Chelliah, Willem J. de Reuse, 2010-10-06

The *Handbook of Descriptive Linguistic Fieldwork* is the most comprehensive reference on linguistic fieldwork on the market bringing together all the reader needs to carry out successful linguistic fieldwork Based on the experiences of two veteran linguistic fieldworkers and advice from more than a twenty active fieldwork researchers this handbook provides an encyclopedic review of current publications on linguistic fieldwork and surveys past and present approaches and solutions to problems in the field and the historical political and social variables correlating with fieldwork in different areas of the world The discussion of the ethical dimensions of fieldwork as well as what constitutes the typical linguistic fieldwork setting or consultant is explored from multiple perspectives relevant to fieldwork on every continent Included is information omitted in most other texts on the subject such as the collection representation management and methods of extracting grammatical information from discourse and conversational data as well as the relationship between questionnaire based elicitation text based elicitation and philology and the need for combinations of these methods The book is useful before during and after linguistic field trips since it provides extensive practical macro and micro organization and planning fieldwork tips as well as a handy sketch of major typological features for use in linguistic analysis Comprehensive references are provided at the end of each chapter as resources relevant to the reader's particular interests *Non-Finiteness* Bingjun Yang, 2022-04-28 As a gateway to central questions in linguistics non finiteness is unavoidable in both typological studies and aspects of natural language processing such as text segmentation and annotation This study presents a process relation framework to explain the more complex previously unaccounted for instances of non finiteness in clause structure **Perspectives on Semantic Roles** Silvia Luraghi, Heiko Narrog, 2014-08-15 Semantic roles have continued to intrigue linguists for more than four decades now starting with determining their kind and number with their morphological expression and with their interaction with argument structure and syntax The focus in this volume is on typological and historical issues The papers focus on the cross linguistic identification of semantic role equivalents on the regularity of and exceptions concerning change and grammaticalization in semantic roles the variation of encoding the roles of direction and experiencer in specific languages presenting evidence for identifying a new semantic role of speech addressee in Caucasian languages on semantic roles in word formation and finally a cross linguistic comparison of the functions and the grammaticalization of the ethical dative in some Indo European languages The book will be of interest to anyone involved with case and semantic roles with the syntax semantics interface and with semantic change and grammaticalization *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures* Modern Language Association of America, 2008 Vols for 1969 include ACTFL annual bibliography of books and articles on pedagogy in foreign languages 1969 **Locative and existential**

predication Chris Lasse Däbritz,Josefina Budzisch,Rodolfo Basile,2025-09-29 Locative and existential predications are fundamental linguistic constructions that exhibit significant formal overlap while serving distinct communicative functions Locative clauses typically anchor a definite referent to a spatial context whereas existential clauses introduce new often indefinite referents into discourse Despite their central role in syntactic and typological research the cross linguistic diversity of these predications remains largely underexplored This collective volume originates from workshops held in 2023 at the Annual SLE Meeting in Athens and the International Conference on Historical Linguistics in Heidelberg It brings together in depth analyses of locative and existential predications across a wide range of languages drawing on diverse methodological and theoretical approaches Rather than imposing a single framework the volume deliberately allows for variation in how these constructions are defined and analyzed reflecting the complexity and diversity of linguistic structures A key theme of the book is the relationship between locative existential and possessive predication Many of the included studies highlight the formal and functional connections between these domains illustrating how different languages encode possession through structures that overlap with locative and existential constructions The volume also challenges conventional assumptions about structural distinctions between these predications showing that in many languages such boundaries are blurred or even nonexistent The introductory chapter reviews key findings from prior research and offers a refined typology of locative and existential predications It also highlights the major insights from the remaining chapters each of which provides a detailed empirical analysis of these constructions in one or several underdescribed languages The contributions address i the structural and functional properties of locative and existential clauses ii criteria for distinguishing these constructions in languages where formal differentiation is minimal iii their frequency and usage in natural discourse and iv grammaticalization pathways that link locative existential and possessive predication By integrating data from a broad range of languages and perspectives this volume advances our understanding of locative and existential predication and offers a foundation for future research in typology syntax and historical linguistics
