## **Grandes Conclusions Jurisprudence Administrative:**

**Tort Liability of Public Authorities in European Laws** Giacinto della Cananea, Roberto Caranta, 2020-12-15 This series argues that there is a common administrative core to European legal systems that can be better understood in comparative terms. This volume examines government liability in tort using case studies to explore different government responses. Part I sets the stage for the project and the parameters followed by the scholars involved. Part II expands on the legal systems chosen for comparison setting up their general tort procedures. Part III presents case studies from Austria, the European Union, France, Germany, Hungary, Italy, Poland, Romania, Spain, Switzerland and the United Kingdom. Each case study has a theoretical response detailing what would happen should that case occur within each country's borders. Part IV compares and contrasts the information provided in Part III. It examines both the commonalities and the distinctive traits of these legal systems with a view to understand the nature of their common core. This volume is an essential tool for anyone involved in administrative and constitutional law and government liability in tort.

*The Public-private Law Divide* Matthias Ruffert, 2009. This publication is a collection of papers of the second meeting of the Dornburg Research Group on New Administrative Law which was held in London in May 2007.

**Acknowledgments** [The Making of Criminal Law](#) Aniceto Masferrer, 2025-11-12. The separation of powers produced by the Enlightenment period reinforced the myth of the perfection of the law with criminal law being dependent on the principle of legality. Demonstrating that this principle has not fundamentally altered judges' methods of interpretation and decision making, this collective volume explores the role of case law in the making of modern criminal law from the late 19th century to the end of the 20th century. It enables us to gauge the influence of case law developed and to assess the extent to which it contributed to major criminal law decisions and the emergence of model criminal codes. The book takes a comparative view across various European and American jurisdictions and offers an overview of European civil law traditions along with comparisons from the Americas. The focus is on Western legal historiography which has hitherto been notably under researched. The chronological point of departure is marked by the creation of the Supreme Court and the cassation in each jurisdiction. Each chapter contains a short introduction to the role of jurisprudence in the making of criminal law from the 19th century onwards in that jurisdiction followed by an exploration of the contribution of the legal doctrine of the Supreme Court in the making or development of a particular criminal offence or institution. The book will be of interest to scholars and historians working or teaching in the areas of legal history, comparative legal history, criminal law and comparative law. It will also be of use to scholars interested in the study of law in different socio-cultural contexts.

### **L'Etat**

**dans la construction doctrinale du droit administratif** Elise Fraysse, 2022-05-02. La question des rapports entre l'état et le droit administratif est au cœur de cet ouvrage. Par le prisme d'une approche historique et doctrinale, ce premier tome de 1804 à 1870 tente de clarifier certaines interrogations cruciales : quel fut le poids de l'état dans la construction de cette discipline ? Le droit administratif donne-t-il une certaine conception de l'état et si oui, laquelle ? L'enjeu est de démontrer qu'en dépit des apparences, le droit administratif n'est pas seulement un droit technique ; il est également un droit politique. Il repose en effet sur une certaine conception de l'état et du libéralisme. Plus encore, cette recherche contribue à démontrer que loin d'être un droit uniquement jurisprudentiel, le droit administratif doit en grande partie sa construction à la doctrine. Partant de cette étude, on peut plus largement tirer le point de départ d'une réflexion sur l'enseignement du droit public aujourd'hui.

### **Handbuch des**

**Verwaltungsrechts** Kahl, Ludwig (Hrsg.), 2021-09-30. Das neue Handbuch ist eine auf 12 Bande angelegte Edition des Verwaltungsrechts. Als wissenschaftliches Gemeinschaftswerk von zwei Herausgebern und rund 250 Autoren basiert es auf einer Gesamtkonzeption, die das deutsche, européen et international Verwaltungsrecht als Einheit und in ihrer Interdependenz und Interaktion in den Blick nimmt. Die Bande wenden sich gleichermaßen an die verwaltungsrechtliche Praxis und die Verwaltungsrechtswissenschaft. Der Rechtsstoff wird encyclopédisch aufbereitet, die Zusammenhänge und das Allgemeine in der Flille der Referenzgebiete des Besonderen werden erschlossen und auseinanderstrebende Detailforschungen zusammengeführt. Das Handbuch stellt die positivrechtlichen Begriffe, Prinzipien und Institute des Verwaltungsrechts in ihren Geltungsbedingungen dar; geht ihren wesentlichen geschichtlichen und sonstigen Grundlagen nach; analysiert sie dogmatisch und untersucht eingehend ihre européen et internationale Verzahnung. Das Handbuch hat das Ziel, den aktuellen Stand des Verwaltungsrechts des Bundes und der Länder sowie der Européennes Union umfassend systematisch und verständlich darzustellen. Charakteristisch für die Darstellung ist die enge Verzahnung mit internationalem und européen Recht, die Verknüpfung von Allgemeinem und Besonderem Verwaltungsrecht, die Vernetzung von materiellem und formellem Recht, die Interdisziplinarität der Methodik sowie die Einbeziehung neuer Entwicklungen wie, par exemple, der Digitalisierung der Verwaltung. Band II behandelt die Grundlagen des européen et des internationales Verwaltungsrechts, Unionsverwaltung und mitgliedstaatliche Verwaltung, Rechtsquellen und Rechtsebenen Prinzipien.

Dialogue on the Return of Irregular Migrants from the European Union Madalina Moraru, Galina Cornelisse, Philippe De Bruycker, 2020-08-06 This volume examines the implementation of the Return Directive from the perspective of judicial dialogue. While the role of judges has been widely addressed in European asylum law and EU law more generally their role in EU return policy has hitherto remained under explored. This volume addresses the interaction and dialogue between domestic judiciaries and European courts in the implementation of European return policy. The book brings together leading authors from various backgrounds including legal scholars, judges and practitioners. This allows the collection to offer theoretical and practical perspectives on important questions regarding the regulation of irregular migration in Europe such as what constitutes inadequate implementation of the Directive and under which conditions can judicial dialogue solve it. How can judges ensure that the right balance is struck between effective return procedures and fundamental rights? Why do we see different patterns of judicial dialogue in the Member States when it comes to particular questions of return policy for example regarding the use of detention? These questions are more timely than ever given the shifting public discourse on immigration and the growing political backlash against immigration courts. This book will be essential reading for all scholars and practitioners in the fields of immigration law and policy, EU law and public law.     **Le commissaire du gouvernement près le Conseil d'État** Nicolas Rainaud, 1996     La compétence internationale des collectivités territoriales françaises

Pierre-Yves Chicot, 2005-01-01 L'irruption des collectivités locales françaises sur la scène internationale a bouleversé des modes de fonctionnement publics bien établis. La politique extérieure devient aussi l'apanage des autorités territoriales même si l'Etat conserve la préminence. En ce qui concerne les départements régions d'outre mer et singulièrement ceux d'Amériques l'exercice de cette compétence locale internationale est fort affirmé. En quoi cette politique internationale des DOM est-elle spécifique? Quelle problématique soulève-t-elle?     The enforcement dimension of the single supervisory mechanism SILVIA ALLEGREZZA, 2020-09-14 This book explores the sheer complexity of the SSM's institutional design adopting a comprehensive approach to banking supervision. At its core this work examines the tangible mechanisms of prudential regulation or supervision both at the European and national levels offering a comparative analysis of ten national systems. Reflecting the results of an intensive four year research project that saw the collaboration of academics and practitioners it addresses two interrelated issues. It investigates the efficacy of the shared national and EU level enforcement system the EU introduced in reaction to the financial and banking crisis. Secondly it scrutinizes the role that criminal law can play in sanctioning the breaches to banking regulation.     The Ghostwriters Tommaso Pavone, 2022-04-07 The European Union is

often depicted as a cradle of judicial activism and a polity built by courts Tommaso Pavone shows how this judge centric narrative conceals a crucial arena for political action Beneath the radar Europe's political development unfolded as a struggle between judges who resisted European law and lawyers who pushed them to embrace change Under the sheepskin of rights conscious litigants and activist courts these Euro lawyers sought clients willing to break state laws conflicting with European law lobbied national judges to uphold European rules and propelled them to submit noncompliance cases to the European Union's supreme court the European Court of Justice by ghostwriting their referrals By shadowing lawyers who encourage deliberate law breaking and mobilize courts against their own governments The Ghostwriters overturns the conventional wisdom regarding the judicial construction of Europe and illuminates how the politics of lawyers can profoundly impact institutional change and transnational governance

### **Contemporary French Administrative Law**

John Bell,François Lichère,2022-03-03 Despite the growing scholarly interest in comparative public law there remain relatively few works on the subject Contemporary French Administrative Law aims to redress that imbalance offering English language readers an authoritative introduction to the key features of French administrative law and its institutions The French legal system is among the most well developed and influential in the world and as procedures continually adapt to European and international influences it has never been more worthy of research study and interrogation This book employs a wide range of recent illustrative cases to demonstrate how French administrative law works both in theory and in practice Using a systematic approach and covering everything from judicial review to public contracts this is a highly valuable text for any student or researcher with an interest in French law The book is also available as Open Access

**La délégation de compétences des organisations internationales** Abdelbasset Ibrahim,2023-12-14 Afin d'analyser le régime juridique de la délégation de compétences des organisations internationales l'auteur soulève plusieurs questions clés dans quelles conditions et selon quelles modalités une organisation internationale peut-elle déléguer ses compétences à un sujet qui lui est extérieur Quels sont les effets d'une telle délégation dans les rapports entre l'organisation déléguante et son déléguataire mais aussi entre ce dernier et les tiers En cas de violation éventuelle du droit international quel est l'impact de la délégation sur la responsabilité internationale de l'organisation déléguante Pour répondre à ces questions l'auteur examine d'abord les conditions d'établissement de la délégation de compétence avant d'aborder l'étude de sa mise en œuvre
