How much does it cost to install solar panels? The cost of solar panels varies depending on the size of the system, the type of panels, and the location. However, the average cost of a residential solar panel system is around \$15,000 to \$20,000. This cost includes the panels, inverters, mounting hardware, and labor. There are also various incentives and rebates available that can help offset the cost.

1. What is the average number of a protein retained in the cytosol in all cells in the experiment described in the video introduction?
