Seventy Years of Farm Tractors 1930-2000

Brian Bell,2020-02-20 By the end of the twentieth century there were some half million tractors on British farms more machines than people to drive them Brian Bell s encyclopaedic book traces the evolution of the farm tractor from the days of starting handle and pan seat to current 4 wheel drive machines with air conditioned cabs and computer management systems He deals in particular with developments of the classic period from the 1950s to the 1990s The book is arranged alphabetically by manufacturer from Allis Chalmers to Zetor one hundred marques in total These are all machines to be found on British farms irrespective of their country of manufacture Brian runs concisely through the histories of the companies and their major models illustrated with a wealth of photographs and extracts from sales literature He adds some special features on items such as hydraulic systems and cold starting aids He includes a glossary and full index This book replaces the author s earlier successful Fifty Years of Farm Tractors Many of the photographs are new and the text has been brought up to date to include developments of the early twenty first century

AEC Mandator: Volume 8 Graham Edge,2016-10-24 When the AEC Mandator V8 was introduced in 1968 it carried with it high hopes for the future of AEC and the Leyland Group Nothing remotely like it had been produced before Word soon got around about its excellent performance However just as word had spread about the initial performance of the model so news soon travelled about the problems arising in service Eventually the lorry was withdrawn from sale Since the early 1970s when most of the 300 or so Mandator V8s sold in the UK had been withdrawn there has always been a strong undercurrent of interest shown in it AEC Mandator V8 has been out of print for many years and has been brought back in 2016 to make this fascinating story available again to AEC enthusiasts and those with an interest in general transport history Graham Edge is a trucking journalist and author Series Commercial Vehicles Archive Series Subject Commercial Vehicles Transportation

Recent advances in computer technology and satellite field mapping are included and new content enriches the earlier material dealing with the working principles and operation of the vast array of the somewhat less sophisticated farm tractors and machines still in use on British farms There are chapters on tractors cultivation and drilling equipment crop care and harvest machinery Further chapters deal with farmyard and estate maintenance equipment mechanical handlers dairy equipment irrigation farm power and the farm workshop References are made to the UK Health Safety at Work Act and other safety regulations These summarise their main requirements but they should only be taken as a guide Brian Bell has had a long involvement with farm machinery that started with an apprenticeship in a tractor dealership After a teaching career on farm machinery at Otley College in Suffolk he retired as Vice Principal in 1993 when he was awarded the MBE for services to agriculture Brian Bell has written a number of books and made seventeen DVDs on modern and vintage tractors and machinery Way of Life, A: Sheepdog Training, Handling and Trialling Barbara C. 1964 when two friends gave up promising medical careers to embark upon a journey which few hardened truckers would have considered In so doing they were solely responsible for creating the first long haul overland route across Europe and deep into the Middle East to Kabul The men had started the Middle East Run was to become a phenomenon in the road haulage industry an image which it still holds today This book is about the company founded by one of those men from its fledgling days as Asian Transport to the thriving Astran Cargo Services Ltd that it is today In this book Ashley Coghill documents the complete history of the company to date with the focus predominantly on the early days when the men were fighting for something and revelling in the adventure These early long haul drivers would think nothing of a 10 000 mile round trip to Iran or the Arabian Gulf and being stranded at 6 000 feet on a mountain pass with temperatures below 40 was just all in a day s work Ashley Coghill has an immense enthusiasm for his subject and has given his research total dedication He has also tracked down past and present employees to gather first hand information which he has illustrated with over 300 carefully selected images The end result is a detailed comprehensive and fascinating account of an extraordinary company
