Inc,1993 *The Roman Empire from Severus to Constantine* Patricia Southern,2015-05-15 The third century of the Roman Empire is a confused and sparsely documented period punctuated by wars victorious conquests and ignominious losses and a recurring cycle of rebellions that saw several Emperors created and eliminated by the Roman armies In AD 260 the Empire almost collapsed and yet by the end of the third century the Roman world was brought back together and survived for another two hundred years In this new edition of *The Roman Empire from Severus to Constantine* Patricia Southern examines the anarchic era of the soldier Emperors that preceded the crisis of AD 260 and the reigns of underrated and sometimes maligned Emperors such as Gallienus Probus and Aurelian whose determination and hard work reunited and re established the Empire Their achievements laid the foundations for the absolutist sacrosanct rule of Diocletian honed to ruthless perfection by Constantine whose reign transformed the pagan Empire into a Christian state The successes and failures of the rulers of the Roman world of the third century and the role of the armies and the civilians are re assessed in this revised and expanded edition of *The Roman Empire from Severus to Constantine* which incorporates the latest thinking of modern scholars and has been extended to cover the reign of Constantine and the foundations he laid on which the Christian empire was built This is a crucial volume for students of this fascinating period in Roman history and provides invaluable background for anyone interested in the fall of Rome the adoption of Christianity and the establishment of the Byzantine Empire *Agricola's Campaigns in Scotland* James Kenworthy,1981 *Decisive Campaigns of the Second World War* John Gooch,2012-11-12 Success or defeat in the Second World War turned less on winning or losing battles than on winning or losing campaigns This volume reassesses the importance of seven major campaigns for the outcome of the war The authors examine a wide range of factors which influence success or failure including strategic planning logistics combat performance command and military intelligence This book represents a novel contribution to the study of the Second World War

The Media Offensive Alexander G. Lovelace,2022-05-25 World War II was a media war President Franklin D Roosevelt used the press to a great extent of course but as the war progressed the media also came to influence commanders decisions on the battlefield Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters Omar Bradley s concern over US public opinion convinced General Dwight D Eisenhower to include Americans in the final assault against Axis forces in Tunisia General George S Patton Jr raced across Sicily to gain media attention and British respect General Mark Clark s hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction Negative media pressure and the fear of V 1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944 British general Bernard Montgomery s remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies Soon afterward Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion By V E Day even Eisenhower was attempting to get more publicity for American as opposed to Allied units The Media Offensive offers a new way to understand military media relations during World War II The press and public opinion shaped not only how the conflict was seen but also how it was fought Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories Truthful news reporting defined as news reporting that accurately depicts the events it describes could not be created by the military or even the media but could only emerge through a free press searching for it Lovelace recasts World War II in a new and unique fashion by placing media and public opinion at the center of battlefield decision making Unlike past scholarship on the media during World War II that focused on censorship propaganda or the adventure stories of war correspondents The Media Offensive takes the historiography of war reporting in a new direction In what could be called the new history of war reporting the focus is switched from how the military controlled reporters to how military decisions were shaped by the press Decoration and Display in Rome's Imperial Thermae Maryl B. Gensheimer,2018 Across the Roman Empire ubiquitous archaeological art historical and literary evidence attests to the significance of bathing for Romans routines and relationships Decoration and Display in Rome s Imperial Thermae presents a detailed analysis of the

extensive decoration of the best preserved of these bathing complexes the Baths of Caracalla inaugurated 216 CE

Paul's Financial Policy David E. Briones, 2014-01-16 This book attempts to prove the consistent nature of Paul's financial policy by drawing from his social environment and theological convictions to tease out a three-way relational pattern with God as the source of all possessions. This three-way relational framework not only dictates Paul's decision to accept or reject finances from his churches but also directly challenges long-standing claims made about Paul's financial policy. After outlining the various approaches that scholars have taken to make sense of Paul's seemingly inconsistent financial policy, this book provides a close exegetical analysis of relevant passages in Philippians 1, Corinthians, and 2 Corinthians in order to unearth a three-way relational pattern found in Philippians but that is absent from the Corinthian Correspondence. In Paul's positive gift-exchange relationship with the Philippians, God is acknowledged as the source of all possessions, whereas the Corinthians are criticized for striving after two-way exchanges that result in honor, power, and prestige. After this is demonstrated, a socio-theological reason for Paul's refusal of Corinthian gifts is propounded: Paul refused Corinthian support not because they desired to patronise him as a dependent client but because they sought to be under Paul as their superior, an act that neglected God as the superior source of all gifts in the divine economy. Paul therefore refuses their support to avoid two-way relationships of gift so prevalent in ancient society and to underscore the source of the gift of the gospel: the one from whom and through whom and to whom are all things, God.

Seapower States Andrew D. Lambert, 2018-01-01 One of the most eminent historians of our age investigates the extraordinary success of five small maritime states. Andrew Lambert, author of *The Challenge Britain Against America in the Naval War of 1812*, winner of the prestigious Anderson Medal, turns his attention to Athens, Carthage, Venice, the Dutch Republic, and Britain, examining how their identities as seapowers informed their actions and enabled them to achieve success disproportionate to their size. Lambert demonstrates how creating maritime identities made these states more dynamic, open, and inclusive than their lumbering continental rivals. Only when they forgot this aspect of their identity did these nations begin to decline. Recognizing that the United States and China are modern naval powers rather than seapowers is essential to understanding current affairs as well as the long-term trends in world history. This volume is a highly original, big-think analysis of five states whose success and eventual failure is a subject of enduring interest by a scholar at the top of his game.

Sulla Kelly Mass, Rome in the late Republic was a city in crisis. Political rivalries had escalated into outright violence, and the balance of power between the Senate and ambitious generals was collapsing. The Republic's institutions, once designed to prevent tyranny, were proving unable to control the ambitions of men who sought absolute power. It was in this unstable environment that Lucius Cornelius Sulla rose to prominence. A skilled military commander and ruthless politician, Sulla would reshape Rome in ways that historians still debate today. His legacy is marked by both strategic brilliance and unparalleled brutality, making him one of the most controversial figures in Roman history. Sulla's rise was not an inevitable one. Born into a patrician family that had fallen into relative obscurity, his early years

were spent in a world of limited political influence. However, his fortunes changed dramatically when he served as a quaestor under Gaius Marius during the Jugurthine War. His role in securing the surrender of the Numidian king Jugurtha brought him into the spotlight, earning him both praise and powerful enemies. As Sulla climbed the political ladder, his relationship with Marius once an ally deteriorated into bitter rivalry. Their conflict would culminate in a series of brutal power struggles that left Rome in chaos. The defining moment of Sulla's career came when he marched his legions on Rome, an unprecedented act that shattered the traditional boundaries of Roman politics. This bold move was not simply a show of strength but a clear signal that military force had become the ultimate arbiter of power in the Republic.
