Maos China And After A History Of The Peoples Republic Third Edition:

Mao's China and After Maurice Meisner, 1999-04 Presents a revised account of the revolution of 1966 1969 Examines the social and political consequences of the upheaval Deng Xiaoping Democracy movement Tienanmen Incident Mao Zedong The hundred flowers Great Leap Forward The Oxford History of Modern China Jeffrey N. Wasserstrom, 2022-01-27 excellent LSE Review of Books China is the world's most populous country and newest superpower whose place on the international stage can only be understood through the lens of its modern history The Oxford History of Modern China is essential reading for anyone who wants to understand this rising power in what promises to be the Chinese century Covering the period of dramatic shifts and surprising transformations which comprise China's modern history the book spans from the founding of the Qing Dynasty 1644 1912 to the present day It introduces readers to important but often overlooked events in China's past such as the bloody Taiping Civil War 1850 1864 and also sheds new light on more familiar landmarks in Chinese history such as the Opium War 1839 1842 the Boxer Uprising of 1900 the rise to power of the Chinese Communist Party in 1949 the Tiananmen protests and Beijing Massacre of 1989 and China's rise to economic superpower status in the 21st century A new chapter for this edition brings the story into the era of Xi Jinping *Encyclopedia of the Cold War* Ruud van Dijk, William Glenn Gray, Svetlana Savranskaya, Jeremi Suri, Qiang Zhai, 2013-05-13 Between 1945 and 1991 tension between the USA its allies and a group of nations led by the USSR dominated world politics This period was called the Cold War a conflict that stopped short of a full blown war Benefiting from the recent research of newly open archives the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose developed and was resolved This work examines the military economic diplomatic and political evolution of the conflict as well as its impact on the different regions and cultures of the world Using a unique geopolitical approach that will present Russian perspectives and others the work covers all aspects of the Cold War from communism to nuclear escalation and from UFOs to red diaper babies highlighting its vast ranging and lasting impact on international relations as well as on daily life Although the work will focus on the 1945 1991 period it will explore the roots of the conflict starting with the formation of the Soviet state and its legacy to the present day

The Philosophical Influences of Mao Zedong Robert Elliott Allinson, 2019-09-19 This philosophical Mao is a fresh portrait of the mind of the ruler who changed the face of China in the twentieth century The book traces the influences of both traditional Chinese and traditional pre Marxist Western philosophy on the early Mao and how these influences guided the development of his thought It reveals evidence of the creative dimensions of Mao's thinking and how he wove the yin yang pattern of change depicted in the Yijing the Chinese Book of Changes into the Marxist dialectic to bring ancient Chinese philosophy to mark changes in twentieth century thought Mao's lifetime philosophical journey includes his interpretations of and comments on both Chinese and Western philosophers His deep metaphysical reflections uncanny prognostications and pensive speculations from his early pre Marxist period to his later philosophical years prove to be as startling as they are

thought provoking **China at 60** Lai-Ha Chan,Gerald Chan,Fung Kwan,2011 This edited volume China at 60 explores the interactions between China and the world over the course of 60 years of Communist Party rule since 1949 and the impact of these interactions on China s domestic development To understand China s development experience and its transformation it is necessary to examine the trajectory of development from pre reform to post reform periods While the book may concur with previous findings on the changing development of China under economic reform more importantly it demonstrates the areas of continuity of the PRC s existence over the entire six decades To that end a dual theme change and continuity and global local interactions on China s development is adopted to assess the historical development of China s policies in various issueareas over the past 60 years The focus is chiefly on the domestic impacts of China s increasing engagement with the world the global implications of China s reform efforts and growing power and the long lasting uniqueness of this rising non European nation The book brings together a team of international experts to share their perspectives on global local interactions within a range of different topics including foreign policy domestic politics macroeconomic policy the central local relations the People s Liberation Army public health energy security finance and banking foreign trade and intellectual property rights as well as changes in the state s policies towards interest groups such as ethnic minorities and women

Socialist Construction in China Abdol S. Soofi,2024-06-28 The Chairman of the State Planning Commission of the PRC in 1955 attributed the economic problems countering the development of the socialist economy to the anarchy of capitalist economy However after three decades of central planning the President of the Chinese Academy of Social Sciences exclaimed Today we are all recognizing the irrationality of an economic structure that has built up over the years The author of this book examines the economic policies and performances that brought such a radical transformation to the world outlook of China s leaders The book contains three parts The first part traces the historical roots of China s chaotic economic condition and hyperinflation in the 1940s and the early 1950s The second part deals with how the irrational economic system was formed The third part deals with the reasons for the emergence of economic irrationality resource misallocation the necessity of economic reforms and industrial restructuring *Afterlives of Chinese Communism* Christian Sorace,Ivan Franceschini,Nicholas Loubere,2019-06-25 *Afterlives of Chinese Communism* comprises essays from over fifty world renowned scholars in the China field from various disciplines and continents It provides an indispensable guide for understanding how the Mao era continues to shape Chinese politics today Each chapter discusses a concept or practice from the Mao period what it attempted to do and what has become of it since The authors respond to the legacy of Maoism from numerous perspectives to consider what lessons Chinese communism can offer today and whether there is a future for the egalitarian politics that it once promised **2013** N. Nosirrah,Stephen Grace,2010-04-16 Have you ever awakened in the night wondering if you would survive the impact of a meteorite a mutating viral pandemic turning the population into flesh eating zombies the melting polar ice caps altering the climate into an inhospitable methane laced bog or simply God raining

down fire and brimstone and turning off the lights Then this is your essential guide to survival prosperity and peace when the world ends *American and Chinese Energy Security* Ryan Opsal,2019-02-11 This book explores the complex relationship between grand strategy and energy security by conducting a focused comparative study on the United States and China By including energy security as a component of grand strategy the author is able to present an analysis of the complex multifaceted approaches large consuming states take to secure their critical energy supplies Inclusion of energy as part of the core strategic agenda increases explanatory power and provides insights as to how states may elect to pursue supply security under times of greater scarcity or increased conflict A ranking system is also developed allowing a more systematic approach to inform this qualitative study *Contemporary Religions in China* Shawn Arthur,2019-01-30 Folk and popular religion is a very significant part of Chinese religious life especially in rural areas Contemporary Religions in China focuses on the religious activities of the lay people of contemporary China and their ideas of what it means to be religious and to practice religion Throughout the discussion is illustrated with case studies textboxes images thought questions and further reading which help to capture what religion is like how and why it is practiced and what religion means for everyday people across China in the twenty first century Contemporary Religions in China is an ideal introduction to religion in China for undergraduate students of religion Chinese studies and anthropology **Revolution and Witchcraft** Gordon C. Chang,2023-01-20 Ideas influence people In particular extremely well developed sets of ideas shape individuals groups and societies in far reaching ways This book establishes these idea systems as an academic concept Through three intense episodes of manipulation and mayhem connected to idea systems Europe s witch hunts the Mao Zedong era revolutions and the early campaign of the U S War on Terror this book charts the cognitive and informational matrices that seize control of people s mentalities and behaviors across societies Through these the author reaches two conclusions The first that we are all vulnerable to the dominating influence of our own matrices of ideas and to those woven by others in the social system The second that even the most masterful manipulators of idea programs may lose control of the outcomes of programmatic manipulation Amongst this analysis sixty plus central conceptual terminologies are provided for readers to analyze multiform idea systems that exist across space time and cultural contexts This is an open access book **An East Asian Challenge to Western Neoliberalism** Niv Horesh,Kean Fan Lim,2017-08-03 Analysts generally agree that in the long term the biggest challenge to American hegemony is not military but rather China s economic rise This perception is spread in no small measure because Xi Jinping has in the face of patent military inferiority conducted himself much more boldly on the world stage than Hu Jintao Meanwhile China has also begun conjuring up an alternative vision for global leadership now widely termed as the China model This book therefore offers a critical and comprehensive explanation of the China model and its origins Using a range of case studies covering varying historical and geographical approaches it debates whether the Chinese experience in the last three decades of economic reform should be interpreted as an answer to the reigning

hegemony of neoliberalism or rather a further reinforcement of it To answer these questions it provides an investigation into what China may have learned from its East Asian neighbours earlier economic successes It also examines how it is responding to and might even reconfigure the world political economic system as it develops fresh and potentially more powerful regulatory capacities Providing a multi dimensional analysis of the China model the book will be of interest to students and scholars of Chinese Economics Economic Geography and Chinese Studies *The US-China Rift and Its Impact on Globalisation* Raffaele Sciortino,2024-02-12 Today globalisation has entered a critical phase of slowdown The asymmetrical US China relationship that has been the fundamental axis up to now has entered into crisis The financial imperialism of the dollar proves to be increasingly burdensome and destabilizing The rise of capitalist China is questioning US imperialist levy This book offers a comprehensive analysis of the looming confrontation while identifying potential points of no return in the intertwined dynamics of the world market geopolitical configurations and class relationships Neither contender can give up the game Will there be a de globalisation Is a multipolar order realistic Are we facing a Chinese hegemonic challenge or rather first signs that hint at the potential for systemic disintegration Seizing the Square Daniel Palm,2020-10-12 This book discusses global dynamics behind the synchronous outburst of protests in China and Germany in 1989 and the local acts of dissent on the squares comparatively It breaks with the national timelines protests in 1989 have so far been identified with and offers insights into the spatial manifestation of the global moment of 1989 Concluding on the importance of the SpaceTime on the seized squares in 1989 it also discusses more recent protests forming on city squares Offering a global perspective on a phenomenon that itself became global in the last decades the book provides a view on globalization processes operating from below that puts the occupied space on city squares at the heart of interest

Anti-Racism as Communism Paul Gomberg,2024-01-11 In the United States there have been brilliant examples of anti racist struggle black soldiers in the Civil War coal miners of Alabama and especially the anti racist working class struggles led by the Communist Party Yet racism persists Jim Crow replaced racial slavery and mass incarceration has replaced Jim Crow Why Paul Gomberg argues that racism is functional for capitalism supplying low wage vulnerable labor and driving down conditions for all workers How can anti racists put an end to racist society Gomberg argues for race centered Marxism anti racism must lead working class struggle but racism will end only in a communist society that creates opportunity for all

Radicalism, Revolution, and Reform in Modern China Catherine Lynch,Robert B. Marks,Paul G. Pickowicz,2011-03-31 This volume illuminates the relationship of China s radical past to its reformist present as China makes a way forward through very differently conceived and contested visions of the future In the context of early twenty first century problems and the failures of global capitalism is China s history of revolutionary socialism an aberration that is soon to be forgotten or can it serve as a resource for creating a more fully human and radically democratic China with implications for all of us Ranging from the early years of China s revolutionary twentieth century to the present the essays collected here

look at the past and present of China with a view toward better understanding the ideas ideals and people who have dared to imagine radical transformation of their worlds and to assess the conceptual political and social limitations of these visions and their implementations The volume s chapters focus on these issues from a range of vantage points representing a spectrum of current scholarship The first half of the book brings new insights to understanding how early twentieth century intellectuals interpreted ideas that allowed them to break with China s past and to envision new paths to a modern future It treats of Chen Duxiu a founder of the Communist party Mao Zedong and Mao in relation to the non Communist Liang Shuming and with the Dalai Lama With continuing threads of nation and nationalities of peasants utopias and dystopias linking the chapters the book s second half looks broadly at the consequences of the implementations of radical ideas at the same time critiquing our accepted frameworks of analysis Moving up to the present the book investigates the effects of the reforms since the 1980s on long term environmental degradation and on the emergence of a capitalist rural economy It gives an unsparing view into contemporary rural China through independent films The book concludes with an analysis of the unshakable persistence of the shibboleth the rise of China in popul

The Rise of Communism Patrick G. Zander, 2018-02-16

This book investigates the Communist political phenomenon including the origins and development of Communism as well as the revolutions that led to the rise of the major Communist states around the world Written for high school students undergraduates and general readers this book surveys the global rise of Communism It begins with a timeline and narrative overview which are followed by reference entries primary source documents and original argumentative essays on enduring issues related to Communism The book first covers the earliest phases of the Utopian Socialist movement and the beginnings of Marxist theory It then discusses the Russian Revolution of 1917 the creation of the Soviet Union the regime of terror instituted by Stalin the expansion of Communism during the years of the Cold War particularly in Asia and the Cuban Revolution and the regime of Fidel Castro It also discusses the progression toward revolution among the European Satellite countries as it included the Hungarian Revolution of 1956 the Czech revolution of 1968 and the multiple revolutions from 1989 1991 that saw the collapse of the Soviet system and the Cold War

The Demoralization of Teachers Dan Wang, 2013-05-16

The educational system in China is marked by its dramatic inequality between rural and urban schools The challenges facing rural schools are usually understood as disadvantages in funding facilities and staffing which consequently result in undesirable student performance in general This book however penetrates these phenomena on the surface and brings forth a much deeper moral crisis in rural education a crisis that is entrenched in the complicated interlocking of formal and informal institutions within and beyond the school The Demoralization of Teachers describes the work and workplace in a rural school from the perspective of teachers who were working there It faithfully depicts the lamentable state of teachers work morale in the school and little by little as if a detective story reveals the reasons for the teachers demoralization by vivid narratives The book demonstrates the profound impact on the meanings of teaching exerted by the

state curriculum reform the formal and informal norms and regulations in the school and the erosion of moral integrity in the state bureaucracy and the society at large The crisis in the rural school stops to be a rural or educational problem in nature but mirrors the societal wide transformation in political economy as well as in ideology in the current reform China The sheer complexity of the moral crisis in this ethnography calls for renewed efforts to identify and investigate the educational problems in rural China from fresh theoretical perspectives that situate rural education in broader historical and social contexts and processes

Contesting Memorial Spaces of Japan's Empire Edward Boyle, Steven Ivings, 2024-09-19 Ongoing arguments over how histories are honoured as evidenced by the conflict between South Korea and Japan over the opening of Tokyo's Heritage Information Centre in June 2020 reveal the extent to which heritage processes enable states to assert legitimacy and power on a global stage Here *Contesting Memorial Spaces of Japan's Empire* shines a timely spotlight on the complicated histories and disputed legacies of various sites associated with Japan's empire in Asia and the Pacific Bringing together a team of international scholars this transnational study sees contested memorial spaces as windows for us to explore how borders are created moved and altered in everyday life From the Asan Bay Overlook Memorial Wall in Guam and the Puppet Emperor Palace in China to Japan's Ainu Museum and the Cowra War Cemetery in Australia the diverse range of case studies examined here foreground the complex relationship Japan and its neighbours have with their imperial past and reveal how these relations stand at the intersection of individual actions societal choices and memory collectives In doing so this innovative collection of essays bridges history geography and heritage studies to provide an invaluable new approach to the study of imperial conflict and memory politics in modern Japan
