Help I Cant Get Motivated:

Failure to Launch Michael DeVine, 2013-06-07 Failure to Launch is a book geared towards helping clinicians work with dependent adult children The book first attempts to define the problem of failure to launch as well as identify the underlying causes such as entitlement narcissism enabling family systems and undiagnosed mental health problems Failure to Launch also lays out a step by step treatment plan to help guide clinicians with these clients to help facilitate change The book includes case studies sample chapters and the latest research to help illustrate the theoretical basis for the treatments in this book

Virtue's Reasons Noell Birondo, S. Stewart Braun, 2017-02-17 This collection sheds light on precisely how virtues and reasons are related to each other and what can be learned by exploring this relationship The first section analyzes how the virtues may be related to or linked with normative reasons in ways that improve our understanding of what constitutes virtuous character and ethical agency The second section explores the reasons moral agents have for cultivating the virtues of character and how the virtues impact moral responsiveness or development The final section examines how reasons can be employed in understanding the nature of virtue and how specific virtues like modesty and practical wisdom interact with reasons

Working in Organisations Andrew Kakabadse, John Bank, Susan Vinnicombe, 2004 This book provides a broad coverage of key issues ranging from a close examination of the manager's job to a discussion of the corporate and social forces that determine our lives This book will serve as a text on organisational culture and change for academics researchers and managers around the world

BOOK JACKET The Motivated School Alan McLean, 2003-09-03 The book is a pleasure to read and whether the model is adopted in whole or in part as a lens through which to examine and understand what is going on in a learning community it has much to offer Improving Schools As a head of department in a comprehensive school in an education action zone this book has made me think about not only the way I relate to the students I work with but also about relationships with the teachers in my department I therefore warmly recommend to teachers and especially to headteachers and others in positions of leadership in both primary and secondary phases Emotional Behavioural Difficulties The Motivated School is an important book It addresses a number of key issues which are central to Scottish educational policy including Better Behaviour Better Learning Inclusion and Raising Attainment It is also a controversial book challenging as it does woolly thinking on issues such as self esteem rewards and motivation to learn Scottish Education Review This book is well written and demonstrates the author's commitment and dedication to an individual's psychological well being and positive effective learning environments The Psychology of Education Review The best education books frequently challenge our assumptions Alan McLean's The Motivated School demonstrates with a kind of forensic exactness the way we over emphasize the importance of student's self esteem We can't make students motivated we can only create the right conditions There is much to admire in this book It isn't difficult to read and the format is generous and accessible I suspect all school leaders will learn something from it Geoff Barton Times Educational Supplement Friday Magazine Some

students do not achieve their full potential while others of similar ability achieve more than predicted This book shows how important students motivational mindsets can be in influencing the way they learn The author brings together evidence from recent research shows how successful learning contexts can be created and provides real life suggestions for teachers working with disengaged learners Increasing pressure to meet targets has sent schools down the path of trying to motivate students from the outside By recognizing that genuine motivation comes from the inside and that self motivation needs to be nurtured this book provides a practical guide to both teacher and student motivation This book will be of interest to anyone seeking to develop their skills in motivating young people to learn It will be of particular interest to teachers educators and management at all levels

Journey Through the 8 Stages of Grief Tammy Packard Hoffman, 2018-09-27

Tammy Packard Hoffman's eight years of marital bliss ended abruptly when her husband was suddenly killed and she was badly injured on the same evening. Her subsequent dark days of grieving led her on a journey where she discovered that whenever we experience any type of loss, whether it's life-changing or a minor inconvenience, we go through eight different emotional and physical stages known as The Grieving Process. Discovering this information brought comfort and healing to Tammy, and she desires to encourage others during their grieving by educating them on The Grieving Process. Each chapter of *Journey through the 8 Stages of Grief* contains four sections to help those who are grieving work through their pain. The first section explains a specific stage of grieving and shares what to expect during that stage. The second section contains Tammy's unfiltered journal entries which chronicle how she navigated through that stage. The third section gives practical steps on how to work through that stage of grieving. It also gives a list of suggestions for friends and family members who want to help someone going through a difficult time. The last section of each chapter gives Bible verses to provide comfort and encouragement. Because we will all experience several losses during our lives, it is a tremendous help to know what to expect and what to do during these times of suffering.
