INTRODUCTION

There were many ships, railroads, and other kinds of transportation that helped change and **modernize** the United States more. In that specifically, ships. Now there are many kinds of boats and ships, but I think that the clipper ship changed the United States more. 1. It helped to bring tea to countries in a much faster way. 2. Ships that sail were a lot faster than the ships that use steam.

GROUPING
IDEAS INTO
PARAGRAPHS

First of all, the clipper ship helped bring tea to countries in a much faster way. Tea was in a greater demand for an all-time high. So, the clipper ships helped bring those tea in a much faster way and could handle many sails! Some ships had more than thirty sails! The first american clipper ship made the trip to London a month faster than the older ships.

Lastly, Ships that sail were a lot faster than the ships that used steam. Steam ships could not keep up at all with the clipper ships. Early American clipper ships, such as the Rainbow which was built in 1845, quickly set speed records wherever it went! Soon, these ships were racing to see who could reach to London and give the markets the tea first!

CONCLUSION

In conclusion, I think that clipper ships helped changed the United states more. That's because it helped to bring tea to countries in a much faster way, and ships that sail were much faster than ships that used steam. So, do your part in **honoring** the clipper ships and thank it for bringing all these good changes to our country!
