

GMFM SCORE INTERPRETATION SHEET

GMFM-88 and GMFM-66 scoring

Child's Name: Sarah Smith

ID#: 00 000

Assessment Date: 09.09.23

Date of Birth: 09.10.24

Chronological Age: 13 months

Evaluator's Name: Thomas Bell

Testing Condition (e.g., room, clothing, time, others present):

The GMFM is a standardized observational instrument designed and validated to measure change in gross motor function over time in children with cerebral palsy. The scoring key is meant to be a general guideline.

However, most of the items have specific descriptors for each score. The guidelines contained in the manual must be used for scoring each item.

SCORING KEY

0 = does not initiate

1 = initiates

2 = partially completes

3 = completes

9 (or leave blank) = not tested (NT) [used for the GMAE-2 scoring*]

It is important to differentiate a true score of "0" (child does not initiate) from an item that is Not Tested (NT) if you are interested in using the GMFM-66 Ability Estimator (GMAE) Software.

Transnational Private Regulations for Sustainable Urban Development Masanori Kobayashi, 2023-07-17 This book analyzes the mechanism of transnational private regulations TPRs in the global property investment market and the conditions of their effectiveness for sustainable urban development In the present economy with control over national legislation alone state policymakers have been challenged to regulate transnational investors markets and issues such as global warming financial crises food safety risks deforestation and cross border business transactions Transgovernmental networks of regulators have assembled representatives and technical experts from national regulatory agencies nongovernmental organizations private firms and business organizations As private corporations become increasingly globalized many forms of TPRs have emerged since the 1990s for legislation standard setting monitoring of compliance and implementation of transnational rules to respond to challenges posed by the transformation of domestic and international regulatory environments TPRs are self regulated non state market driven regulations Since the emergence of TPRs the global rule making landscape has become dynamic Urban development and property investment have been viewed historically as local phenomena The regulations and standards in this field have been established and enforced by governments local associations and national professional bodies However as urban development and property investment increasingly have been globalized the services transactions and investments by private firms have transcended national boundaries For this reason it has become difficult for states to regulate global activities through existing national legislation or international regulatory systems As the management of new transnational issues through

collaborations between various actors is unpredictable it is necessary to examine the mechanism of TPRs in global property investment and their effectiveness for sustainable urban development Building Sustainability in East Asia Vincent S.
