Glossary Dialect Almondbury Huddersfield:

A Glossary of the Dialect of Almondbury and Huddersfield (Classic Reprint) Thomas Lees, 2015-07-20 Excerpt from A Glossary of the Dialect of Almondbury and Huddersfield When I first came to this place somewhat more than a quarter of a century since I was greatly struck not only with the singular vowel pronunciation but with the vast abundance of words and phrases till then unknown to me Accordingly soon after I entered on my office as Master of the Grammar School I began to collect such words as I heard and my good friends made lists of many more for my amusement From that time till now I have followed up the habit and have succeeded in collecting some two thousand specimens of the dialect I have in this Glossary inserted none as far as I know which are common to all England except when I noticed some peculiarity in the idiom or pronunciation Years ago I obtained such information as I could from several old inhabitants then seventy or eighty years of age this carried me back in reality to perhaps 1774 and by tradition much farther Unfortunately as I was seeking as much for reminiscences as for words I did not in all cases take down their information in their own dialect I wish I had but merely made a sort of precis of their statements It must be particularly understood that all the expressions herein to be found are not known to all the people as some have become obsolete banished by the refinement of the present day Hardly a person to whom the Glossary has been read word for word has failed to supply me with many words and to plead ignorance to as many more Such hearers however were chiefly of an educated class About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [A Glossary of the Dialect of Almondbury and Huddersfield. clearly that it may be of use to all who had it He does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible Everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible The writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general This section is interleaved with blank sheets for the readers notes The Author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch fisher is dependent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing
