**Climate and Catastrophe in Cuba and the Atlantic World in the Age of Revolution** Sherry Johnson, 2011-11-14 From 1750 to 1800 a critical period that saw the American Revolution French Revolution and Haitian Revolution the Atlantic world experienced a series of environmental crises including more frequent and severe hurricanes and extended drought Drawing on historical climatology environmental history and Cuban and American colonial history Sherry Johnson innovatively integrates the region s experience with extreme weather events and patterns into the history of the Spanish Caribbean and the Atlantic world By superimposing this history of natural disasters over the conventional timeline of sociopolitical and economic events in Caribbean colonial history Johnson presents an alternative analysis in which some of the signal events of the Age of Revolution are seen as consequences of ecological crisis and of the resulting measures for disaster relief For example Johnson finds that the general adoption in 1778 of free trade in the Americas was catalyzed by recognition of the harsh realities of food scarcity and the needs of local colonists reeling from a series of natural disasters Weather induced environmental crises and slow responses from imperial authorities Johnson argues played an inextricable and until now largely unacknowledged role in the rise of revolutionary sentiments in the eighteenth century Caribbean

Geological Survey Bulletin ,1966      Maya Christians and Their Churches in Sixteenth-Century Belize Elizabeth

Graham,2020-03-17 It is widely held that Christianity came to Belize as an extension of the conquest of Yucatan and that adherence to Christian belief and practice was abandoned in the absence of enduring Spanish authority An alternative view comes from the excavations of Maya churches at Tipu and Lamanai which show that the dead were buried in Christian churchyards long after the churches themselves fell into disuse and pre Columbian ritual objects were cached in Christian sacred spaces both during and after Spanish occupation Excavations also reveal that the architectural style of these early churches is Franciscan in inspiration but nonetheless the product of continuing community efforts at construction and repair A conclusion difficult to ignore is that the Maya of Tipu and Lamanai considered themselves Christians with or without Spanish presence Viewing historical and archaeological data through the lens of her personal experience of Roman Catholicism and informed by feminist approaches Elizabeth Graham assesses the concept of religion the significance of doctrine the empowerment of the individual and the process of conversion by examining the meanings attributed to ideas objects and images by the Maya by Iberian Christians and by archaeologists Graham s provocative study also makes the case that the impact of Christianity in Belize was a phenomenon that uniquely shaped the development of the modern nation A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase      *Prokofiev* David Nice,2003-01-01 The book follows Prokofiev s personal and musical journey from his childhood on a Ukrainian country estate to the years he spent travelling in America and Europe as an acclaimed interpreter of his own works Nice sheds new light on the striking compositions of Prokofiev s early years his training at the St Petersburg Conservatory and the circumstances of his departure from Russia in 1918 for what the composer thought would be a short tour of America      **Rebuilding New Orleans** Sarah Fouts,2025-05-09 In the aftermath of Hurricane Katrina Central American and Mexican immigrants arrived in New Orleans to help clean up and rebuild When federal relief services overlooked the needs of immigrant led construction and cleanup crews as part of post Katrina mass feeding strategies street food stands and taco trucks stepped in to ensure food security for these workers Many of these food vendors settled in the city over the next decade opening restaurants and other businesses Yet in a city experiencing whitewashed redevelopment new immigrants were frequently pitted against Black poor and working class New Orleanians for access to housing and other resources During Fouts s five years as a volunteer with the New Orleans Workers Center for Racial Justice she came to know and interview the day laborers food workers culture producers and community organizers whose stories shape this book Her work reveals how after the storm immigrant communities have culturally and politically reshaped New Orleans and its suburbs Fouts also highlights how immigrants forged multiracial solidarities to foster inclusive change at the local level By connecting migration labor and food *Rebuilding New Orleans* centers human experiences to illustrate how immigrant and established communities of color resisted

criminalization and racial capitalism to create a more just New Orleans

**Information** Pablo Lorenzo-Eiroa, 2023-05-31 This book proposes a new critical relationship between computation and architecture developing a history and theory of representation in architecture to understand and unleash potential means to open up creativity in the field Historically architecture has led to spatial representation Today computation has established new representational paradigms that can be compared to spatial representations such as the revolution of perspective in the Renaissance Architects now use software robotics and fabrication tools with very little understanding and participation in how these tools influence revolutionize and determine both architecture and its construction today Why does the discipline of architecture not have a higher degree of authorship in the conception and development of computational technologies that define spatial representation This book critically explores the relationship between history theory and cultural criticism Lorenzo Eiroa positions new understandings through parallel historical sections and theories of many revolutionary representational architecture canons displaced by conventional spatial projection He identifies the architects artists mathematicians and philosophers that were able to revolutionize their disciplines through the development of new technologies new systems of representation and new lenses to understand reality This book frames the discussion by addressing new means to understand and expand architecture authorship in relation to the survey information representation higher dimensional space Big Data and Artificial Intelligence in the pursuit of activating an architecture of information This will be important reading for upper level students and researchers of architecture and architectural theory especially those with a keen interest in computational design and robotic fabrication

### **Agrotropolis** J.T. Way, 2021-01-26

In Agrotropolis historian J T Way traces the developments of Guatemalan urbanization and youth culture since 1983 In case studies that bring together political economy popular music and everyday life Way explores the rise of urban space in towns seen as quintessentially rural and showcases grassroots cultural assertiveness In a post revolutionary era young people coming of age on the globally inflected city street used popular culture as one means of creating a new national imaginary that rejects Guatemala's racially coded system of castes Drawing on local sources deep ethnographies and the digital archive Agrotropolis places working class Maya and mestizo hometowns and creativity at the center of planetary urban history
