Cover p 4 **The Relaxation & Stress Reduction Workbook (EasyRead Comfort Edition)** Martha Davis, 2017 Wake up to Hypnosis Barbara Powers MSc BDS, 2020-01-21 This book is a simple introduction to hypnotic phenomena. Knowing why, when, and how to practise hypnosis may help readers to improve their health, creativity, and performance, and above all to find who they really are. This book is specially written for those who, for whatever the reason, just lost their track in life. This step-by-step guide will help them to find the light house and the right course again. For easy understanding, I use the metaphor of sailing on stormy seas to express common life challenges and how to deal with them in a more effective way. We can't change the weather and life events, but we can learn new skills to stay on course and make confident decisions to find a safe place to wait out the storm. Only this way we can enjoy sailing to the ports of our choice. Self-hypnosis will speed up the process of learning new skills and achieving goals. A few minutes of self-hypnosis a day will help to find out who you are, assess your present position, and determine what needs to be changed for you to make confident decisions in a calm way. Just by visualizing what you want will help to bring your dream to reality. As Aladdin said, 'Your wish is my command.' Now, thanks to many clinicians throughout centuries who believed that our unconscious has the ability to release the resources to be in better control of life events, everyone can learn and benefit from it. In the twenty-first century, scientists around the globe just proved it to be true. Self-Hypnosis - The Simple and Successful Way to Get Everything Milton Jordan, 2021-03-18 In a world of lofty promises and micro-podcasts that guarantee to change your life in just a few days, the idea that a book can relay and teach a skill that truly can improve your situation is remarkable and almost unbelievable. Yet it is true. The power to change your life is with you now if you just know who to tap into it. Self-hypnosis has been around since the first habit was formed, yet it seems only recently the power and benefits of this amazing self-directed healing practice is being recognized. From changing your mind to changing your habits, self-hypnosis can be used to improve every aspect of your life and situation faster than you ever dreamed possible. Mastering Self-hypnosis in just a weekend is easier than you would imagine, and with the proper tools and practice, you can start benefitting right away.
