Hegel's Phenomenology of Spirit Martin Heidegger, 1988-08-22 An English translation of Martin Heidegger Hegles Phanomenologie des Geistes Volume 32 of the Gesamtausgabe Complete Edition which constitutes the lecture course given by Heidegger at the University of Freiburg This text occupies an important place among Heidegger s writings on Hegel There are several crucial discussions of Hegel as well as brief analyses of Hegel spread throughout Heidegger writings

Hegel's Phenomenology of Spirit Martin Heidegger, 1988-08-22 The text of Martin Heidegger s 1930 1931 lecture course on Hegel s Phenomenology of Spirit contains some of Heidegger s most crucial statements about temporality ontological difference and dialectic and being and time in Hegel Within the context of Heidegger s project of reinterpreting Western thought through its central figures Heidegger takes up a fundamental concern of Being and Time a dismantling of the history of ontology with the problematic of temporality as a clue He shows that temporality is centrally involved in the movement of thinking called phenomenology of spirit

Genesis and Structure of Hegel's "Phenomenology of Spirit" Jean Hyppolite, 1974 Jean Hyppolite produced the first French translation of Hegel s Phenomenology of Spirit His major works the translation his commentary and Logique et existence 1953 coincided with an upsurge of interest in Hegel following World War II Yet Hyppolite s influence was as much due to his role as a teacher as it was to his translation or commentary Foucault and Deleuze were introduced to Hegel in Hyppolite s classes and Derrida studied under him More than fifty years after its original publication Hyppolite s analysis of Hegel continues to offer fresh insights to the reader

The Metaphysics of Historical Jesus Research Jonathan Rowlands, 2015-10-15 In this book Rowlands interrogates the theological and philosophical foundations of the Quest for the historical Jesus from Reimarus to the present day culminating in a call for greater metaphysical transparency and diversity in the discipline This multidisciplinary approach to historical Jesus research drawing on historiography sociology philosophy and theology makes a significant and original contribution to the field Part I outlines the implicit role of metaphysical presuppositions in historical methodology by examining the concept of an historiographical worldview Part II provides an overview of the Quest for the historical Jesus demonstrating that the disparate historiographical worldviews operative in the Quest evidence a particular shared characteristic in that they might accurately be described as secular Rowlands study concludes with a call for a greater plurality and openness regarding the philosophical and theological presuppositions at work in historical Jesus research The Metaphysics of Historical Jesus

Research is of interest to students and scholars working on New Testament studies and historical Jesus research

Hegel Martin Heidegger, 2015-08-31 This excellent translation of Heidegger s writings on Hegel shows an essential engagement between two of the foundational thinkers of phenomenology Phenomenological Reviews While Martin Heidegger s writings on Hegel are notoriously difficult this volume provides a clear and careful translation of two important texts a treatise on negativity and a penetrating reading of Hegel s Phenomenology of Spirit In these stimulating works Heidegger relates his

interpretation of Hegel to his own thought on the event taking up themes developed in Contributions to Philosophy While many parts of the text are fragmentary in nature these interpretations are considered some of the most significant as they bring Hegel into Heidegger's philosophical trajectory **Giorgio Agamben** Thanos Zartaloudis,2010-02-25 Giorgio Agamben Power Law and the Uses of Criticism is a thorough engagement with the thought of the influential Italian philosopher Giorgio Agamben It explores Agamben's work on language ontology power law and criticism from the 1970s to his most recent publications Introducing Agamben's work to a readership in legal theory as well as in the humanities and social sciences more generally Thanos Zartaloudis argues that an adequate understanding of Agamben's Homo Sacer project requires an attention to his earlier philosophical writings on language ontology power and time It is through this attentive and creative analysis of Agamben's work that Zartaloudis here presents a rethinking of the ideas of justice and criticism

The Oxford Handbook of the History of Ethics Roger Crisp,2013-01-31 This original and comprehensive volume explores the history of philosophical ethics in the western tradition from Homer until the present day Leading experts in the field use their expertise and specialist knowledge to illuminate key subjects and ideas in contemporary ethics and survey the history of the discipline **Configurations of the Real in Chinese Literary and Aesthetic Modernity** Peter Button,2009 Tracing the formation of the modern concept of literature in 20th century China this book examines the emergence of the Chinese socialist realist novel in relation to the literary and philosophical currents globalized in the wake of capitalist modernity Provided by publisher **Sartre and his Predecessors** William Ralph Schroeder,2019-04-15 This study first published in 1984 presents an explanation and critical examination of the theories of Sartre Heidegger Husserl and Hegel on the fundamental relationships between persons It also synthesizes the results into a new conception of one's relation to other people Sartre's famous discussion of the Look in his early treatise Being and Nothingness is the point of departure and central text Since Sartre critically responds to his three famous predecessors these thinkers are given an independent hearing The book demonstrates various ways in which persons are internally related to one another shows that one's access to other people typically does not compare unfavourably with one's access to oneself and establishes the importance of a prior comprehension of the status of other people for an adequate treatment of knowing them **Worldview** David K. Naugle,2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and

Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers

Phenomenology of Spirit Georg Wilhelm Friedrich Hegel,1998 wide criticism both from Western and Eastern scholars

Merleau-Ponty and Derrida Jack Reynolds,2004 While there have been many essays devoted to comparing the work of Maurice Merleau Ponty with that of Jacques Derrida there has been no sustained book length treatment of these two French philosophers Additionally many of the essays presuppose an oppositional relationship between them and between phenomenology and deconstruction more generally Jack Reynolds systematically explores their relationship by analyzing each philosopher in terms of two important and related issues embodiment and alterity Focusing on areas with which they are not commonly associated e g Derrida on the body and Merleau Ponty on alterity makes clear that their work cannot be adequately characterized in a strictly oppositional way Merleau Ponty and Derrida Intertwining Embodiment and Alterity proposes the possibility of a Merleau Ponty inspired philosophy that does not so avowedly seek to extricate itself from phenomenology but that also cannot easily be dismissed as simply another instantiation of the metaphysics of presence Reynolds argues that there are salient ethico political reasons for choosing an alternative that accords greater attention to our embodied situation As the first full length monograph comparing the philosophers Merleau Ponty and Derrida will interest scholars and students in European philosophy and teachers of courses dealing with deconstruction

Phenomenology and Existentialism in the Twentieth Century Anna-Teresa Tymieniecka,2009-09-30 Phenomenology and existentialism transformed understanding and experience of the Twentieth Century to their core They had strikingly different inspirations and yet the two waves of thought became merged as both movements flourished The present collection of research devoted to these movements and their unfolding interaction is now especially revealing The studies in this first volume to be followed by two succeeding ones range from the predecessors of existentialism Kierkegaard Jean Wahl Nietzsche to the work of its adherents Shestov Berdyaev Unamuno Blondel Blumenberg Heidegger and Mamardashvili Dufrenne and Merleau Ponty to existentialism s congruence with Christianity or with atheism Among the leading Husserlian insights are treated essence and experience the place of questioning ethics and intentionality temporality and passivity and the life world The following book will uncover the perennial concerns guiding the wondrous interplay of these two inspirational sources

Alienation. Recuperating the Classical Discussion of Marx et al. Asger Sørensen,2024-04-22 Nowadays alienation is naturally discussed as an existential condition of human beings but in the 20th century a strong Marxist current claimed alienation to be implied by capitalism in particular by private property and the social division of labor Alienation should therefore be criticized as part of the critique of capitalism and political economy and might therefore also possibly be overcome Today under the hegemony of neo liberal capitalism the basic logic of Marx s idea of alienation is more relevant than ever having as is argued in this book critical social as well as constructive pedagogical and political potential

The Artist-Philosopher and New Philosophy George Smith,2018-07-11 In The Artist Philosopher and New

Philosophy Smith argues that Western Metaphysics has indeed come to what Heidegger describes as an end That is hardly to say philosophy as such is over or soon to disappear rather its purpose as a medium of cultural change and as a generator of history has run its course He thus calls for a New Philosophy conceptualized by the artist philosopher who makes or poeticizes New Philosophy spanning literary and theoretical discourses and operating across art in all its forms and across culture in all its locations To this end Smith proposes the establishment of schools and social networks that advance the training and development of artist philosophers as well as global digital networks that are themselves designed toward this ever becoming community The Publishers' Trade List Annual ,1985 **Religion without Belief** Jean Ellen

Petrolle,2008-06-05 Shows there is a strong religious impulse in postmodern literature and film *Philosophers and Their Poets* Charles Bambach,Theodore George,2019-12-01 Examines the role that poets and the poetic word play in the formation of philosophical thinking in the modern German tradition Several of the most celebrated philosophers in the German tradition since Kant afford to poetry an all but unprecedented status in Western thought Fichte Hegel Nietzsche Heidegger and Gadamer argue that the scope limits and possibilities of philosophy are intimately intertwined with those of poetry For them poetic thinking itself is understood as intrinsic to the kind of thinking that defines philosophical inquiry and the philosophical life and they developed their views through extensive and sustained considerations of specific poets as well as specific poetic figures and images This book offers essays by leading scholars that address each of the major figures of this tradition and the respective poets they engage including Schiller Archilochus Pindar Hlderlin Eliot and Celan while also discussing the poets contemporary relevance to philosophy in the continental tradition Above all the book explores an approach to language that rethinks its role as a mere tool for communication or for the dissemination of knowledge Here language will be understood as an essential event that opens up the world in a primordial sense whereby poetry comes to have a deeply ethical significance for human beings In this way the volume positions ethics at the center of continental discourse even as it engages philosophy itself as a discourse about language attuned to the rigor of what poetry ultimately expresses With its impressive range of both philosophers and poets this volume opens up new avenues of thinking at the intersections of philosophy and poetry Robert D Metcalf cotranslator of Martin Heidegger s Basic Concepts of Aristotelian Philosophy **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1976 **Philosophical Perspectives on Esotericism** Olli Pitkänen,2024-11-12 This volume offers the first systematic philosophical study of esotericism and late modern philosophy It addresses fundamental philosophical questions related to esotericism and reveals that esoteric ideas have had decisive impact on countless important philosophers even if this fact has been neglected in contemporary philosophy The first part of the book is dedicated to substantial and methodological questions What is philosophy what is esotericism and how should we think about their relationship The second section is more historically oriented and it is divided in two parts Part I is concerned with German romanticism and idealism with a specific focus on the

influence of esotericism on Hegel and Schelling as well as the connection between romanticism and Kabbalah in the work of Gershom Scholem Part II explores esotericism in phenomenology pragmatism and post idealism specifically in the work of William James Martin Heidegger Henri Bergson and Roy Bhaskar Philosophical Perspectives on Esotericism will appeal to scholars and advanced students working in philosophy of religion history of philosophy and religious studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by Kone Foundation
