Learning to Teach Geography in the Secondary School David Lambert, David Balderstone, 2012-08-21 Learning to Teach Geography in the Secondary School has become the widely recommended textbook for student and new teachers of geography. It helps them acquire a deeper understanding of the role, purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design, teach and evaluate stimulating and creative lessons. This fully revised and updated second edition takes account of new legislation and important developments in geography education including literacy, numeracy, citizenship and GIS. Brand new chapters in this edition provide essential guidance on fieldwork and using ICT in the context of geography teaching and learning. Chapters on teaching strategies, learning styles and assessment place the learner at the centre stage and direct advice and activities encourage successful practice. Designed for use as a core textbook, Learning to Teach Geography in the Secondary School is essential reading for all student teachers of geography who aspire to become effective, reflective teachers. Praise for the first edition of Learning to Teach Geography in the Secondary School: This is a practical and visionary book as well as being superbly optimistic. It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere. Practical activities and ideas are set within a carefully worked out authoritative conceptual framework. The Times Educational Supplement. This is a modern, powerful, relevant and comprehensive work that is likely to become a standard reference for many beginning teachers on geography initial teacher training courses in England and Wales. Essential Guides for Early Career Teachers: Understanding Your Role in Curriculum Design and Implementation Henry Sauntson, 2025-02-28 This is a must-read for early career teachers (ECTs) focusing on the role of the ECT in terms of school curriculum design and implementation. It explores the topics surrounding curriculum that those in training or ECT induction are likely to encounter and need to understand and offers a range of practical and critical strategies and approaches to curriculum design. It begins with examining the history of the core ideas around curriculum, including educational philosophy and concepts, before moving on to planning, reflection and principled intent and implementation. It also delves into the various roles of those involved in curriculum design. This is an essential text for ECTs as curriculum is a key aspect of the Core Content and Early Career Frameworks. It draws on real-life enactments and models to help those in their early stages understand their role in curriculum implementation, especially in relation to the Ofsted focus on the quality of education and the role of all teachers as
