had failed them Medical science has long turned a blind eye to such stories But now the tide is changing as more and more major studies are being conducted on what the body truly needs to survive and the findings are alarming The belief in eating less fat and less saturated fat is mistaken Inadvertently this advice may be the biggest reason behind the obesity and diabetes epidemic It s time to take a stand it s time for real food again In *Low Carb High Fat Food Revolution* Dr Andreas Eenfeldt takes the offensive by exploring the severe systematic failures on which many of today s dietary guidelines are based For Eenfeldt s patients the solution has been a low carb high fat diet that allows you to eat your fill and still lose weight The book concludes with a guide section full of tips and recipes everything you need to start your own food revolution

10,000 Steps & Beyond: The Truth About Walking – eBook (PDF, EPUB) Anthony Vidal, 10 000 Steps Beyond The Truth About Walking is your sarcastic survival guide to the world's simplest and most overhyped exercise. Forget the influencer nonsense, this book pulls back the curtain on step count myths, calorie fantasies, overpriced gear, and the cult of the smartwatch. Discover the real and hilariously underwhelming benefits of putting one foot in front of the other, the dark side of pedestrian rage and blisters, and why you absolutely can't outwalk your daily donut habit, but you'll try anyway. Packed with snarky advice, harmless mockery, and permission to take the elevator once in a while, this is the walking book for people who don't take wellness too seriously but still kinda want to live forever. Perfect for walkers, step count overachievers, and anyone who loves to hate their fitness tracker. Zero guilt. Zero overpriced gear required. Maximum laughs. Tie your laces or don't, your next walk starts here. **Good**

Calories, Bad Calories Gary Taubes, 2007 *FASTR* Faster Info Publishing, 2019-04-18 *FASTR* is what you get when a Silicon Valley product designer uses design thinking to successfully resolve a persistent and pernicious anal fissure. As I discovered, a chronic fissure, sometimes called an anal ulcer, anal lesion, or anal tear, can disrupt pretty much everything in life, robbing you of joy, peace, and productivity. If this condition is affecting you or a loved one, you're likely seeking a fast and lasting solution. Those were my goals, so I developed a protocol that worked for me: *FASTR Fissure in Ano Self Treatment and Repair* consolidates key data, personal experience, a little discretion, and plenty of empathy in a way that can save you time and reduce suffering. I hope that sharing it as a pattern can help you build your own effective protocol. This is the EPUB version; a PDF version is also available.
