Stephen Weiner, Ellen Forney

Marbles Mania Depression Michelangelo And Me A:

Marbles Ellen Forney, 2012-11-06 Cartoonist Ellen Forney explores the relationship between crazy and creative in this graphic memoir of her bipolar disorder woven with stories of famous bipolar artists and writers Shortly before her thirtieth birthday Forney was diagnosed with bipolar disorder Flagrantly manic and terrified that medications would cause her to lose creativity she began a years long struggle to find mental stability while retaining her passions and creativity Searching to make sense of the popular concept of the crazy artist she finds inspiration from the lives and work of other artists and writers who suffered from mood disorders including Vincent van Gogh Georgia O Keeffe William Styron and Sylvia Plath She also researches the clinical aspects of bipolar disorder including the strengths and limitations of various treatments and medications and what studies tell us about the conundrum of attempting to cure an otherwise brilliant mind Darkly funny and intensely personal Forney's memoir provides a visceral glimpse into the effects of a mood disorder on an artist's work as she shares her own story through bold black and white images and evocative prose **Marbles: Mania, Depression,**

Michelangelo and Me Ellen Forney, 2013 Tegneserie graphic novel Shortly before her 30th birthday Forney was diagnosed with bipolar disorder She then began a long struggle over many years to find mental stability while retaining her creativity Darkly funny and intensely personal her memoir provides a humorous but authentic glimpse into the effects of a mood disorder on an artist's work as she shares her own story through black and white graphic images and prose Madness,

Art, and Society Anna Harpin, 2018-01-19 How is madness experienced treated and represented How might art think around and beyond psychiatric definitions of illness and wellbeing Madness Art and Society engages with artistic practices from theatre and live art to graphic fiction charting a multiplicity of ways of thinking critically with rather than about non normative psychological experience It is organised into two parts Structures psychiatrists institutions treatments illuminates the environments figures and primary models of psychiatric care reconsidering their history and contemporary manifestations through case studies including David Edgar's Mary Barnes and Milos Forman's One Flew Over the Cuckoo's Nest Experiences realities bodies moods problematises diagnostic categories and proposes more radically open models of thinking in relation to experiences of madness touching upon works such as Richard Kelly's Donnie Darko and Duncan Macmillan's People Places and Things Reading its case studies as a counter discourse to orthodox psychiatry Madness Art and Society seeks a more nuanced understanding of the plurality of madness in society and in so doing offers an outstanding resource for students and scholars alike **The Comics of Julie Doucet and Gabrielle Bell** Tahneer Oksman, Seamus

O'Malley, 2018-12-05 Winner of the 2020 Comics Studies Society Edited Book Prize Contributions by Kylie Cardell Aaron Cometbus Margaret Galvan Sarah Hildebrand Frederik Byrn K hlert Tahneer Oksman Seamus O Malley Annie Mok Dan Nadel Natalie Pendergast Sarah Richardson Jessica Stark and James Yeh In a self reflexive way Julie Doucet's and Gabrielle Bell's comics though often autobiographical defy easy categorization In this volume editors Tahneer Oksman and Seamus O

Malley regard Doucet's and Bell's art as actively feminist not only because they offer women's perspectives but because they do so by provocatively bringing up the complicated multivalent frameworks of such engagements. While each artist has a unique perspective, style and worldview, the essays in this book investigate their shared investments in formal innovation and experimentation and in playing with questions of the autobiographical, the fantastic and the spaces in between. Doucet is a Canadian underground cartoonist known for her autobiographical works such as *Dirty Plotte* and *My New York Diary*. Meanwhile Bell is a British American cartoonist best known for her intensely introspective semiautobiographical comics and graphic memoirs such as the *Lucky* series and *Cecil and Jordan in New York*. By pairing Doucet alongside Bell, the book recognizes the significance of female networks and the social and cultural connections, associations and conditions that shape every work of art. In addition to original essays, this volume republishes interviews with the artists. By reading Doucet's and Bell's comics together in this volume, housed in a series devoted to single creator studies, the book shows how, despite the importance of finding a place inside yourself to create, this space seems always, for better or worse, a shared space culled from and subject to surrounding lives, experiences and subjectivities.

Female Cartoonists in the United States Hélène

Tison, 2021-11-29 This book provides an introduction to women cartoonists in the US, reading their work from a feminist literary and stylistic perspective which shines a light on their innovative and unique narratives and graphic languages. From rabid feminists to blundering teenagers to dyke avengers and pregnant butches, from political satire to memoirs to troubling sexual tales from caricature to the clear line from realism to minimalism and abstraction, they have done it all. This book looks at the work of over thirty authors who have challenged the boys club of comics in the US and whose stories shed a revealing light on contemporary society through countercultural ripostes to the patriarchy, raw or humorous confessions, deconstruction of femininity, stories of vulnerability that offer powerful counterpoints to the super bodies of mainstream comics, non-white and queer cartoonists drawing back and more. This is a key title for students and scholars in the fields of Comics Studies, Literature and Women and Gender Studies.

Metaphors of Mental Illness in Graphic Medicine Sweetha

Saji, Sathyaraj Venkatesan, 2021-10-21 This book investigates how graphic medicine enables sufferers of mental illness to visualise the intricacies of their internal mindscape through visual metaphors and reclaim their voice amidst stereotyped and prejudiced assumptions of mental illness as a disease of deviance and violence. In this context, by using Lakoff and Johnson's conceptual metaphor theory (CMT), this study uncovers the broad spectrum of the mentally ill's experiences, a relatively undertheorised area in medical humanities. The aim is to demonstrate that mentally ill people are often represented as either grotesquely exaggerated or overly romanticised across diverse media and biomedical discourses. Further, they have been disparaged as emotionally drained and unreasonable individuals incapable of active social engagements and against the healthy, sane society. The study also aims to unsettle the sanity/insanity binary and its related patterns of fixed categories of normal/abnormal which depersonalise the mentally ill by critically analysing seven graphic narratives on mental illness.
