Embodying Geopolitics Nicola Pratt, 2020-10-27 When women took to the streets during the mass protests of the Arab Spring the subject of feminism in the Middle East and North Africa returned to the international spotlight In the subsequent years

countless commentators treated the region's gender inequality as a consequence of fundamentally cultural or religious problems. In so doing they overlooked the specifically political nature of these women's activism. Moving beyond such culturalist accounts, this book turns to the relations of power in regional and international politics to understand women's struggles for their rights. Based on over a hundred extensive personal narratives from women of different generations in Egypt, Jordan, and Lebanon, Nicola Pratt traces women's activism from national independence through to the Arab uprisings, arguing that activist women are critical geopolitical actors. Weaving together these personal accounts with the ongoing legacies of colonialism, *Embodying Geopolitics* demonstrates how the production and regulation of gender is integrally bound up with the exercise and organization of geopolitical power with consequences for women's activism and its effects. **A**

Afsaruddin, 2023 The *Oxford Handbook of Islam and Women* offers authoritative contributions from well-known scholars whose sophisticated and cutting-edge research explores the diversity of Muslim women's lives and their accomplishments, challenging common stereotypes that are particularly prevalent in the West. *Women, Money, and Political Participation in the Middle East* Bozena C. Welborne, 2022-08-10 This book examines women's money and political participation in the Middle

East and North Africa, focusing on women's capacity to engage local political systems. In particular, it considers whether and how this engagement is facilitated through specific types of financial flows from abroad. Arab countries are well-known rentier states and so a prime destination for foreign aid, worker remittances, and oil-related investment. Alongside other factors, these external monies have elicited dramatic shifts in gender-related social norms and expectations, both from the state and the domestic population, affording certain women the opportunity to enter the political arena while leaving others behind. The research presented here expands the discussion of women in rentier political economy and highlights their roles as participants and agents within regional templates for economic development. **Historical Dictionary of Yemen**

Charles Schmitz, Robert D. Burrowes, 2017-10-25 Yemen has experienced wrenching changes that have transformed the country in yet unknown ways. The country exploded in a popular revolution against the long-time rule of Ali Abdallah Saleh. While the country appeared to slip toward civil war, Yemeni political elite rallied with international backers to put together a transitional government with a plan to revise the country's constitution. The transitional government began with a cautious sense of optimism and the prospect of substantial change for the better but ended in collapse because of a failure to govern. The politics of the street overran an ineffective transitional government that could not address the urgent concerns of Yemeni citizens for security and jobs. Instead, populist leaders exploited people's dissatisfactions and threw the country into civil war. The Houthi organization covertly allied with its former enemy Ali Abdallah Saleh to overthrow the transitional government.

and declare war on the rest of the country Saleh seems unable to conceive of life outside of the Presidential Palace and his Houthi allies appear to believe they are destined to rule Unfortunately those opposed to Saleh and the Houthi also seem unable to provide effective rule in spite of massive backing from the Gulf States The incompetence infighting and incoherence of the Hadi government bode equally ill for the future of the country The one hope may be that a new generation of Yemeni leaders emerges to displace the dismal failures of this one This third edition of Historical Dictionary of Yemen contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1000 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Yemen **Islamophobia and Lebanon** Ali

Kassem, 2023-01-26 Thinking through anti post and decolonial theories this book examines analyses and conceptualises visibly Muslim Lebanese women's lived experiences of discrimination assault wounding and erasure Based on in depth research alongside over 100 Sunni and Shia participant between 2017 and 2019 it situates these experiences at the intersection of the local and the global and argues for their conceptualisation as a form of structural and lived anti Muslim racism In doing this it discusses the convergences and divergences of anti Muslim racism in Lebanon with anti Muslim racism in other parts of both the global north and the global south It examines the production of this racialisation as well as its workings across spheres of public private work and state including an analysis of internalised self hate It further explores various forms of resistance and negotiation and the contemporary possibilities and impossibilities of working beyond the epistemic framework of Eurocentric modernity As the first in depth and extensive study of anti Muslim racism within Muslim majority and Arab majority spaces it offers an urgent and timely redress to multiple gaps and biases in the study of the Muslim majority and Arab majority worlds as well as racialisation broadly and Islamophobia specifically
