Modernism in Asia Pacific Kerry Hill, 2009 *Kerry Hill*, 2009 Archinesia 04 Imelda Akmal (Editor in Chief), 2013-01-01 Cross Border Architecture 000000, 2010 **150** Geoffrey London, Philip Goad, Conrad Hamann, 2017 Architect designed houses of the period 1950 65 proposed an innovative response to the social economic and climatic conditions of post war Australia At the same time they embraced the aesthetic technological and egalitarian aspirations of modern architecture An Unfinished Experiment in Living traces the emergence of this architectural phenomenon in Australia documenting the full range of its expression from the postwar optimism of the early 1950s through to the affluence of the 1960s It is a catalogue of the most significant houses of the period It includes comprehensive plans and period photographs of 150 houses from around Australia dating from a time when the great Australian dream was the single family house This book puts forward new research founded on the premise that the most significant houses of the 1950s and 60s represent an unfinished and undervalued experiment in modern living Issues such as the open plan the changing nature of the family the embrace of advances in technology the use of the courtyard and the orientation of the house to capture sun and privacy were valuable and critical lessons This is a compelling reminder of their continuing relevance Subject Architecture Design Australian History Sociology Southeast Asia's Modern Architecture Jiat-Hwee Chang, Imran bin Tajudeen, 2019 What is the modern in Southeast Asia s architecture and how do we approach its study critically This pathbreaking multidisciplinary volume is the first critical survey of Southeast Asia s modern architecture It looks at the challenges of studying this complex history through the conceptual frameworks of translation epistemology and power Challenging Eurocentric ideas and architectural nomenclature the authors examine the development of modern architecture in Indonesia Malaysia Myanmar the Philippines Singapore Thailand and Vietnam with a focus on selective translation and strategic appropriation of imported ideas and practices by local architects and builders The book transforms our understandings of the region s modern architecture by moving beyond a consideration of architecture as an aesthetic artifact and instead examining its entanglement with different dynamics of power *The Routledge Companion to Contemporary Architectural History*

Duanfang Lu, 2023-07-31 The Routledge Companion to Contemporary Architectural History offers a comprehensive and up to date knowledge report on recent developments in architectural production and research Divided into three parts Practices Interrogations and Innovations this book charts diversity criticality and creativity in architectural interventions to meet challenges and enact changes in different parts of the world through featured exemplars and fresh theoretical orientations The collection features 29 chapters written by leading architectural scholars and highlights the reciprocity between the historical and the contemporary research and practice and disciplinary and professional knowledge Providing an essential map for navigating the complex currents of contemporary architecture the Companion will interest students academics and practitioners who wish to bolster their understanding of built environments **Australia** Harry Margalit, 2019-11-15 This book tells the story of the architects and buildings that have defined Australia s architectural culture since the founding of the modern nation through Federation in 1901 That year marked the beginning of a search for better city forms and buildings to accommodate the changing realities of Australian life and to express an emerging distinctive and eventually confident Australian identity While Sydney and Melbourne were the settings for many of the major buildings all states and territories developed architectural traditions based on distinctive histories and climates Harry Margalit explores the flowering of these many architectural variants from the bid to create a model city in Canberra through the stylistic battles that opened a space for modernism to the idealism of postwar reconstruction and beyond to the new millennium Australia reveals a vibrant and influential culture of the built environment at its best when it matches civic idealism with the sensuality of a country of stunning light and landscapes 中国城市史, 2009-12 Jian zhu yu dou shi , 2010 ITC **Forthcoming**
