Heaven And Hell A 2011 Abridged Edition:

Heaven and Hell Emanuel Swedenborg, Simon Parke, 2011-03 This is an abridged version of Swedenborg's original. When deciding what to omit, avoidance of repetition was usually the determining factor. Even in this edition, he revisits his main themes frequently. The original numbering of the paragraphs has been maintained, however, to enable readers clearly to see which passages have been omitted.

Beyond Zero and One Andrew Smart, 2015-12-03 Andrew Smart deftly shows why it's time for us to think deeply about thinking machines before they begin thinking deeply about us. Douglas Rushkoff, author of *Escaping the Growth Trap*, presents *Shock and Program* or *Be Programmed*. Provocative and cool. Cory Doctorow, *Forget the Turing test*, will the supersmart AIs that we hear so much about these days pass the acid test? In this playful, informative, and prescient book, Andrew Smart brings psychedelics into dialogue with neuroscience in order to challenge the whiz-bang computational views of human and machine sentience that dominate the headlines. Giving robots LSD sounds like a joke, but Smart is dead serious in his critique of the hidden and sometimes dangerous biases that underlie both popular and scientific fantasies of digital minds. Erik Davis, host of *Expanding Mind*, and author of *Techgnosis*, *Myth Magic*, and *Mysticism in the Age of Information*. Philosophy, psychedelics, robots, and the future: consciousness and intelligence, what else do you desire? Here you will see why those machines that reach singularity will be smarter than us and take over the world and shall need to be conscious, and maybe they can only be conscious if they are human enough. The thesis of the book and the path shown us by Smart leads to a great trip of imagination and philosophy of maths and neuroscience. Dr Tristan Bekinschtein, Lecturer, Department of Psychology, University of Cambridge: Can we build a robot that trips on acid? This is not a frivolous question, according to neuroscientist Andrew Smart. If we can't, he argues, we haven't really created artificial intelligence. In an exposition reminiscent of crossover works such as Godel, Escher, Bach, and Fermat's Last Theorem, Andrew Smart weaves together Mangarevan binary numbers, the discovery of LSD, Leibniz, computer programming, and much more to connect the vast but largely forgotten world of psychedelic research with the resurgent field of AI and the attempt to build conscious robots. A book that draws on the history of mathematics, philosophy, and digital technology. *Beyond Zero and One* challenges fundamental assumptions underlying artificial intelligence. Is the human brain based on computation? Can information alone explain human consciousness and intelligence? Smart convincingly makes the case that true intelligence and artificial intelligence requires an appreciation of what is beyond the computational.

Parenting Beyond Belief- Abridged Ebook Edition, 2011-02-15 Foreword by Michael Shermer, Ph.D. Contributors include Penn Jillette, Julia Sweeney, and Dr. Donald B. Ardell. This is an abridged edition of the print classic. It does not include essays by Richard Dawkins or Stephen Law. Please consult the print edition for these essays. It's hard enough to live a secular life in a religious world. And bringing up children without religious influence can be even more daunting. Despite the difficulties, a large and growing number of parents are choosing to raise their kids without religion. In *Parenting Beyond Belief*, Dale McGowan celebrates the freedom that comes

with raising kids without formal indoctrination and advises parents on the most effective way to raise freethinking children. With advice from educators, doctors, psychologists, and philosophers as well as wisdom from everyday parents, the book offers tips and insights on a variety of topics from mixed marriages to coping with death and loss and from morality and ethics to dealing with holidays. Sensitive and timely, *Parenting Beyond Belief* features reflections from such freethinkers as Mark Twain, Bertrand Russell, and wellness guru Dr. Don Ardell that will empower every parent to raise both caring and independent children without constraints. *Twenty-First Century Theologies of Religions*, 2016-09-07

Within Christian theology, debates on the theology of religions have intensified over the last thirty or so years. This volume surveys the field and maps future directions in this expanding and important area of research. Both established experts and new voices address typological debates, comparative theology, multiple religious belonging or identity, and how dialogue between different religious traditions affects our understanding of these issues. Different perspectives and traditions are represented, and while focusing upon debates in Christian theology, voices and perspectives from a range of religious traditions are also included. This volume is an essential tool for research students and established scholars working within the theology of religions and interreligious studies. Contributors are Graham Adams, Tony Bayfield, Abraham Velez de Cea, Gavin D. Costa, Reuven Firestone, Ray Gaston, Elizabeth Harris, Paul Hedges, Shanthikumar Hettiarachchi, Haifaa Jawad, Kristin Beise, Kiblinger, Paul F. Knitter, Oddbjørn Leirvik, Marianne Moyaert, Mark Owen, Alan Race, Sigrid Rettenbacher, Perry Schmidt, Leukel, Leonard Swidler, Philip Whitehead, Janet Williams, Ulrich Winkler. **The Aeneid: Virgil's Greatest Hits [Abridged and Annotated]**

Virgil, 2011-01-20. A story and poem that is epic in every way, *The Aeneid* is Virgil's classic tale of the hero Aeneas's escape from Troy, journey to Italy, battles, and loves, and a side trip to Hell. It is the Roman National Epic. This edition features a modern, accessible translation aiming at the true intent of Virgil's writing, not the literal words, so that the modern reader can enjoy it as was intended. The poem rhymes and resonates. It is abridged to the essential and entertaining core, bridged by explanation and peppered with facts, trivia, character guides, and background. The author brings new life to a great work and makes it easy to read and enjoy. *The Athenaeum*, 1868. **Athenaeum and Literary Chronicle**, 1868. *Bhagavad Gita*, Paramahansa Nithyananda, 2011-09. **Law as Profession and Practice in Medieval Europe**, Kenneth Pennington, Melodie Harris Eichbauer, 2011.

This volume brings together a set of papers by international scholars distinguished in their own right in honor of James Brundage. Each contribution corresponds to an important focus of Brundage's own work. The connection between the development of medieval legal thought and constitutional ideas is the theme that marks the first section, while the second centres on the growth of the legal profession. The following papers explore the intersection of law and marriage and finally the influence of legal thinking on the crusading movement.

Biblical Eschatology, Second Edition, Jonathan Menn, 2018-03-07. *Biblical Eschatology* provides what is not found in any other single volume on eschatology; it analyzes all the major eschatological passages, including the Olivet Discourse and

the book of Revelation issues including the second coming of Christ the millennium the rapture and Antichrist and positions including all the major views of the millennium in a clear but not superficial way The book concludes with a chapter showing how eschatology is relevant for our lives Biblical Eschatology makes understanding eschatology easier by including chapters on how to interpret prophecy and apocalyptic literature by showing the history of eschatological thought and by placing eschatology in the context of the Bible s overall story line and structure Clarity and understanding are enhanced by the use of comparative tables and appendices Subject and Scripture indexes are included The book interacts with the best of Evangelical and Reformed scholarship and the extensive bibliography which includes the web addresses of many online resources provides an excellent source for the reader s further study This is a perfect resource for intelligent Christians including pastors students and teachers who desire to understand eschatology and to see how it fits together with the rest of the Bible

The Emperor's Codes Michael Smith, 2011-08-01 In this gripping previously untold story from World War II Michael Smith examines how code breakers cracked Japan s secret codes and won the war in the Pacific He also takes the reader step by step through the process explaining exactly how the code breakers went about their daunting task made even more difficult by the vast linguistic differences between Japanese and English The Emperor s Codes moves across the world from Bletchley Park to Pearl Harbor from Singapore to Colombo and from Mombasa to Melbourne It tells the stories of John Tiltman the British soldier turned code breaker who made many of the early breaks in Japanese diplomatic and military codes Commander Joe Rochford the leading expert on Japanese in U S naval intelligence Eric Nave the Australian sailor who pioneered breakthroughs in deciphering Japanese naval codes and Oshima Hiroshi the hard drinking Japanese ambassador to Berlin whose candid often verbose reports to Tokyo of his conversations with Hitler and other high ranking Nazis were a major source of intelligence in the war against Germany Without the dedication demonstrated by these relatively unsung heroes the outcome of World War II might have been very different
