Many Subtle Channels Daniel Levin Becker, 2012-05-08 What sort of society could bind together Jacques Roubaud Italo Calvino Marcel Duchamp and Raymond Queneau and Daniel Levin Becker a young American obsessed with language play Only the Oulipo the Paris based experimental collective founded in 1960 and fated to become one of literature's quirkiest movements An international organization of writers artists and scientists who embrace formal and procedural constraints to achieve literature's possibilities the Oulipo the French acronym stands for workshop for potential literature is perhaps best known as the cradle of Georges Perec's novel *A Void* which does not contain the letter e Drawn to the Oulipo's mystique Levin Becker secured a Fulbright grant to study the organization and traveled to Paris He was eventually offered membership becoming only the second American to be admitted to the group From the perspective of a young initiate the Oulipians and their projects are at once bizarre and utterly compelling Levin Becker's love for games puzzles and language play is infectious calling to mind Elif Batuman's delight in Russian literature in *The Possessed* In recent years the Oulipo has inspired the creation of numerous other collectives the OuMuPo a collective of DJs the OuMaPo marionette players the OuBaPo comic strip artists the OuFlarfPo poets who generate poetry with the aid of search engines and a menagerie of other Ou X Pos workshops for potential something Levin Becker discusses these and other intriguing developments in this history and personal appreciation of an iconic and iconoclastic group

Interpretation in International Law Andrea Bianchi, Daniel Peat, Matthew Windsor, 2015-02-26 International lawyers have long recognised the importance of interpretation to their academic discipline and professional practice As new insights on interpretation abound in other fields international law and international lawyers have largely remained wedded to a rule based approach focusing almost exclusively on the Vienna Convention on the Law of Treaties Such an approach neglects interpretation as a distinct and broader field of theoretical inquiry Interpretation in International Law brings international legal scholars together to engage in sustained reflection on the theme of interpretation The book is creatively structured around the metaphor of the game which captures and illuminates the constituent elements of an act of interpretation The object of the game of interpretation is to persuade the audience that one's interpretation of the law is correct The rules of play are known and complied with by the players even though much is left to their skills and strategies There is also a meta discourse about the game of interpretation playing the game of game playing which involves consideration of the nature of the game its underlying stakes and who gets to decide by what rules one should play Through a series of diverse contributions Interpretation in International Law reveals interpretation as an inescapable feature of all areas of international law It will be of interest and utility to all international lawyers whose work touches upon theoretical or practical aspects of interpretation

Poetry in General Keegan Cook Finberg, 2025-11-04 In the second half of the twentieth century poetry leapt out of books and became an interdisciplinary public form Poetry entered bureaucratic systems of organization like index card catalogues it pushed the boundaries of privately owned public parks Keegan Cook Finberg argues that poetry became an increasingly capacious force during this period because it could speak directly to the degradation of the social democratic notion of the public Poetry in General explores how poets expanded their practice into the realms of politics work and everyday life from 1960 to the present from the apex of the welfare state to an era of privatization and austerity It considers a compelling array of figures including Yoko Ono George Brecht Frank O Hara Amiri Baraka Bernadette Mayer Eleanor Antin Adrian Piper and M NourbeSe Philip whose works draw on conceptual techniques to transform official documents and spaces Finberg shows how these public texts expose the mechanisms of the neoliberal

consensus about work and leisure the state's facilitation of capitalism and enduring racial and gender inequities She also provides politically charged ways to interpret and critique racial capitalism antiabortion legislation and mass debt A new literary and institutional history of postwar poetics this book shows how poetic experiments address the privatization of collective life and rethink the category of the public
