Humanizing Healthcare Reforms Gerald A. Arbuckle, Maria Theresa Ho, 2012-10-01. This book looks at the current turmoil facing contemporary healthcare systems worldwide, which has resulted from relentless reorganization being imposed upon them, and argues for a return to a values-based approach to healthcare. Writing from the unique and fresh perspective of social anthropology, the author takes a highly logical approach to practice and emphasizes the importance of values such as compassion, solidarity and social justice. He stipulates that without being able to clearly identify the values and goals that unite its members, healthcare organizations are unlikely to be able to meet the demands of the constant and varied pressures they face, and explains how individuals at every level in healthcare can contribute to positive change within their organizations. This much-needed and highly accessible book
