dialogue between coach and client **Joycean Unions** R. Brandon Kershner, Tekla Mecsnober Tekla Mecsnober, 2013 This exciting new volume presents recent research by internationally recognised Joyce scholars from Europe and North America. Entitled *Joycean Unions: Post Millennial Essays from East to West*, it pays particular attention to contemporary Eastern and Western European perspectives on the immensely influential work of the Irish writer James Joyce (1882-1941). The essays collected in this volume uncover various European sources of inspiration for Joyce's early aesthetic theories for the Sirens, Cyclops, Circe and Eumaeus episodes of his modernist masterwork *Ulysses* (1922) and for his last tour de force *Finnegans Wake* (1939). They present inspiring new ways of reading Joyce's work, re-investigate the fascinating phenomenon of literary error and review aspects of Joyce's varied afterlife in Ireland and Eastern Europe. The book will be of interest to scholars, students and the general audience interested in English literature, Modernism, European Studies, Irish Studies and of course the works of James Joyce. **Interdisciplinary Applications of the Person-Centered Approach** Jeffrey H. D.

Cornelius-White, Renate Motschnig-Pitrik, Michael Lux, 2013-06-04 This book examines the scientific contribution and increasing relevance of the Person-Centered Approach (PCA) in psychotherapy. The direction taken in the book is to provide readers with a multidisciplinary and multi-perspective view as well as practical applications. Beyond the more conventional psychotherapy applications (client-centered, experiential, emotion-focused, child-centered, motivational interviewing, existential, filial, etc.), others have evolved including peace and conflict resolution work, encounter and T-groups, nonviolent communication, parent effectiveness training, person-centered planning for people with disabilities, relationship enhancement methods, learner-centered education, technology-enhanced learning environments, human relations leadership training, etc. Simultaneously, scientific disciplines were influenced by this perspective in less obvious ways. Hence the major contribution of this book is to identify and characterize the key bridges so far only partly recognized between the PCA and several other disciplines. Based on the results of the bridge-building endeavor, the editors will propose an initial formulation of the PCA as a meta-theory. It is intended as a generic framework to solve complex social problems and to stimulate further research and development concerning the human species in relationship to its environment. **The Detective Files** Jeff C. Fuller, 2022-05-04 A former detective with an intimate connection to a gruesome investigation takes on the challenge to nab an international murderer and his evil accomplice. Yet it isn't just guns and excellent investigative skills that prove necessary for this juncture in Emma Stevens's life. Love, faith, and mistrust play a critical role. *The Detective Files: The Lord of Crime* thrills readers from the initial 911 call of a murder to the final international pursuit of the Alphabet Killer and of Emma Stevens's life thereafter. **A**
