**The Amorite Dynasty of Ugarit** Mary E. Buck, 2019-09-16 In *The Amorite Dynasty of Ugarit* Mary Buck takes a new approach to the field of Amorite studies by considering whether the site of Ugarit shares close parallels with other sites and cultures known from the Bronze Age Levant. When viewed in conjunction the archaeological and linguistic material uncovered in this study serves to enhance our understanding of the historical complexity and diversity of the Middle Bronze Age period of international relations at the site of Ugarit. With a deft hand Dr Buck pursues a nuanced view of populations in the Bronze Age Levant with the objective of understanding the ancient polity of Ugarit as a kin based culture that shares close ties with the Amorite populations of the Levant. The author covers a contentious area of scholarship with confidence and competence and has produced a convincing case for the Amorite origins of Bronze Age Ugarit. Parker, 2017 *An Accompaniment to Mitchell's Map of the World on Mercator's Projections* Samuel Augustus Mitchell, 1841 **An Accompaniment to Mitchell's Map of the World on Mercator's Projection** Samuel Augustus Mitchell, 1839 *World War II Map by Map* DK, 2019-09-03 Trace the epic history of World War II across the globe with more than 100 detailed maps. In this stunning visual history book, custom maps tell the story of the Second World War from the rise of the Axis powers to the dropping of the atom bomb on Hiroshima and Nagasaki. Each map is rich with detail and graphics helping you to chart the progress of key events of World War II on land, sea, and air, such as the Dunkirk evacuation, the attack on Pearl Harbor, the D-Day landings, and the siege of Stalingrad. Historical maps from both Allied and Axis countries also offer unique insights into the events. There are timelines to help you follow the story as it unfolds, while narrative overviews explain the social, economic, political, and technical developments at the time. Fascinating large-scale pictures introduce topics such as the Holocaust, blitzkrieg, kamikaze warfare, and code breaking. Written by a team of historians in consultation with Richard Overly, *World War II Map by Map* examines how the deadliest conflict in history changed the face of our world. It is perfect for students, general readers, and military history enthusiasts.

It tells the story through the life and works of the British diplomats and consuls and the missions in which they worked of Britain's involvement first for trade and later for strategic purposes in the four key regional states of Iran, Iraq, Kuwait, and Oman. With wit and insight, the book traces the origins of today's problems from the Ottoman and Persian empires to the 1991 Gulf War and its aftermath. **Responses to Nuclear Proliferation** Brian K. Chappell, 2021-01-07 Contemporary fears of rogue state nuclear proliferation and nuclear terrorism pose unique challenges for the global community. This book offers a unique approach by examining why states that have the military capability to severely damage a proliferating state's nuclear program instead choose to pursue coercive diplomacy. The author argues cognitive psychological influences including the trauma derived from national tragedies like the September 11th attacks and the Holocaust and a history of armed conflict increase the threat perceptions of foreign policy decision makers when confronting a state perceived to be challenging the existing power structure by pursuing a nuclear weapon. The powerful state's degree of perceived threat combined with its national security policies, military power, projection capabilities, and public support then influence whether it will take no action, use coercive diplomacy, sanctions, or employ military force to address the weaker state's nuclear ambitions. **The Graduate Magazine of the**
