadly ethnic riot is a highly patterned but emotional event that tends to occur during times of political uncertainty. He also discusses the crucial role of rumor in triggering riots, the surprisingly limited role of deliberate organization, and the striking lack of remorse exhibited by participants. Horowitz writes clearly and eloquently without compromising the complexity of his subject. With impressive analytical skill, he takes up the important challenge of explaining phenomena that are at once passionate and calculative. Donald L. Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot: an intense, sudden, lethal attack by civilian members of one ethnic group on civilian members of another ethnic group. **Composition in Black and White** Kathryn Talalay, 1997. Showing how Schuyler's classical music career in America was cut short by racism, this biography is a stimulating addition to the record of race relations in America as well as a monument to an extraordinary
