The Miracle of the Breath Andy Caponigro, 2010-10-06. Take a Deep Breath. Just breathe. These are common calming mantras, but what do they really mean? Though every second of life is governed by breath, few people pay heed to this important facet of good health. The Miracle of the Breath explores the importance of breath, not only to physical well-being but also as a powerful conduit of divine energy. Replete with stories and case studies of people healed from asthma, arthritis, anxiety attacks, and other physical and mental traumas through proper breath work, the book also examines the concept of breath as a spiritual life force. Drawing on methods of observing and controlling the breath developed by ancient masters in India, China, and Tibet, it includes meditations and practice techniques to help readers improve their emotional and spiritual health. *Back to Godhead*, 1997.

Centers of Power Joseph H. Berke, Stanley R. Schneider, 2008-01-22 Kabbalah and psychoanalysis are conceptions about the nature of reality The former is over two thousand years old The latter has been formalized less than a hundred years ago Nonetheless they are parallel journeys of discovery that have forever altered not only what we see but the very nature of seeing itself The domain of Kabbalah is the spiritual and material macrocosm In contrast the concern of psychoanalysis is the microcosm the innermost recesses of the human mind However both are convergent and complementary theories Kabbalah asserts as above so below meaning the Godhead the source of everything is reflected in the smallest details of existence Similarly psychoanalysis traces the evolution from inner objects to family feuds and social fields More than theories however Kabbalah and psychoanalysis test the limits of direct experience They are contemplative meditative and introspective methods for restoring shattered worlds and fragmented lives These are material as well as spiritual entities which have been separated from their source on one hand the Godhead and on the other personal praxis The purpose of this study is to explore how Kabbalah and psychoanalysis converge and diverge complement and conflict with each other in order to amplify their impact and enable mankind to gain a greater understanding of reality
