Congress Senate,1952 **Legendary Farm Tractors** Andrew Morland,2014-04-15 *Legendary Farm Tractors* contains more color photographs of more types of farm tractor than any other book All models are presented with detailed captions to delight any tractor buff *The American Reaper* Gordon M. Winder,2016-04-01 *The American Reaper* adopts a network approach to account for the international diffusion of harvesting technology from North America from the invention of the reaper through to the formation of a dominant transnational corporation International Harvester Much previous historical research into industrial networks focuses on industrial districts within metropolitan centres but by focusing on harvesting a typically rural technology this book is able to analyse the spread of technological knowledge through a series of local networks and across national boundaries In doing so it argues that the industry developed through a relatively stable stage from the 1850s into the 1890s during which time many firms shared knowledge within and outside the US through patent licensing to spread the diffusion of the American style of machines to establishments located around the industrial world This positive cooperation was further enhanced through sales networks that appear to be early expressions of managerial firms The book also reinterprets the rise of giant corporations especially International Harvester Corporation IHC arguing that mass production was achieved in Chicago in the 1880s where unprecedented urban growth made possible a break with the constraints felt elsewhere in the dispersed production system It unleashed an unchecked competitive market economy with destructive tendencies throughout the transnational American reaper networks a previously stable and expanding production system This is significant because the rise of corporate capital in this industry is usually explained as an outworking of national natural advantage as an ingenious harnessing of science and technology to solve production problems and as a rational solution to the problems associated with the worst forms of unregulated competition that emerged as independent firms developed from small scale artisanal production to large scale manufacturers on their own and within the separate and isolated US economy The first study dedicated to the development and diffusion of American harvesting machine technology this book will appeal to

scholars from a diverse range of fields including economic history business history the history of knowledge transfer historical geography and economic geography Farm Implement News Buyer's Guide Farm Implement News Co., Chicago,1915 Yellow Steel William R. Haycraft,2002 In Yellow Steel the first overarching history of the earthmoving equipment industry William Haycraft examines the tremendous increase in the scope of mining and construction projects from the Suez Canal through the interstate highway system made possible by innovations in earthmoving machinery Led by Cyrus McCormick s invention in 1831 of a practical mechanical reaper many of the builders of today s massive earthmoving machines began as makers of reapers plows threshers and combines Haycraft traces the efforts of manufacturers such as Caterpillar Allis Chalmers International Harvester J I Case Deere and Massey Ferguson to diversify from farm equipment to specialized earthmoving equipment and the important contributions of LeTourneau Euclid and others in meeting the needs of the construction and mining industries He shows how postwar economic and political events especially the creation of the interstate highway system spurred the development of more powerful and more agile machines He also relates the precipitous fall of several major American earthmoving machine companies and the rise of Japanese competitors in the early 1980s Extensively illustrated and packed with detailed information on both manufacturers and machines Yellow Steel knits together the diverse stories of the many companies that created the earthmoving equipment industry how they began expanded retooled merged succeeded and sometimes failed Their history a step by step linking of need and invention provides the foundation for virtually all modern transportation construction commerce and industry **Farm Equipment Red Book** ,1950 *Classic Farm Tractors* Robert N.
