Before You Read

In this lesson, you will read about how and why we study history.

As You Read

Use a diagram to organize the lesson's main ideas and details.

GEOGRAPHY

How does geography affect how a civilization develops?

The people who study history are also the people who write about history. They piece together the information they find in order to understand people from the past. Their field of study is called **historiography**.

Social scientists also use geography to study history. The book *Guns, Germs, and Steel* looks at how geography helped and hurt civilizations in the past. Jared Diamond, the book's author, explained the three factors that helped Eurasian civilizations succeed: good temperatures and locations for agriculture, resistance to certain deadly germs, and the ability to develop technology.

Where a group of people settle can affect how, when, and in what way they

develop. The island nation of Japan was very isolated from the West before the mid-1800s. By the early 1900s, Japanese people were trading with the West and the country was considered a world power. Great Britain, also an island nation, developed much earlier. Britain was part of the Roman Empire. It later joined other European countries to start colonies around the world. The British had to develop a strong navy in order to protect its own empire around the globe.

1. Why did Japan develop later than Great Britain?

Roberts, Charles J. Elfer, 2018-07-01 Teaching and learning through Hollywood or commercial film productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century Purposeful and effective instruction through film however is not problem free and there are many challenges that accompany classroom applications of Hollywood motion pictures In response to the problems and possibilities associated with teaching through film we have collaboratively developed a collection of practical classroom ready lesson ideas that might bridge gaps between theory and

practice and assist teachers endeavoring to make effective use of film in their classrooms We believe that film can serve as a powerful tool in the social studies classroom and where appropriately utilized foster critical thinking and civic mindedness The College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking reading and writing We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute Our hope is that this edited book might play a small role in the larger project of supporting practitioners specifically K 12 teachers of United States history by offering a collection of classroom ready tools based on the Hollywood or History strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures The book consists of K 5 and 6 12 lesson plans addressing the following historical eras Adapted from UCLA National Center for History in Schools **Lutheran**
