Herbert Smith Guide China Dispute:

Business Disputes in China - 3rd Edition Michael J. Moser, 2011-09-01 China has become a magnet for international business. At the same time the China boom has also produced a dramatic increase in the number and complexity of business disputes. Knowing how to effectively manage business disputes is an important component of every successful China business strategy. *Business Disputes in China* written by the world's leading China disputes experts provides you with an overview of current dispute settlement techniques and tools.

Dispute Resolution in China Michael J. Moser, 2012-07-01 *Dispute Resolution in China* provides an up to date summary, commentary and analysis of how disputes are settled in today's China. Like in many other jurisdictions, litigation and arbitration are the main dispute resolution methods to settle large commercial disputes in China. While litigation is more commonly used in domestic commercial disputes, arbitration is the most popular dispute resolution method among foreign parties who conduct business in China or with Chinese parties. Each of the chapters contained in this book deals with a selected topic in dispute resolution and is authored by a leading expert in the field. This book is a necessary resource for arbitration and litigation attorneys as well as other professionals conducting business in China's increasingly regulated and complex business environment.

Dispute Resolution in the People's Republic of China Zhiqiong June Wang, Jianfu Chen, 2019-12-02 Dispute resolution reforms in China in the last decade or so have all centred around the strategy of establishing an integrated dispute resolution system as part of China's modern governance system. This new integrated system referred to as the Mechanism for Pluralist Dispute Resolution (PDR) in China serves as a dispute resolution system as well as a comprehensive social control mechanism. This book is the first academic attempt to explain the methods of civil and commercial dispute resolution in China from the perspective of PDR. It systematically and critically examines the development of China's dispute resolution system with each chapter analysing in detail the development and transformation of the different institutions, mechanisms and processes in their historical, politico-economic and comparative context.

Dispute Settlement for ASEAN Businesses under the Belt and Road Initiative Locknie Hsu, 2022-12-06 This forward-looking book examines dispute resolution issues in the context of Belt and Road Initiative dealings between parties in ASEAN Member States, China and other trade partners. It discusses a range of commercial dispute issues and economic agreements including free trade agreements and investment agreements both bilateral and regional.

Third Party Funding for Dispute Resolution Beibei Zhang, 2021-03-25 This book represents a comparative study of Third Party Funding (TPF) and its regulation in England, Hong Kong, Singapore, the Netherlands and the Mainland of China. It provides a general review of the background in which TPF grows and the platform where third party funders are allowed to operate. In each and every chosen jurisdiction, the book analyses the legal risks related to TPF, the regulatory measures and the questions surrounding the challenges that lay ahead. This book is featured by the empirical study of the Chinese TPF market. As of the time of this writing, TPF activities operating in China have not been expanded upon in English or Chinese literature.

The language barrier may be one reason The lack of empirical materials may also contribute to this situation In order to obtain some first hand evidence of the TPF market in China the author conducted empirical research in Shenzhen with the assistance of Chinese third party funders and some local organizations and authorities The empirical study took the form of questionnaire surveys The first survey saw in total 175 responses and the second saw 18 responses Due to the fact that many funding arrangements for commercial disputes are kept in the dark it is hard if not impossible to measure the size of the Chinese TPF market This study provides a dataset that serves a humble purpose namely to offer an insight into the Chinese TPF market rather than to grasp the full picture of the industry
