The four LNCS volume set 9175 9178 constitutes the refereed proceedings of the 9th International Conference on Learning and Collaboration Technologies UAHCI 2015 held as part of the 17th International Conference on Human Computer Interaction HCII 2015 in Los Angeles CA USA in August 2015 jointly with 15 other thematically similar conferences. The total of 1462 papers and 246 posters presented at the HCII 2015 conferences were carefully reviewed and selected from 4843 submissions. These papers of the four volume set address the following major topics: LNCS 9175 Universal Access in Human Computer Interaction; Access to today's technologies Part I addressing the following major topics: LNCS 9175 Design and evaluation methods and tools for universal access; universal access to the web; universal access to mobile interaction; universal access to information communication and media; LNCS 9176 Gesture based interaction; touch based and haptic interaction; visual and multisensory experience; sign language technologies and smart and assistive environments; LNCS 9177 Universal Access to Education; universal access to health applications and services; games for learning and therapy; and cognitive disabilities and cognitive support; and LNCS 9178 Universal access to culture orientation; navigation and driving; accessible security and voting; universal access to the built environment and ergonomics; and universal access.

*Interior Design Using Hand Sketching, SketchUp and Photoshop* Steven H. McNeil, Daniel John Stine, 2011 This book is designed for the interior designer wanting to use hand sketching techniques Google SketchUp and Adobe Photoshop together to create beautiful designs and presentations. This book will teach you how to come up with fresh new design ideas and how to save time by using these powerful tools and techniques. This book presumes no previous experience with any of these tools and is divided into three sections. In the first section you will learn to use SketchUp and Photoshop starting with navigating the interface and then learning their features. In the next section you will learn hand sketching techniques and how to combine these with digital tools. In the last section of the book you will complete an interior design project leveraging the tools and techniques you learned in previous chapters while learning a few new techniques along the way. The first two chapters cover computer basics including managing files and knowing your way around the operating system. The next three chapters introduce the reader to SketchUp an easy to use 3D modeling program geared specifically towards architecture. Chapters six and seven present the basic tools found in Photoshop which is the industry standard raster image editing software. Once you have worked through all the technology related introduction chapters you will explore four chapters on various aspects of hand sketching. These chapters mainly focus on interior drawing concepts. The final four chapters work through the concept design process for an interior fit out project. The intent is that the reader would recreate these drawings as they appear in the book. The goal is to focus on understanding the process and developing the required techniques rather

than getting bogged down in design right away     *Computer Vision - ACCV 2020* Hiroshi Ishikawa, Cheng-Lin Liu, Tomas Pajdla, Jianbo Shi, 2021-02-25 The six volume set of LNCS 12622 12627 constitutes the proceedings of the 15th Asian Conference on Computer Vision ACCV 2020 held in Kyoto Japan in November December 2020 The total of 254 contributions was carefully reviewed and selected from 768 submissions during two rounds of reviewing and improvement The papers focus on the following topics Part I 3D computer vision segmentation and grouping Part II low level vision image processing motion and tracking Part III recognition and detection optimization statistical methods and learning robot vision Part IV deep learning for computer vision generative models for computer vision Part V face pose action and gesture video analysis and event recognition biomedical image analysis Part VI applications of computer vision vision for X datasets and performance analysis The conference was held virtually     [The Professional Practice of Architectural Working Drawings](#) Osamu A.
