Mao The Unknown Story:

Mao Jung Chang, Jon Halliday, 2006-11-14 The most authoritative life of the Chinese leader ever written *Mao The Unknown Story* is based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him. It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao: he was not driven by idealism or ideology; his intimate and intricate relationship with Stalin went back to the 1920s, ultimately bringing him to power; he welcomed Japanese occupation of much of China and he schemed, poisoned and blackmailed to get his way. After Mao conquered China in 1949, his secret goal was to dominate the world. In chasing this dream, he caused the deaths of 38 million people in the greatest famine in history. In all, well over 70 million Chinese perished under Mao's rule in peacetime. **Was Mao Really a Monster?** Gregor Benton, Lin Chun, 2013-09-13 *Mao The Unknown Story* by Jung Chang and Jon Halliday was published in 2005 to a great fanfare. The book portrays Mao as a monster equal to or worse than Hitler and Stalin and a fool who won power by native cunning and ruled by terror. It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list. Few works on China by writers in the West have achieved its impact. Reviews by serious China scholars, however, tended to take a different view. Most were sharply critical, questioning its authority and the authors' methods, arguing that Chang and Halliday's book is not a work of balanced scholarship as it purports to be, but a highly selective and even polemical study that sets out to demonise Mao. This book brings together sixteen reviews of *Mao The Unknown Story*, all by internationally well-regarded specialists in modern Chinese history and published in relatively specialised scholarly journals. Taken together, they demonstrate that Chang and Halliday's portrayal of Mao is in many places woefully inaccurate. While agreeing that Mao had many faults and was responsible for some disastrous policies, they conclude that a more balanced picture is needed. *Mao* Jung Chang, 2006 Based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him, this is the most authoritative life of Mao ever written. Wars are generally begun by a revisionist state seeking to take territory. The psychological root of revisionism is the yearning for glory, honor and power. Human nature is the primary cause of war, but political regimes can temper or intensify these passions. This book examines the effects of six types of regime on foreign

policy monarchy republic and sultanistic charismatic and military and totalitarian dictatorship Dictatorships encourage and unleash human ambition and are thus the governments most likely to begin ill considered wars Classical realism modified to incorporate the impact of regimes and beliefs provides a more convincing explanation of war than neo realism **Access to History: Mao's China 1936-97 Fourth Edition** Michael Lynch,2019-07-15 Exam board AQA Pearson Edexcel Level AS A level Subject History First teaching September 2015 First exams Summer 2016 AS Summer 2017 A level Put your trust in the textbook series that has given thousands of A level History students deeper knowledge and better grades for over 30 years Updated to meet the demands of today s A level specifications this new generation of Access to History titles includes accurate exam guidance based on examiners reports free online activity worksheets and contextual information that underpins students understanding of the period Develop strong historical knowledge in depth analysis of each topic is both authoritative and accessible Build historical skills and understanding downloadable activity worksheets can be used independently by students or edited by teachers for classwork and homework Learn remember and connect important events and people an introduction to the period summary diagrams timelines and links to additional online resources support lessons revision and coursework Achieve exam success practical advice matched to the requirements of your A level specification incorporates the lessons learnt from previous exams Engage with sources interpretations and the latest historical research students will evaluate a rich collection of visual and written materials plus key debates that examine the views of different historians **China and Russia** Philip Snow,2023-03-14 A compelling expansive history of the relationship between China and Russia from the seventeenth century to the present Russia and China the largest and most populous countries in the world respectively have maintained a delicate relationship for four centuries In addition to a four thousand kilometer border they have periodically shared a common outlook on political and economic affairs But they are in essence profoundly different polities and cultures and their intermittent alliances have proven difficult and at times even volatile Philip Snow provides a full account of the relationship between these two global giants Looking at politics religion economics and culture Snow uncovers the deep roots of the two nations alignment We see the shifts in the balance of power from the wealth and strength of early Qing China to the Tsarist and Soviet ascendancies and episodes of intense conflict followed by harmony He looks too at the experiences and opinions of ordinary people which often vastly differed from those of their governments and considers how long the countries current amicable relationship might endure Tyrannical Minds Dean A Haycock,2019-04-02 An incisive examination into the pairing of psychology and situation that creates despotic leaders from the author of Murderous Minds Not everyone can become a tyrant It requires a particular confluence of events to gain absolute control over entire nations First you must be born with the potential to develop brutal personality traits Often this is a combination of narcissism psychopathy Machiavellianism paranoia and an extraordinary ambition to achieve control over others Second your dangerous personality must be developed and strengthened during childhood You might

What Is Happening to America? The Hidden Truth of Global Destruction Simona Pipko, 2012-08-31 We are at war We've been in WWII for many decades now We have been systematically targeted on different fronts and locations Alas my beloved America has not recognized it yet This war is aimed at you your family your country and at Western civilization as a whole The name of your enemy is Soviet Fascism To survive and win the war awareness and knowledge about the enemy is imperative This nonfiction work chronicles the development of world politics in the twentieth and twenty-first centuries Discover the single driving force behind today's threat of global terrorism Learn why the 9/11 attack was just one link in a long chain of battles against Western civilization and how Islam and oil are being used as weapons by a very determined enemy that is fighting for world domination The author sets the stage with first-hand narrative from her unique and horrifying experiences as a child in Russia Then she demonstrates how a global war set in motion nearly a century ago continues to pose the largest and most imminent threat to the United States and the world Decide for yourself once you have seen Ms Pipko's evidence ranging from Russia's aggressive foreign policy and growing intelligence apparatus to infiltration into foreign governments businesses and institutions including UN What is Happening to America The Hidden Truth of Global Destruction is Ms Pipko's third book It continues exposing the roots of modern terrorism its ideology and modus

operandi The book is a profound contribution of first hand experience and information which brings to light the as yet uncovered truth about Russia and its role in the ongoing global strife we see every day With Simona Pipkos heartfelt voice this book is also an intriguing retelling of a life lived purposefully [Access to History for the IB Diploma: Origins and Development of Authoritarian and Single-party States](#) Michael Lynch,2013-04-12 Ensure your students have access to the authoritative in depth and accessible content of this series for the IB History Diploma This series for the IB History Diploma has taken the clarity accessibility reliability and in depth analysis of our best selling Access to History series and tailor made it to better fit the IB learner s needs Each title in the series provides depth of content focussed on specific topics in the IB History guide and examination guidance on different exam style questions helping students develop a good knowledge and understanding of the topic alongside the skills they need to do well Ensures students gain a good understanding of the IB History topic through an engaging in depth reliable and up to date narrative presented in an accessible way Helps students to understand historical issues and examine the evidence through providing a wealth of relevant sources and analysis of the historiography surrounding key debates Gives students guidance on answering exam style questions with model answers and practice questions [An Analysis of Frank Dikotter's Mao's Great Famine](#) John Wagner Givens,2017-07-05 The power of Frank Dikotter s ground breaking work on the disaster that followed China s attempted Great Leap Forward lies not in the detail of his evidence though that shows that Mao s fumbled attempt at rapid industrialization probably cost 45 million Chinese lives It stems from the exceptional reasoning skills that allowed Dikotter to turn years of researching in obscure Chinese archives into a compelling narrative of disaster and above all to link two subjects that had been treated as distinct by most of his predecessors the extent of the crisis in the countryside and the actions hence the responsibility of the senior Chinese leadership In Dikotter s view ultimate responsibility for the catastrophe lies at the door of Mao Zedong himself the Chairman conceived and ordered the policies that led to the famine and he did nothing to reverse them or limit the damage that was being wrought when evidence for their disastrous impact reached him Dikotter s ability to persuade his readers of the fundamental truth of these arguments despite his admission that his access to sources was necessarily limited and incomplete together with the clear structure of his presentation combine to produce a work that has had enormous influence on perceptions of Mao and of the Great Leap Forward itself [Mao's China and the Sino-Soviet Split](#) Mingjiang Li,2013-03-01 The Sino Soviet split in the 1960s was one of the most significant events of the Cold War Why did the Sino Soviet alliance hailed by its creators as unbreakable eternal and as representing brotherly solidarity break up Why did their relations eventually evolve into open hostility and military confrontation With the publication of several works on the subject in the past decade we are now in a better position to understand and explain the origins of the Sino Soviet split But at the same time new questions and puzzles have also emerged The scholarly debate on this issue is still fierce This book the result of extensive research on declassified documents at the Chinese Foreign Ministry and on numerous other new Chinese

materials sheds new light on the problem and makes a significant contribution to the debate More than simply an empirical case study by theorising the concept of the ideological dilemma Mingjiang Li s book attempts to address the relationship between ideology and foreign policy and discusses such pressing questions as why it is that an ideology can sometimes effectively dictate foreign policy whilst at other times exercises almost no significant influence at all This book will be of essential reading to anyone interested in Chinese Soviet history Cold War history International Relations and the theory of ideology
