Electricity

18MACH12

Notes

Electricity has an important place in our life. It is a controllable and convenient form of energy. It is used in homes, schools, hospitals, industries and so on. What is electricity? How does it flow in an electric circuit? What are the factors that control or regulate the current through an electric circuit? We will make a sincere attempt to answer such questions. We will also study the heating effect of electric current and its applications.
