nineties The focal point was surprise and unease about indubitable symptoms of consumerism which until then had been seen as a characteristic of the richest western societies However since the nineties consumerism has run rampant in velopingcountriestoo This has particularly been noted with respect to the emerging middle classes in South East Asia The will to consume seemed inexhaustible and appetites insatiable This rage to consume was both celebrated and feared by political leaders and other social moral gatekeepers who began to condemn the process as Westernization and even westoxication Chua 2000 xii Ever since the debate about the lifestyles of the new middle classes and their role in society has gained momentum
