## QUICK TIP

Check your Maintenance Schedule or schedule an appointment with a dealer using your Kia Connect account by logging into the Kia Access app (vehicles equipped with Kia Connect only - See page 33 for setup information)

- \* If required
- See the Owner's Manual for complete maintenance schedule. These are approximate estimated intervals. Refer to vehicle mileage for maintenance item schedule.
- AND, if necessary, adjust, correct, clean or replace.
- At TOP TIER detergent gasoline is not available, one bottle of additive is recommended. Additives are available from your authorized Kia dealer along with information on how to use them. Do not mix other additives.
- Engine oil and engine oil filter: As it is normal for engine oil to be consumed during driving, the engine oil level should be checked on regular basis. The engine oil change interval for normal operating conditions is based on the use of the recommended engine specification. If the recommended engine oil specification is not used, then replace the engine oil according to the maintenance schedule under severe operating conditions.

- Inspect for excessive tappet noise and/or engine vibration and adjust if necessary. Have an authorized Kia dealer perform the operation.
- The drive belt should be replaced when marks occur or tension is reduced excessively.
- If the vehicle has been submerged in water or in a flooded area, the fluids should be changed as a precaution.

See your Owner's Manual for more details and complete maintenance information, including severe maintenance schedule. Wear only may be used if maintenance schedule is not followed.
