Reading Austen in America Juliette Wells,2017-10-05 Reading Austen in America presents a colorful compelling account of how an appreciative audience for Austen s novels originated and developed in America and how American readers contributed to the rise of Austen s international fame Drawing on a range of sources that have never before come to light Juliette Wells solves the long standing bibliographical mystery of how and why the first Austen novel printed in America the 1816 Philadelphia Emma came to be She reveals the responses of this book s varied readers and creates an extended portrait of one Christian Countess of Dalhousie a Scotswoman living in British North America Through original archival research Wells establishes the significance to reception history of two transatlantic friendships the first between ardent Austen enthusiasts in Boston and members of Austen s family in the nineteenth century and the second between an Austen collector in Baltimore and an aspiring bibliographer in England in the twentieth

Housing the New Romans Katharine T. von Stackelberg, Elizabeth Macaulay-Lewis, 2017-06-01 In the last twenty years reception studies have significantly enhanced our understanding of the ways in which Classics has shaped modern Western culture but very little attention has been directed toward the reception of classical architecture Housing the New Romans Architectural Reception and Classical Style in the Modern World addresses this gap by investigating ways in which appropriation and allusion facilitated the reception of Classical Greece and Rome through the requisition and redeployment of classicizing tropes to create neo Antique sites of dwelling in the 19th and early 20th centuries The volume across nine essays will cover both European and American iterations of place making including Sir John Soanes house in London the Hotel de Beauharnais in Paris and the Getty Villa in California By focusing on structures and places that are oriented towards private life houses hotels clubs tombs and gardens the volume directs the critical gaze towards diverse and complex sites of curatorial self fashioning The goal of the volume is to provide a multiplicity of interpretative frameworks e.g. object agency enchantment hyperreality memory infrastructure that may be applied to the study of architectural reception This critical approach makes Housing the New Romans the first work of its kind in the emerging field of architectural and landscape reception studies and in the hitherto textually dominated field of classical reception

"Fashion, Interior Design and the Contours of Modern Identity" Alla Myzelev, 2017-07-05 Challenging the notion that fashion and furniture were or are separate enterprises and distinct material aesthetic traditions this collection focuses on three material and conceptual links central to understanding the relationship between interior design and fashion the body fabric and space The volume considers the changing visual material and spatial character methodological challenges posed by and formal political and historiographical significance of a wide range of British European and North American case studies since the eighteenth

century The volume s eleven case studies allow the reader to understand connecting notions behind the formation of interiors and fashionable clothing The essays combine a wide range of significant and challenging new examples alongside powerful revisionary analyses of the various periods artists designers and their best and significant objects Fashion Interior Design and the Contours of Modern Identity is concerned not only with fabric but also with the body and the implications of embodiment in the practices of both design domains which are equally invested in the comfort aesthetic pleasure extension and support of the body in different and yet seemingly identical ways *Charles Darwin, Geologist* Sandra Herbert, 2005

Pleasure of imagination I a geologist have illdefined notion of land covered with ocean former animals slow force cracking surface c truly poetical from Charles Darwin s Notebook M 1838 The early nineteenth century was a golden age for the study of geology New discoveries in the field were greeted with the same enthusiasm reserved today for advances in the biomedical sciences In her long awaited account of Charles Darwin s intellectual development Sandra Herbert focuses on his geological training research and thought asking both how geology influenced Darwin and how Darwin influenced the science Elegantly written extensively illustrated and informed by the author s prodigious research in Darwin s papers and in the nineteenth century history of earth sciences *Charles Darwin Geologist* provides a fresh perspective on the life and accomplishments of this exemplary thinker As Herbert reveals Darwin s great ambition as a young scientist one he only partially realized was to create a simple geology based on movements of the earth s crust Only one part of his scheme has survived in close to the form in which he imagined it a theory explaining the structure and distribution of coral reefs Darwin collected geological specimens and took extensive notes on geology during all of his travels His grand adventure as a geologist took place during the circumnavigation of the earth by H M S Beagle 1831 1836 the same voyage that informed his magnum opus *On the Origin of Species* Upon his return to England it was his geological findings that first excited scientific and public opinion Geologists including Darwin s former teachers proved a receptive audience the British government sponsored publication of his research and the general public welcomed his discoveries about the earth s crust Because of ill health Darwin s years as a geological traveler ended much too soon his last major geological fieldwork took place in Wales when he was only thirty three However the experience had been transformative the methods and hypotheses of Victorian era geology Herbert suggests profoundly shaped Darwin s mind and his scientific methods as he worked toward a full blown understanding of evolution and natural selection **Victorine Du Pont** Leonard C. Spitalé, 2022-12-09 Victorine Elizabeth du Pont the first child of Eleuthère Irénée du Pont and his wife Sophie was seven years old when her family emigrated to America where her father established the humble beginnings of what would become a corporate giant Through correspondence with friends and relatives from the ages of eight to sixty eight Victorine unwittingly chronicled the first sixty years of the du Pont saga in America As she recovered from personal tragedy she became first tutor of her siblings and relations This biography makes the case that Victorine has had the broadest and most enduring influence within the entire du Pont family of any family

member The intellectual heir of her venerable grandfather Pierre Samuel du Pont de Nemours although Victorine grew up in an age where women's opportunities were limited her pioneering efforts in education medicine and religion transformed an entire millworkers community **The Magazine Antiques** ,2002 *Book Review Digest* ,2001 **American Paintings**
