Literary Advertising And The Shaping Of British Romanticism:

Literary Advertising and the Shaping of British Romanticism Nicholas Mason, 2013-10-01 Important revisions to the history of advertising and its connection to Romantic era literature Outstanding Academic Title Choice Literary Advertising and the Shaping of British Romanticism investigates the entwined histories of the advertising industry and the gradual commodification of literature over the course of the Romantic Century 1750 1850 In this engaging and detailed study Nicholas Mason argues that the seemingly antagonistic arenas of marketing and literature share a common genealogy and in many instances even a symbiotic relationship Drawing from archival materials such as publishers account books merchants trade cards and authors letters Mason traces the beginnings of many familiar modern advertising methods including product placement limited time offers and journalistic puffery to the British book trade during the eighteenth and nineteenth centuries Until now Romantic scholars have not fully recognized advertising s cultural significance or the importance of this period in the origins of modern advertising Mason explores Lord Byron s appropriation of branding Letitia Elizabeth Landon s experiments in visual marketing and late Romantic debates over advertising s claim to be a new branch of the literary arts Mason uses the antics of Romantic era advertising to illustrate the profound implications of commercial modernity both in economic practices governing the book trade and more broadly in the development of the modern idea of literature **The**

Oxford Handbook of British Romantic Prose Robert Morrison, 2024-04-03 The Oxford Handbook of British Romantic Prose is a full length essay collection devoted entirely to British Romantic nonfiction prose Organized into eight parts each containing between five and nine chapters arranged alphabetically the Handbook weaves together familiar and unfamiliar texts events and authors and invites readers to draw comparisons reimagine connections and disconnections and confront frequently stark contradictions within British Romantic nonfiction prose but also in its relationship to British Romanticism more generally and to the literary practices and cultural contexts of other periods and countries The Handbook builds on previous scholarship in the field considers emerging trends and evolving methodologies and suggests future areas of study Throughout the emphasis is on lucid expression rather than gnomic declaration and on chapters that offer not a dutiful survey but evaluative assessments that keep an eye on the bigger picture yet also dwell meaningfully on specific paradoxes and the most telling examples Taken as a whole the volume demonstrates the energy originality and diversity at the crux of British Romantic nonfiction prose It vigorously challenges the traditional construction of the British Romantic movement as focused too exclusively on the accomplishments of its poets and it reveals the many ways in which scholars of the period are steadily broadening out and opening up delineations of British Romanticism in order to encompass and thoroughly evaluate the achievements of its nonfiction prose writers **Interacting with Print** The Multigraph Collective, 2019-02-08 A

thorough rethinking of a field deserves to take a shape that is in itself new Interacting with Print delivers on this premise reworking the history of print through a unique effort in authorial collaboration The book itself is not a typical monograph

rather it is a multigraph the collective work of twenty two scholars who together have assembled an alphabetically arranged tour of key concepts for the study of print culture from Anthologies and Binding to Publicity and Taste Each entry builds on its term in order to resituate print and book history within a broader media ecology throughout the eighteenth and nineteenth centuries The central theme is interactivity in three senses people interacting with print print interacting with the non print media that it has long been thought erroneously to have displaced and people interacting with each other through print The resulting book will introduce new energy to the field of print studies and lead to considerable new avenues of investigation

Reimagining the Historian in Victorian England Elise Garritzen, 2023-08-08 What constitutes a historian What skills and qualities should a historian cultivate Who is entitled to define historians physiognomy Victorians sought to answer these questions as history transformed from a Romantic literary pursuit into a modern discipline during the second half of the nineteenth century This book offers a novel interpretation of this critical historiographical period by tracing how historians forged themselves a collective scholarly persona that legitimized their new disciplinary status By combining historiography and book history Elise Garritzen argues that historians appropriated titles prefaces footnotes and other paratexts as an institutionalized space for fashioning the persona Yet historians did not have a monopoly on the persona as readers and reviewers offered their interpretations of the persona and publishers influenced the paratextual presentation of the persona By ascribing agency to paratexts and the literary marketplace Garritzen makes an important shift in the way we perceive the formation of scholarly personae and modern disciplines The book offers a novel approach to the role which scholarly virtues held in the Victorian society the formation of scholarly communities the commodification of knowledge and the management of scientific reputations It provides new insights for scholars interested in the history of humanities science and knowledge book history and Victorian culture

The Poet-Hero in the Work of Byron and Shelley Madeleine Callaghan, 2019-02-28 Byron's and Shelley's experimentation with the possibilities and pitfalls of poetic heroism unites their work The Poet Hero in the Work of Byron and Shelley traces the evolution of the poet hero in the work of both poets revealing that the struggle to find words adequate to the poet's imaginative vision and historical circumstance is their central

poetic achievement Madeleine Callaghan explores the different types of poetic heroism that evolve in Byron's and Shelley's poetry and drama Both poets experiment with challenge and embrace a variety of poetic forms and genres and this book discusses such generic exploration in the light of their developing versions of the poet hero The heroism of the poet as an idea an ideal and an illusion undergoes many different incarnations and definitions as both poets shape distinctive and changing conceptions of the hero throughout their careers

The Form of Poetry in the 1820s and 1830s David Stewart, 2018-01-08 The 1820s and 1830s the gap between Romanticism and Victorianism continues to prove a difficulty for scholars This book explores and recovers a neglected culture of poetry in those years and it demonstrates that culture was a crucial turning point in literary history It explores a uniquely wide range of poets including the poetry of the literary annuals Letitia Landon Felicia Hemans Robert Browning Samuel Taylor Coleridge Thomas Hood and John Clare placing their work in the light of new research into the conditions of the literary market In turn it uses that culture to open up wider theoretical issues relating to literary form book history print culture gender and periodisation The period's doubt about poetry's place in culture and its capacity to last prompted a dazzling range of creative experiments that reimagined the metrical material and commercial forms of poetry

Multilingual Subjects Daniel DeWispelare, 2017-04-04 In the eighteenth century the British Empire pursued its commercial ambitions across the globe greatly expanding its colonial presence and with it the reach of the English language During this era a standard form of English was taught in the British provinces just as it was increasingly exported from the British Isles to colonial outposts in North America the Caribbean South Asia Oceania and West Africa Under these conditions a monolingual politics of Standard English came to obscure other forms of multilingual and dialect writing forms of writing that were made to appear as inferior provincial or foreign oddities Daniel DeWispelare's *Multilingual Subjects* at once documents how different varieties of English became sidelined as dialects and asserts the importance of both multilingualism and dialect writing to eighteenth century anglophone culture By looking at the lives of a variety of multilingual and nonstandard speakers and writers who have rarely been discussed together individuals ranging from slaves and indentured servants to translators rural dialect speakers and others DeWispelare suggests that these language practices were tremendously valuable to the development of anglophone literary aesthetics even as Standard English became dominant throughout the ever expanding English speaking world Offering a prehistory of globalization especially in relation to language practices and politics *Multilingual Subjects* foregrounds the linguistic multiplicities of the past and examines the way these have been circumscribed through standardized forms of literacy In the process DeWispelare seeks to make sense of a present in which linguistic normativity plays an important role in determining both what forms of writing are aesthetically valued and what types of speakers and writers are viewed as full fledged bearers of political rights

Byron, Hunt, and the Politics of Literary Engagement Michael Steier, 2019-07-03 In the second decade of the nineteenth century the British press began a campaign of critical abuse against Leigh Hunt caricaturing the radical journalist as an upstart Cockney author whose literary talents were as disreputable as his politics Lord Byron on the other hand was revered as a peer and a poetical genius who the conservative press argued would never befriend and collaborate with a writer like Hunt Yet Byron did just that Byron Hunt and the Politics of Literary Engagement is the first full length study of the friendship and literary relationship of two of the most important second generation Romantic authors Challenging long held critical attitudes this study shows that Byron and Hunt engaged in a creative and meaningful dialogue at each major stage in their careers from their earliest published volumes of juvenile poetry and verse satire to their most celebrated contributions to Romantic literature The Story of Rimini and Don Juan Drawing upon newly recovered letters and unpublished manuscript material this book illuminates the surprisingly durable and artistically significant friendship of Lord Byron and Leigh Hunt

Apostle of Union Matthew Mason, 2016-09-02 Known today as the other speaker at Gettysburg Edward Everett had a distinguished and illustrative career at every level of American politics from the 1820s through the Civil War In this new biography Matthew Mason argues that Everett s extraordinarily well documented career reveals a complex man whose shifting political opinions especially on the topic of slavery illuminate the nuances of Northern Unionism In the case of Everett who once pledged to march south to aid slaveholders in putting down slave insurrections Mason explores just how complex the question of slavery was for most Northerners who considered slavery within a larger context of competing priorities that alternately furthered or hindered antislavery actions By charting Everett s changing stance toward slavery over time Mason sheds new light on antebellum conservative politics the complexities of slavery and its related issues for reform minded Americans and the ways in which secession turned into civil war As Mason demonstrates Everett s political and cultural efforts to preserve the Union and the response to his work from citizens and politicians help us see the coming of the Civil War as a three sided not just two sided contest

The Faces and Stakes of Brand Insertion Sébastien Lefait,Sandrine Villers,2022-03-22 With traditional forms of advertisement facing increasing challenges brand placement the integration of a product or brand in a work of art has exploded It has become a lucrative phenomenon whose goal is to produce a reaction of purchase in the mind of the receiver reader viewer or listener This volume seeks to complement extant studies of product placement strategies by introducing a methodology more systematically related to the field of cultural studies especially where the reception and impact of product placement are concerned It explores the many iterations of brand placement in popular culture with a consideration of the crossover between advertisement and art in everything from Wes Anderson Blade Runner and the Fast and Furious franchise to music videos late night shows and plastic art The book considers the impact of brand placement in TV series on teenagers as well as the evolution of such placement in literature The originality of this volume is that when the impact of the placement is mentioned it is to be understood as an intended aesthetic impact at least as much as a prompt to buy a product Consequently the placement of consumer goods in a cultural production the book suggests may both increase the sales of specific products and positively impact the production s ratings This book is perfect for researchers and students interested in marketing brand placement mass media art film and cultural studies
