Manual of Councils of the Holy Catholic Church Rev. Edward H. Landon M.A.,Aeterna Press, The following work is intended
to supply in some measure what appears to be a desideratum to the English reader viz a compendious account of the
Councils of the Church This I had originally proposed to do by a translation of a small French work published anonymously at
Paris in 1773 in one volume entitled Dictionnaire Portatif des Conciles but when the task had been commenced so many
alterations and additions appeared to be needed that I resolved so far to abandon my first design as to make the French work
merely the groundwork of a more extended volume on the same plan Thus although the work alluded to has furnished no
small part of the present book very considerable alterations have been made in it and not only has much fresh matter been
added relating to the councils contained in that work but an account has also been given of many others which it passes over
in silence especially those which although not recognised by the Church of Rome are not the less regarded by other branches
