## **Going Native Going Native:**

**Going Native** Shari M. Huhndorf, 2001-02-15 Since the 1800s many European Americans have relied on Native Americans as models for their own national racial and gender identities. Displays of this impulse include world's fairs, fraternal organizations and films such as *Dances with Wolves*. Shari M. Huhndorf uses cultural artifacts such as these to examine the phenomenon of going native, showing its complex relations to social crises in the broader American society, including those posed by the rise of industrial capitalism, the completion of the military conquest of Native America, and feminist and civil rights activism. Huhndorf looks at several modern cultural manifestations of the desire of European Americans to emulate Native Americans. Some are quite pervasive, as is clear from the continuing, if controversial, existence of fraternal organizations for young and old which rely upon Indian costumes and rituals. Another fascinating example is the process by which Arctic travelers went Eskimo, as Huhndorf describes in her readings of Robert Flaherty's travel narrative *My Eskimo Friends* and his documentary film *Nanook of the North*. Huhndorf asserts that European Americans' appropriation of Native identities is not a thing of the past and she takes a skeptical look at the tribes beloved of New Age devotees. *Going Native* shows how even seemingly harmless images of Native Americans can articulate and reinforce a range of power relations, including slavery, patriarchy, and the continued oppression of Native Americans. Huhndorf reconsiders the cultural importance and political implications of the history of the impersonation of Indian identity in light of continuing debates over race, gender, and colonialism in American culture. *Going Native in Murcia* Debbie Jenkins, Marcus Jenkins, 2012

Agnes Loeffler, 2017-03-30 Allopathy is often described as western medicine, the antithesis of homeopathy, yet all medical systems are infused with culture-specific values, ideas, and beliefs. Agnes Loeffler's insightful and original book investigates how allopathic knowledge, theories, and practice guidelines come to be understood and applied by practitioners in a non-western context. Based on research amongst doctors in Iran, Loeffler describes how the system of allopathic medicine has adapted to local explanations of health and disease and to the economic, social, and religious-political realities framing contemporary Iranian life and culture. This approach simultaneously problematizes the view of allopathic medicine as a western entity exerting a hegemonic influence over non-western cultures and provides a rare glimpse of the complexities of modern Iran society, exploring the interfaces between culture, health, and the experience of illness. **Empire Islands**

Rebecca Weaver-Hightower, 2007 Through a detailed unpacking of the castaway genre's appeal in English literature, *Empire*

Islands forwards our understanding of the sociopsychology of British Empire Rebecca Weaver Hightower argues convincingly that by helping generations of readers to make sense of and perhaps feel better about imperial aggression the castaway story in effect enabled the expansion and maintenance of European empire Empire Islands asks why so many colonial authors chose islands as the setting for their stories of imperial adventure and why so many postcolonial writers write back to those island castaway narratives Drawing on insightful readings of works from Thomas More's Utopia to Caribbean novels like George Lamming's Water with Berries from canonical works such as Robinson Crusoe and The Tempest to the lesser known A Narrative of the Life and Astonishing Adventures of John Daniel by Ralph Morris Weaver Hightower examines themes of cannibalism piracy monstrosity imperial aggression and the concept of going native Ending with analysis of contemporary film and the role of the United States in global neoimperialism Weaver Hightower exposes how island narratives continue not only to describe but to justify colonialism Rebecca Weaver Hightower is assistant professor of English and postcolonial studies at the University of North Dakota

*The Latinx Files* Matthew David Goodwin, 2021-05-14 In *The Latinx Files* Matthew David Goodwin traces how Latinx science fiction writers are reclaiming the space alien from its xenophobic legacy in the science fiction genre The book argues that the space alien is a vital Latinx figure preserving Latinx cultures by activating the myriad possible constructions of the space alien to represent race and migration in the popular imagination The works discussed in this book including those of H G Wells Gloria Anzaldá Junot Díaz Andr M Carrington and many others often explicitly reject the derogatory correlation of the space alien and Latinxs while at other times they contain space aliens that function as a source of either enlightenment or horror for Latinx communities Throughout this nuanced analysis *The Latinx Files* demonstrates how the character of the space alien has been significant to Latinx communities and has great potential for future writers and artists

**In It for the Long Haul** Glenn E. Ludwig, 2002-01-01 When pastors and congregations come together in ministry they generally do so with the hope that the relationship will be long lasting and dynamic The reality however is that long term pastorates are an increasingly rare phenomenon in congregations While there are many reasons that most pastors can only sustain their ministries in a parish for a relatively limited number of years Glenn Ludwig argues that this does not have to be the case if both pastors and congregations take deliberate steps toward an enduring friendship *Feminist Academics* Louise Morley, Val Walsh, 2002-11 This text explores questions of feminist interventions in academic institutions covering both the structure and culture of such places and the social divisions between women **Doing Critical Ethnography** Jim Thomas, 1993 In this volume Thomas unites two traditions in social science critical theory and qualitative research in an attempt to apply a critical worldview to the conventional logic of cultural inquiry Rather than standing in opposition to traditional ethnography it offers a style of considering the direct relationship between knowledge society and political action Thomas addresses the question If the duty of the researcher entails the righting of social wrongs as well as producing valid research results how is it possible to juxtapose the two goals He defines the rules and guidelines for a praxis oriented ethnographic tradition one both ideologically engaged and scientifically valid In addition he outlines the various types of critical ethnography explaining the tenets of each and how research can be carried out under these frameworks *Edge of the Sacred - Jung, Psyche, Earth* David Tacey, Does earth have spirit or soul This is a question being asked ever more frequently especially by those interested in the future of the natural world and the development of consciousness The alchemists said the greater part of the soul is outside the body and indigenous cultures have felt that soul or spirit resides in Nature and the physical environment Such notions have been dismissed by modernity as illusions but we are beginning to have second thoughts about the animation of the earth Science and rationality have not taught us how to love or care for the earth and in the modern era the environment has been disrespected The mythic bonds to Nature such as those found in Aboriginal Australian cultures appear to have real survival value because they bind us to the earth in a meaningful way When these bonds are destroyed by excessive rationality or a collapse of cultural mythology we are left alone outside the community of Nature and in an alienated state In this state we do real damage to the environment because it is no longer part of our spiritual body or moral responsibility Jung was one of the first thinkers of our time to consider the psychic influence of the earth and the conditioning of the mind by place Inspired by his writings and those of James Hillman the field

of ecopsychology has arisen as a powerful new area of inquiry Edge of the Sacred Jung Psyche Earth contributes to global ecopsychology from an Australian perspective
