

Gnostic Architecture

Th.G. Sinnige

Gnostic Architecture:

Gnostic Architecture Eric Owen Moss, 1999 The definitive statement of Eric Owen Moss's design theory Gnostic Architecture seeks to expand the discussion of contemporary architecture beyond debates over style or ideology It does so however not by turning to conventional site analysis or fashionable intellectual trends for support but by emphasizing the architect's personal approach to the act of building Gnostic architecture Moss says is not about faith in a movement a methodology a process a technique or technology It is a strategy for keeping architecture in a perpetual state of motion While Moss's gnostic approach keeps the practice of architecture on the move it nevertheless focuses on fundamental questions that face all architects questions that as he says separate architects from those who just happen to do architecture Gnosticism allows the architect to ignore the contradictions and confusions encountered along the path that is the practice of architecture so that he or she may rely on individual internally derived design methods The measure of an architect's integrity is thus dependent on his or her own internal compass and not on external factors The book with its unique trapezoidal shape and suggestive visual character gives uncanny material expression to Moss's gnosticism *The Architectural Detail* Edward R. Ford, 2012-08-10 The Architectural Detail is author Edward R Ford's life's work and this may be his most important book to date Ford walks the reader through five widely accepted and wildly different definitions of detail in an attempt to find once and for all the quintessential definition of detail in architecture **The Theory of Architecture** Paul-Alan Johnson, 1994-04-18 The Theory of Architecture Concepts Themes Practices Paul Alan Johnson Although it has long been thought that theory directs architectural practice no one has explained precisely how the connection between theory and practice is supposed to work This guide asserts that architectural theory does not direct practice but is itself a form of reflective practice Paul Alan Johnson cuts through the jargon and mystery of architectural theory to clarify how it relates to actual applications in the field He also reveals the connections between new and old ideas to enhance the reader's powers of critical evaluation Nearly 100 major concepts themes and practices of architecture as well as the rhetoric of architects and designers are presented in an easily accessible format Throughout Johnson attempts to reduce each architectural notion into its essential concept By doing so he makes theory accessible for everyday professional discussion Topics are arranged under ten headings identification definition power attitudes ethics order authority governance relationship and expression Areas covered under these headings include Utopic thought in theories of architecture Advocacy and citizen participation in architecture The basis of architectural quality and excellence The roles of the architect as artist poet scientist and technologist Ethical obligations of architecture Rationales for models and methods of design How authority is determined in architecture How architects structure their concepts Conventions of communication within the architectural profession Each section begins by showing the etymology of key terms of the topic discussed along with a summary history of the topic's use in architecture Discussions probe the conceptual and philosophical difficulties of

different theories as well as their potential and limitations in past and present usage Among the provocative issues discussed in terms of their relationship to architecture are chaos theory feminism service to the community and the use of metaphor Johnson points out with stunning clarity the intentions as well as the contradictions and inconsistencies of all notions and concepts All architects and designers as well as students and teachers in these disciplines will gain many insights about architectural thought in this groundbreaking text

Basics Interior Architecture 03: Drawing Out the Interior Ro Spankie, 2009-05-27 Basics Interior Architecture 03 Drawing Out the Interior is a comprehensive introduction to the representation of interior space through drawing and modelling The book introduces the reader to a range of techniques and methods and describes when and where to use them Starting with what is meant by interior architecture and why designers draw in the first place it goes on to explore what one might draw and when The text is supported by detailed studies of contemporary work alongside activities and resources Starting with what is meant by interior architecture and why designers draw in the first place it goes on to explore what one might draw and when It considers the idea that the method we choose to draw with influences the way we think and therefore what we design It includes sketches and drawings from Le Corbusier Iannis Xenakis Mies van der Rohe and Carlo Scarpa

Architects Today Kester Rattenbury, Robert Bevan, Kieran Long, 2006-08-10 This volume offers both an introduction to and an insight into key contemporary architects as well as giving a snapshot of the varied nature of architecture today For each architect there are details of their life and work and illustrations of their most representative and iconic buildings

International Architecture Yearbook No.5 Images Publishing Group, 1999 Now in its fifth year the International Architectural Yearbook has gained recognition throughout the world as a valuable resource a review of a selection of the finest architectural projects worldwide A highly stringent selection process has been implemented to include the most deserving projects built over the past year

Ars Vitae Elisabeth Lasch-Quinn, 2020-10-15 Despite the flood of self help guides and our current therapeutic culture feelings of alienation and spiritual longing continue to grip modern society In this book Elisabeth Lasch Quinn offers a fresh solution a return to classic philosophy and the cultivation of an inner life The ancient Roman philosopher Cicero wrote that philosophy is ars vitae the art of living Today signs of stress and duress point to a full fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate Yet in this time of alienation and spiritual longing we can glimpse signs of a renewed interest in ancient approaches to the art of living In this ambitious and timely book Elisabeth Lasch Quinn engages both general readers and scholars on the topic of well being She examines the reappearance of ancient philosophical thought in contemporary American culture probing whether new stirrings of Gnosticism Stoicism Epicureanism Cynicism and Platonism present a true alternative to our current therapeutic culture of self help and consumerism which elevates the self's needs and desires yet fails to deliver on its promises of happiness and healing Do the ancient philosophies represent a counter tradition to today's culture auguring a new cultural vibrancy or do they merely solidify a modern way of

life that has little use for inwardness the cultivation of an inner life stemming from those older traditions Tracing the contours of this cultural resurgence and exploring a range of sources from scholarship to self help manuals films and other artifacts of popular culture this book sees the different schools as organically interrelated and asks whether taken together they can point us in important new directions *Ars Vitae* sounds a clarion call to take back philosophy as part of our everyday lives It proposes a way to do so sifting through the ruins of long forgotten and recent history alike for any shards helpful in piecing together the coherence of a moral framework that allows us ways to move forward toward the life we want and need

Architects for the New Millennium ,2000 A celebration of architecture from around the world profiling today's leading firms The top one hundred firms **The Gnostics and Their Archetypes** Diego Kurilo, Gnosis derived from the ancient Greek *gnosis* meaning knowledge or also known as gnosticism a Latinized form of *gnosticism* is a scientific religious term that encompasses various teachings and religious groups that flourished in the late 1st century and had their peak between the 2nd and 3rd centuries AD acting as precursors of later currents We could think that within these movements of connoisseurs many Christianities of a Gnostic nature perished since Christianity was born as a broad set of spiritual movements based on the life of Jesus of Nazareth The Christianity proposed by Paul of Tarsus triumphed and the Gnostic movements fell into disgrace and were considered heretical **Architecture Thinking across Boundaries** Rajesh Heynicks, Ricardo Costa Agarez, Elke Couchez, 2021-01-14 While most studies on the history of architectural theory have been concerned with what has been said and written this book is concerned with how architecture theory has been created and transmitted *Architecture Thinking across Boundaries* looks at architectural theory through the lens of intellectual history Eleven original essays explore a variety of themes and contexts each examining how architectural knowledge has been transferred across social spatial and disciplinary boundaries whether through the international circulation of ideas transdisciplinary exchanges or transfers from design practice to theory and back again Dissecting the frictions transformations and resistances that mark these journeys the essays in this book reflect upon the myriad routes that architectural knowledge has taken while developing into architectural theory They critically enquire the interstices geographical temporal and epistemological that lie beyond fixed narratives They show how unstable vital and eminently mobile the processes of thinking about architecture have been The Gnostic Luciferian New Age Babylon Revisited Gregory Lessing Garrett, 2019-09-30 The Gnostic Luciferian New Age Utopia will be based upon a Mystery Babylon re-visitation of tolerance for all behaviors narcissistically self-indulgent sexually perverse psychoactively induced and sinfully decadent with self-worship and self-adulation as the highest pinnacle of religious zeal Additionally utilizing the trickery and artifice of an Alien Antichrist Messiah Deception the Luciferian Elite seek to obliterate Christianity and replace it with a Gnostic Pantheistic Cosmogogenesis narrative where Ancient Aliens are our true genetic origins and Cosmic Evolution with Mankind in tow is the Grand Design of the Universe Since this is a very real situation which affects all the world in the direst

sort of way the contents of this book are relevant to all citizens of the world This book bravely explores the various guises that this repackaged Babylonian Gnostic Luciferianism has taken and how it got to this point as well as offers answers to this nefarious situation Six Lectures on Plotinus and Gnosticism Th.G. Sinnige,2013-04-09 In this book an attempt is made to single out those elements in the philosophical system of the Enneads that stand apart from the Platonist tradition On the basis of an extensive analysis of fundamental texts the author shows that what Plotinus had in mind was a quite independent paradigm of metaphysical theology with at its centre the human person Masterworks of God M. Francis Mannion,2003 Masterworks of God Essays in Liturgical Theory and Practice by M Francis Mannion 2007 The Coherence of "Gnosticism" Einar Thomassen,2020-11-23 Gnosticism has become a problematic category in the study of early Christianity It obscures diversity invites essentialist generalisations and is a legacy of ancient heresiology However simply to conclude with diversity is unsatisfying and new efforts to discern coherence and to synthesise need to be made The present work seeks to make a fresh start by concentrating on Irenaeus report on a specific group called the Gnostics and on his claim that Valentinus and his followers were inspired by their ideas Following this lead an attempt is made to trace the continuity of ideas from this group to Valentinianism The study concludes that there is more continuity than has previously been recognised Irenaeus Gnostics emerge as the predecessors not only of Valentinianism but also of Sethianism They represent an early philosophically inspired form of Christ religion that arose independently of the New Testament canon Christology is essential and provides the basis for the myth of Sophia The book is relevant for all students of Christian origins and the early history of the Church An Encyclopaedia of Freemasonry and Its Kindred Sciences Albert Gallatin Mackey,1874 The Gnostic World Garry W. Trompf,Gunner B. Mikkelsen,Jay Johnston,2018-10-03 The Gnostic World is an outstanding guide to Gnosticism written by a distinguished international team of experts to explore Gnostic movements from the distant past until today These themes are examined across sixty seven chapters in a variety of contexts from the ancient pre Christian to the contemporary The volume considers the intersection of Gnosticism with Jewish Christian Islamic and Indic practices and beliefs and also with new religious movements such as Theosophy Scientology Western Sufism and the Nation of Islam This comprehensive handbook will be an invaluable resource for religious studies students scholars and researchers of Gnostic doctrine and history **Marco Frascari's Dream House** Marco Frascari,Federica Goffi,2017-05-08 This previously unpublished work is essential reading for anyone who has followed Marco Frascari s scholarship and teachings over the last three decades It also provides the perfect introduction for anyone new to his writings As ever Frascari does not offer prescriptive tools and frameworks to enact his theories of drawing and imagination instead he teaches how to build one s own through individual practice An illuminating introduction places the text in a wider context providing the reader with a fascinating and important context and understanding to this posthumous work Frascari s sketchbooks are reproduced faithfully in full colour to provide the reader with a remarkable insight into the design process of this influential mind

Speculative Art Histories Sjoerd van Tuinen, 2018-03-14 First full scale thematic analysis of Pina Bausch's Tanztheater critically evaluating the impact of modernist theatre on her choreographic method

The Path of Christianity John Anthony McGuckin, 2017-05-16 John McGuckin a world renowned expert on ancient Christianity has synthesized a lifetime of work to produce the most comprehensive and accessible history of the first millennium of the Christian church This readable account explores the history in chronological order and then examines the same period thematically looking at issues like women war and the Bible

Introducing Architectural Theory Korydon Smith, Miguel Guitart, 2024-01-22 Building on the success of the first edition an engaging and reader friendly work on complex ideas Introducing Architectural Theory Expanding the Disciplinary Debate broadens the range of themes voices and geographies represented to provide a more comprehensive and contemporary theory book This book presents major discourses in architectural theory and design in a debate like format integrating a series of edited texts across architectural history with context and newly written commentaries by the authors This new edition has been fully revised updated and expanded to include long standing debates such as simplicity vs complexity or the relationship between form and function as well as newer discussions on innovation globalization and social equity Authors Smith and Guitart provide a comprehensive means and conceptual framework for readers to compare multiple points of view The chapter structure discussion questions and additional resources allow teachers to facilitate in class discussions and writing assignments This book remains the most accessible architectural theory textbook written for beginning architecture students and those outside the discipline Its reflective and critical approach will equally engage the minds of upper level students and experts

Unveiling the Magic of Words: A Report on "**Gnostic Architecture**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring.
