instinct a kind of prediscursive hunch that leaps ahead and guides rational thought before the reasoning human being is even aware of it In *The Music of Reason* Michael Davis shows that this musical quality of thinking is something that leading philosophers have long been aware of and explored with great depth and subtlety Focusing on the work of three thinkers traditionally viewed as among the most poetic of philosophers Rousseau Nietzsche and Plato Davis reveals the complex and profound ways in which they each plumbed the depths of reason's prerational foundations Davis first examines Rousseau's *Essay on the Origins of Languages* Where Something Is Said About Melody and Musical Imitation and Nietzsche's *The Birth of Tragedy Out of the Spirit of Music* to demonstrate that revealing the truth or achieving individual enlightenment requires poetic techniques such as irony indirection and ambiguity How philosophers say things is as worthy of our attention as what they say Turning to Plato's *Lesser Hippias* Davis then reconsiders the relation between truth telling and lying finding the Platonic dialogue to be an artful synthesis of music and reason The ancient quarrel between philosophy and poetry that Plato placed near the core of this thinking suggests a tension between the rational scientific and the nonrational poetic or between the true and the beautiful the one clear and definite the other allusive and musical Contemplating language in Rousseau the Dionysian in Nietzsche and playfulness in Plato *The Music of Reason* explores how what we might initially perceive as irrational and so antithetical to reason is in fact constitutive of it

Music in Goethe's Faust Lorraine Byrne Bodley, 2017

Goethe's *Faust* a work which has attracted the attention of composers since the late eighteenth century and played a vital role in the evolution of vocal operatic and instrumental repertoire in the nineteenth century has had a seminal impact in musical realms

Goethes Werke: Wilhelm Meisters Lehrjahre Johann Wolfgang von Goethe, 1926

Das dramatische Werk Friedrich de la Motte Fouqués Claudia Stockinger, 2011-08-04

Da die Dramen Fouqués und einiger seiner Zeitgenossen zu den vernachlässigten Produkten der Literaturgeschichte gehören ist ebenso bekannt wie die fraglichen Texte selbst unbekannt sind Das ist umso bemerkenswerter als dieses Material eine paradigmatische Zusammenschau der poetischen und poetologischen Möglichkeiten der Romantik bietet und dabei zugleich auf die zentralen zeit wie wissenschaftspolitischen Ereignisse reagiert Daran orientiert sich der Aufbau der Arbeit Das unter Pseudonym veröffentlichte Frühwerk Fouqués 1777 1843 entsteht in Auseinandersetzung mit der frühromantischen Poetologie als Versuch einer von Ludwig Tieck's Lustspielkonzeption einerseits und der spanischen Komödientradition andererseits vorgegebenen allegorischen Welttheaterdramatik Das nationalpolitische Programm des Hauptwerks lässt sich nach den verarbeiteten Stoffen ordnen Die Mythendramen führen die zeitgenössischen Forderungen nach einer neuen Mythologie aus die Geschichtsdramen antworten auf aktuelle politische Ereignisse oder dramatisieren zentrale Begebenheiten der sogenannten Nationalgeschichte mit historiographischem resp geschichtsphilosophischem Anspruch und die Mittelalterdramen machen im Rahmen eines sich in dieser Zeit konstituierenden philologischen Interesses an einer deutschen Nationalliteratur wichtige Überlieferungszeugen in neuer Form präsent Für die Ausbildung einer genuin romantischen Dramenform spielt Fouqués Auseinandersetzung mit

Schiller eine zentrale Rolle die zudem den Blick auf bergreifende Linien des Gesamtwerks ermöglicht Die Aufhebung der tradierten Gattungsgrenzen in einem dramatisch musikalischen Gesamtkunstwerk wird durch die poetologische Fundierung und formale Disposition dieser Dramatik vorbereitet *The Philosophical Quest for God* Norbert Fischer, 2005 Philosophy is Love of wisdom There is continual danger that the ports of the search will be taken as the final goal The constitutive absoluteness of its goal points to an unknown absolute This absolute creates a place for thinking about God Thus the God question plays its role in every philosophy from antiquity to the present The way begins with man as the entry point of the question concerning transcendence Then this question is shown to be directed toward God The middle section is dedicated to the arguments concerning divine existence After the arguments for the reasonableness of belief in God we deal with the relationship of philosophical thought about God to living faith Finally the ways to a search for God carried out in trust which certain thinkers have followed while recognizing its problems is outlined **Indirect Pedagogy** Herner Saeverot, 2013-02-11 While existential issues perhaps concern people the most today s education is not as preoccupied with such issues Instead education is becoming more uniform and streamlined more and more one sidedly directed towards what is useful The purpose of this book is to focus on education s existential dimension Such a focus requires at least three things Firstly we need to justify why it is necessary to reconnect with existentialism in education Secondly we need to undergo an examination of the quality of existential education so that we can have a basis as to what kind of educational interests teachers should have Thirdly we need to gain knowledge about how teachers may teach in light of existential matters However to teach in light of existence is highly paradoxical in that existence cannot be forced on someone but is rather a subjective matter Teaching which is non ironical or too direct can thus be very problematic concerning existential issues The reason being that there is no objective truth in terms of existence There is only a matter of subjective or existential truth which is only true for the single individual Therefore the book suggests that the approach teachers take must be discrete and indirect so as to create room for students to take responsibility for their subjective truth Such an indirect pedagogy is not a programme but rather a form of existential education The overall aim of the book is by way of introducing and developing the concept of indirect pedagogy to extend and reinvent the language of teaching
