**You Are Here** Whitney Phillips, Ryan M. Milner, 2021-03-02 How to understand a media environment in crisis and how to make things better by approaching information ecologically Our media environment is in crisis Polarization is rampant Polluted information floods social media Even our best efforts to help clean up can backfire sending toxins roaring across the landscape In You Are Here Whitney Phillips and Ryan Milner offer strategies for navigating increasingly treacherous information flows Using ecological metaphors they emphasize how our individual me is entwined within a much larger we and how everyone fits within an ever shifting network map Phillips and Milner describe how our poisoned media landscape came into being beginning with the Satanic Panics of the 1980s and 1990s which they say exemplify network climate change and proceeding through the emergence of trolling culture and the rise of the reactionary far right as well as its amplification by journalists during and after the 2016 election They explore the history of conspiracy theories in the United States focusing on those concerning the Deep State explain why old media literacy solutions fail to solve new media literacy problems and suggest how we can navigate the network crisis more thoughtfully effectively and ethically We need a network ethics that looks beyond the messages and the messengers to investigate toxic information s downstream effects

Richard Wagner,2019-05-30 The first of two groundbreaking volumes on gay history in Wisconsin We've Been Here All Along provides an illuminating and nuanced picture of Wisconsin's gay history from the reporting on the Oscar Wilde trials of 1895 to the landmark Stonewall Riots of 1969 Throughout these decades gay Wisconsinites developed identities created support networks and found ways to thrive in their communities despite various forms of suppression from the anti vice crusades of the early twentieth century to the post war labeling of homosexuality as an illness to the Lavender Scare of the 1950s In We've Been Here All Along R Richard Wagner draws on historical research and materials from his own extensive archive to uncover previously hidden stories of gay Wisconsinites This book honors their legacy and confirms that they have been foundational to the development and evolution of the state since its earliest days      The World's Fair Harry Gardner Cutler,1892      The World's Story Eva March Tappan,1914      *Theology in Global Context* Amos Yong,Peter G. Heltzel,2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville's work      **School Libraries Supporting Students with Hidden Needs and Talents** Karla Bame Collins,2024-10-03 Together librarians and specialists can create experiences to reach all learners in their buildings including those with hidden needs and talents While school librarians are experts at collaborating with classroom teachers too often they overlook the specialists in their buildings as key collaborative partners Focusing on the many specialists who work with students Karla Bame Collins provides information about their roles and responsibilities and discusses how school librarians can collaborate to improve learning for all students including those with hidden needs disabilities and talents that are not easily detected and may go undiagnosed Because librarians work with every student but may not always be informed about each student's particular needs it's important for them to know whom in the school to turn to for information Librarians will gain ideas for working with students to provide the best possible learning environment for each This practical book looks at the whole school library environment collection instruction space and programming and offers many ideas for librarians to collaborate with other educators and specialists for the good of all students      **Library of the World's Best Literature: Synopses of books. *Predicament, and Salvation in the Gospel of John* Mathew E. Sousa, 2021-08-12 Mathew E Sousa demonstrates that in certain respects John's doctrine of salvation fails to align with its customary depiction in Johannine scholarship. Sousa suggests that according to John the human predicament is not merely unbelief or a lack of mental perception and Jesus's mission consists not merely of revelation and or a purely forensic atonement. Rather Jesus is for John the one who makes true and everlasting life an accomplished fact for humanity and in doing so Jesus reveals the true nature of the predicament from which he saves. Sousa argues that salvation in the Gospel of John concerns ethics and the quality or condition of human corporeality. The matters of sin and death in particular also make clear that according to John the human predicament is a reality that in various ways persists for believers as they both are and become children of God. Sousa thus concludes that salvation for John consists of far more than the emergence of belief in a moment of decision.
