God Is Love A Biblical And Systematic Theology:

God Is Love Gerald Bray, 2012-03-31 While there is no substitute for personal faithful and careful Bible reading and prayer the Bible's vast size and diversity can make distilling its truth a daunting task Thus most Christians benefit from supplemental resources to help learn and apply what Scripture teaches Renowned theologian Gerald Bray has produced just such a resource in his new systematic theology Though packed with robust content he writes about this volume the aim is to reach those who would not normally find systematic theology appealing or even comprehensible This volume is unique from others in that Bray traces the common theme of God's love through the Bible categorically from God's love for himself and his creation to the cross as the ultimate expression of God's love among other categories The centrality of God's love in Bray's theology reflects a deep conviction that the Bible shows us God for who he really is This volume will be of interest to Christians seeking to grow in their faith The Love of God Christopher W. Morgan, 2016-09-30 Our understanding of the love of God has been tragically distorted The comfortable sentimentalized version we commonly encounter today is far from the biblical depiction of God's love Featuring contributions from well known evangelical scholars this multi disciplinary study presents the biblical view of the love of God from the perspectives of systematic theology biblical theology apologetics pastoral theology and ethics The contributors including D A Carson Andreas J K stenberger Raymond C Ortlund Jr Robert L Plummer and many others address a variety of issues related to how God's love is expressed in the Old and New Testaments the Trinity apologetics Christian living social justice and more This addition to the Theology in Community series will promote clear sound thinking about what Scripture means when it declares that God is love Part of the Theology in Community series *Love Divine* Jordan Wessling, 2020-06-01 Love Divine provides a systematic account of the deep and rich love that God has for humans While the associated theological territory is vast the objective is to contend for a unified paradigm regarding fundamental issues pertaining to the God of love who deigns to share His life of love with any human willing to receive it Realizing this objective includes clarifying and defending specific conclusions concerning how the doctrine of divine love should be approached what God's love is what role love plays in motivating God's creation and subsequent governance of humans how God's love of humans factors into His emotional life which humans it is that God loves in a saving manner what the punitive wrath of God is and how it relates to God's love for humans and how it might be possible for God to share the intra trinitarian life of love with human beings As the book unfolds the chapters interlock and build upon one another in the effort to trace nodal issues related to God's love as it begins in Him and then spills out in the creation redemption and glorification of humanity a kind of exitus reditus structure that is driven by the unyielding love of God Love, Divine and Human: Contemporary Essays in Systematic and Philosophical Theology Oliver D. Crisp, James M. Arcadi, Jordan Wessling, 2019-10-31 This volume offers an array of newly commissioned essays addressing the topic of love in the Christian tradition Drawn from a range of expert theologians and philosophers in contemporary analytic and non analytic

theology these essays join current debates within the theology of love and aim to propose new avenues for future research Including the last essay written by Marilyn McCord Adams Love Divine and Human deals with a rich variety of issues related to divine and human love The broad scope of the book includes divine transcendence and its methodological bearing on the doctrine of divine love the nature and scope of divine love the interrelation between God's love and wrath the plausibility of an impassable God of love and the application of various conceptions of divine love to the problem of divine hiddenness human ethics and human free will among other topics This unified collection of cutting edge papers will advance discussion for all those focused on the theology of love The Love of God John C. Peckham, 2015-07-28 Theology has constantly wrestled with the nature of God's love and what it means for how God relates to the world In this comprehensive canonical theology of divine love John C Peckham argues for an account that avoids the errors of both voluntarist and experientialist theologies and faithfully represents the full biblical witness **The Attributes of God** Gerald Bray, 2021-01-25 How can we created beings know God the Creator Throughout history the church has recognized the importance of studying and understanding God's attributes As the Creator of all things God is unique and cannot be compared to any of his creatures so to know him believers turn to the pages of Scripture In The Attributes of God renowned theologian Gerald Bray leads us on an exploration of God's being his essential attributes his relational attributes and the relevance of his attributes to our thinking lives and worship As we better understand God's attributes we will learn to delight in who God is and how he has made himself known to us in Scripture **Themelios, Volume 39, Issue 1** D. Justin Stratis,2019-05-30 Justin Stratis explores the meaning of the biblical phrase God is love through an examination of two quintessentially modern Protestant theologians Friedrich Schleiermacher and Karl Barth This book contains both a detailed engagement with Schleiermacher s untranslated lectures on Dialektik and their relation to his more well known work as well as a new assessment of Barth s doctrine of God which both respects his radical innovations and yet places him within the stream of traditional catholic trinitarianism After considering the complexities of theological predication and comparing several classical and contemporary approaches to the implication of love Stratis presents and ultimately commends the distinct approaches of Schleiermacher and Barth for their tendency to treat divine love as a conclusion to the doctrine of God rather than as a conceptual starting point In contrast to many contemporary approaches Stratis concludes with the suggestion that God s love is best conceived as his being toward fellowship rather than as the eminent instance of loving fellowship understood according to human experiences of love

Matthew Bonzo, 2009-02-01 Indwelling the Forsaken Other is a critical reading of Jurgen Moltmann's ethics of discipleship While Moltmann's notable turn to the inner life of the Trinity as a source for his reflections on the life of the church is influential it is not without problems The call emerging from Moltmann's reflection upon Trinitarian life to copy God in our relationships may offer some general direction for our actions however it also raises several questions Two important questions for this work are In what way are we to copy God and What conditions make it possible to copy God Moltmann's answers to these questions are insufficient and consequently he fails to protect the difference between Creator and creation in his analogia relationis As a result the ethical direction of Moltmann's work seems to be increasingly muddled and at best paradoxical
