

Reading Level Correlation Chart

Correlating reading levels is not an exact science. All correlations are an approximation. It is important to note overlap in both F&P Levels and Lexiles. This chart was compiled using information from Fountas and Pinnell, as well as the Lexile website. Lexile levels reflect current changes as applicable to the CCSS. In an ideal situation, an eighth grade student would reach level Z by the end of the year.

Grade Level	Fountas and Pinnell Reading Level	Lexile Level
